The Why for a Strategic Plan

The What of a Strategic Plan

A lighthouse with a white tower and a red roof sits on a dark, rocky cliff overlooking the ocean. A bright beam of light emanates from the lantern room, cutting through the dark, cloudy sky. The water below is a deep blue. The overall mood is dramatic and serene.

Strategic Planning

March 23, 2022

Outcomes

Data isn't useful unless it results in actions.

This committee will create the conditions for actionable change.

DATA for ACTION

This fall the district conducted a perceptual survey with staff, students and families. We partnered with the Center for Educational Effectiveness and refer to this survey as the CEE survey. These are the top areas that need improvement

This committee was formed deliberately to respond to the staff and family responses. We will see more perceptual data in our future meetings.

56% of Families responded positively to *“This school includes me in conversations about race, culture and gender equity”*

42% of Staff responded positively to the statement *“A diverse representation of parents and community are involved in school decision making”*

46% of Staff responded positively to the statement *“With important decisions we seek input from parents and community”*

Outcomes- Focus

A **Fresnel lens** is a type of lens developed by a French physicist for use in lighthouses. It has been called "**the invention that saved a million ships.**" A lighthouse lens uses internal reflection as well as refraction; it can capture more light from a light source and add it to the beam of a lighthouse, making the light visible from greater distances.

Studies show that one of the leading causes of improved student achievement is having a **clear and narrow focus** like the Fresnel lens. A focus that can reflect and build upon the light within the system and project a larger beam moving forward.

Perceptual
(Next meeting)

Our data process

You will look at several sets of data tonight and work with a group to review and reflect on what you see.

Our data process

Guiding questions:

- Who is/isn't benefiting as seen in this data set?
- What does it look like to thrive in this area?

Each group will record their reflection to each data set on chart paper.

Data Lens 1

Demographic

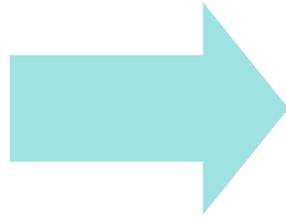

Kindergarten
Ready

Graduation

Demographic Lens- Build from the light within

16,894
students

Current number of active students in K-12 ASD.

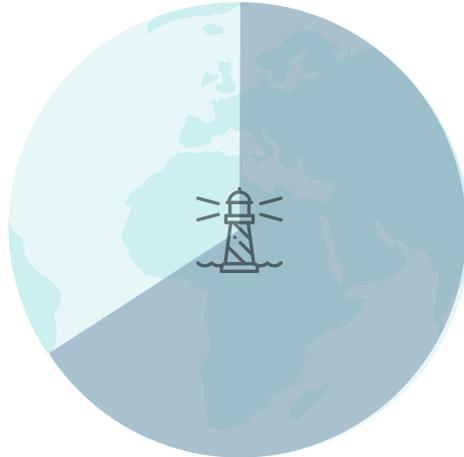

4 in 10 families multilingual

69%

Students of color

Auburn is rich with diversity

108 countries

Global connection

Auburn students come from over 100 countries

Demographics - Receiving Special Education Specific Populations 2016 vs 2021

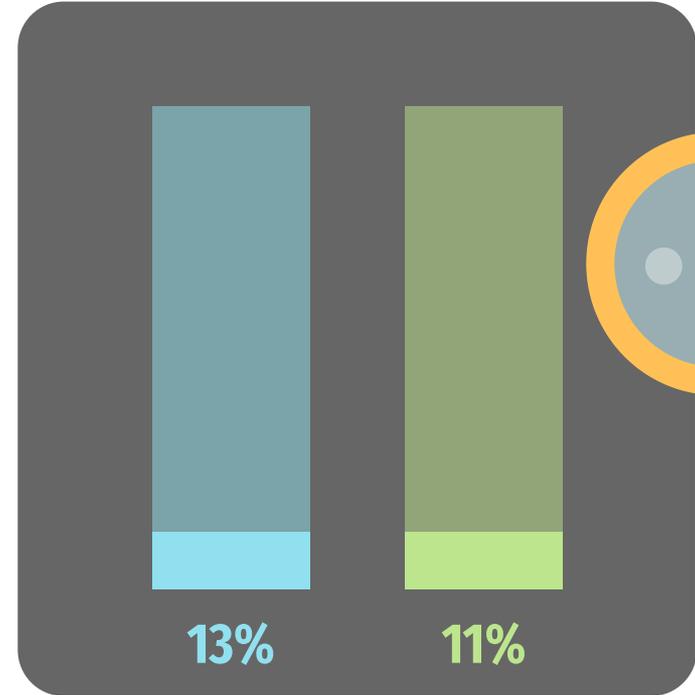

2016

13% (2,063) of all students received Special Education services.

2021

11% (1,975) of all students received Special Education services.

