Home Fire Safety and Drill Practice

Each fall we teach students how to respond in emergency situations like a fire or earthquake. This week was Fire Prevention Week and I would like to encourage you to have a conversation with your children about what they should do in case of a fire at home and please consider a home fire drill.

Home fire escape planning should include the following:

- Drawing a map of each level of the home, showing all doors and windows
- Going to each room and pointing to the two ways out
- Making sure someone will help children, older adults, and people with disabilities wake up and get out
- Teaching children how to escape on their own in case you cannot help them
- Establishing a meeting place outside and away from the home where everyone can meet after exiting
- Having properly installed and maintained smoke alarms
- Do a family drill by pushing the smoke alarm button to start the drill
- Practicing what to do in case there is smoke: Get low and go. Get out fast.
- Practicing using different ways out and closing doors behind you as you leave
- Never going back for people, pets, or things • Going to your outdoor meeting place
- Calling 9-1-1 or the local emergency number from a cell phone or a neighbor's phone

October 12th - 16th.

Hazelwood continues its work with No Excuses University to promote college and career options after high school. Teachers will share their classroom colleges and wear college gear on Monday. On Friday, we hope students will submit a Flipgrid about "My Future Self". More details will be coming from your child's teacher or our school counselor, Mrs. Sauerbier.
