

## Senior Presentations

The purpose of your senior presentation is to share your goals for the future and discuss the experiences and interests inside and outside of high school that have inspired or prepared you for this future.

Think in terms of presenting **YOUR journey or story**. Who were you in ninth grade? What are the key experiences that shaped you or influenced you? Who are you now? What are your goals and dreams for the future?

### Do's

- Remember the purpose of the presentation.
- Be yourself. Share your interests, inspirations, and goals.
- Thoughtfully plan your presentation.
- Be as creative as you wish.
- Create a presentation that is visually pleasing and interesting. Keep words on the slides to a minimum. You want the audience listening to you, not reading a slide.
- Practice your presentation.
- Look at and speak to your audience.
- Ask your advisor for guidance if needed.

### Don'ts

- Procrastinate.
- Use the same presentation as you used in ninth grade.
- Show slides that are difficult to read.
- Be nervous. This is your story; we all want to hear it.
