

"All of our kids are all of our kids!"

Counselor's Corner

with Mrs. Watson

We are hopeful that the weather will improve soon and that usually means kids outside playing and having fun. Getting outside is great for our kids and everyone, but remember to review safety rules with your children first.

We have some safety rules they can review [here](#) but make sure they know your rules too. Like what they do with a BIG problem and where it is safe to go and where it isn't etc. It is important that kids know these rules before they go out to play.

As we pass the one year mark of the pandemic remember to help your children understand that ALL of their feelings are OKAY! It is ok to acknowledge when things are hard and that we miss doing some things.

Ask your children:

- Who and what helps you to feel better when you are sad, lonely or scared?
- What are they looking forward to?
- What are they grateful for?

[Here are some other activities you can do with your family](#)

If you would like more resources or support for your student take a look at the counseling website or you can contact Mrs.

Watson or our main office:

Remind

Please download the Remind app to your phone.

What is Remind? It is a communication platform that helps educators reach students and parents easily. Messages are sent to an entire class, a small group, or just a single person. It also has more than 90 languages to help families communicate with their teachers and school. Remind is also designed to protect the safety and security of users and their personal information.

Good Things

A Message From Principal Holloman

The start of our K-5 Hybrid Program has been a success. Our staff and parents have been excited to have students back in classrooms and the students have been amazing. We have all learned a lot over the last year and one lesson I have learned is that students are resilient. Gildo Rey Hawks are the best. It is great to see kids thrive on-line and in person.

Thank you to our outstanding parents and community for being a key to our success. Your support is appreciated. Go Hawks!

Wellness Screening Resources for Families

The most important protective practice schools and parents can take is to require students and staff to stay home when they are ill. Self screening by parents with a home temperature and symptom check has been identified as the most effective strategy to achieve this objective.

Parents must be diligent in self-screening each of their children daily to assess their current health. If the answer is yes to any of these questions the student needs to stay home from school. Please contact the school to report the absence as well as the symptoms/exposure.

Thank you for helping us keep Gildo Rey a healthy and safe place to be!
