

## Career & Technical Education Supply Kit Permission Form

Career and Technical Education (CTE) courses are designed to give students hands-on experiences in a variety of fields that can lead to careers beyond high school. Your student is enrolled in a CTE course in the Auburn School District. During Remote Learning while in-person instruction with hands-on learning is not possible, he/she is being offered the opportunity to deepen their learning through assignments that require the use of small tools. This document outlines the risks associated with these tools. *By completing and signing this document, you are giving permission for your son/daughter to check out a supply kit and releasing the Auburn School District from any liability of injury that may result from the presence and/or use of these tools in your home.* If you do not wish to give this permission, your student will be provided with alternative assignments with similar standards that may not allow for the same depth of learning.

Parent Name: (Print): _____	Parent Initials
I authorize my student to check out the Supply Kit for ( _____ )	
I assume responsibility for the supervision of my student in my home with these tools	
I release the Auburn School District from any liability of injury that may result from the presence and/or use of these tools in our home	
I understand that if my student does not return the Supply Kit at the end of the quarter they will be assessed a fine of \$ _____	
I understand that if my student returns a Supply Kit with missing or damaged tools they will be fined for those items (see breakdown of items below)

Date: \_\_\_\_\_

As your students' teacher, I will be demonstrating appropriate instruction in safe operational manners and provide project procedure lists to keep them focused and safe. Although instructions and demonstrations are in place to prevent accidents, a certain risk is involved due to the nature of the experience, age of the student, and the learning environment. I am asking you to impress upon your son / daughter, the importance of following the instructions, being careful and working safely. This will support the instruction given by me as the instructor.

Thank you for your support,