Demographics - Multilingual Learners

Specific Populations 2016 vs 2021

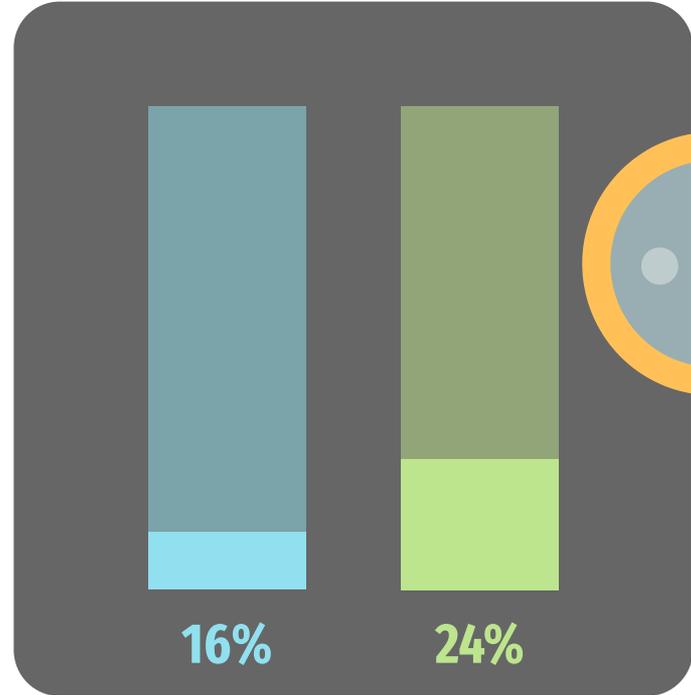

2016

16% (2,546) of all students received Multilingual Learner services.

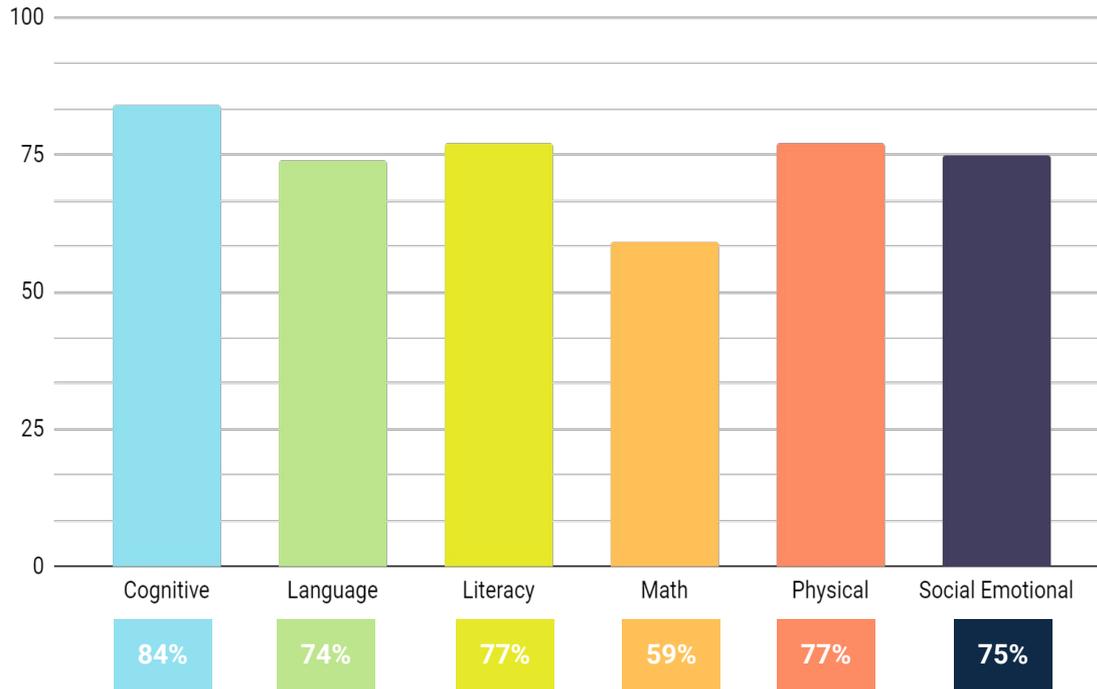

2021

24% (4,082) of all students received Multilingual Learner services.

Kindergarten Readiness

WaKIDS

43%

43% of ASD students entered kindergarten ready in all 6 areas

2019-20 data

Washington Kindergarten Inventory of Developing Skills is administered in the first 6 weeks of Kindergarten

Student enrollment in Preschool & Transitional Kindergarten

Did you know?

464

ECE
Early Childhood Education is designed for students with developmental delays.

246

ECEAP
Early Childhood Education and Assistance Program
Ages 3-4 by August 1.

20

Transitional Kindergarten
Program for 4 year olds who don't have access to high-quality early learning prior to kindergarten.

Progress towards 100% Graduation (In 4 Years)

85

ALL ASD

85% of all ASD students graduated in 4 years

Low Income

79% of students receiving F/R/lunch graduated in 4 years

79

Students receiving Special Education Services

Least Restrictive Environment

Center for Education Effectiveness (CEE) Top Answers

Numbers represent the percentage of positive responses

Staff

I am willing to work at changing my school for the better

97

Family

Communications I get are in a language I can understand

94

Staff

The curricula we teach are aligned with state standards

94

Family

School employees are respectful and courteous of one another

91

Student

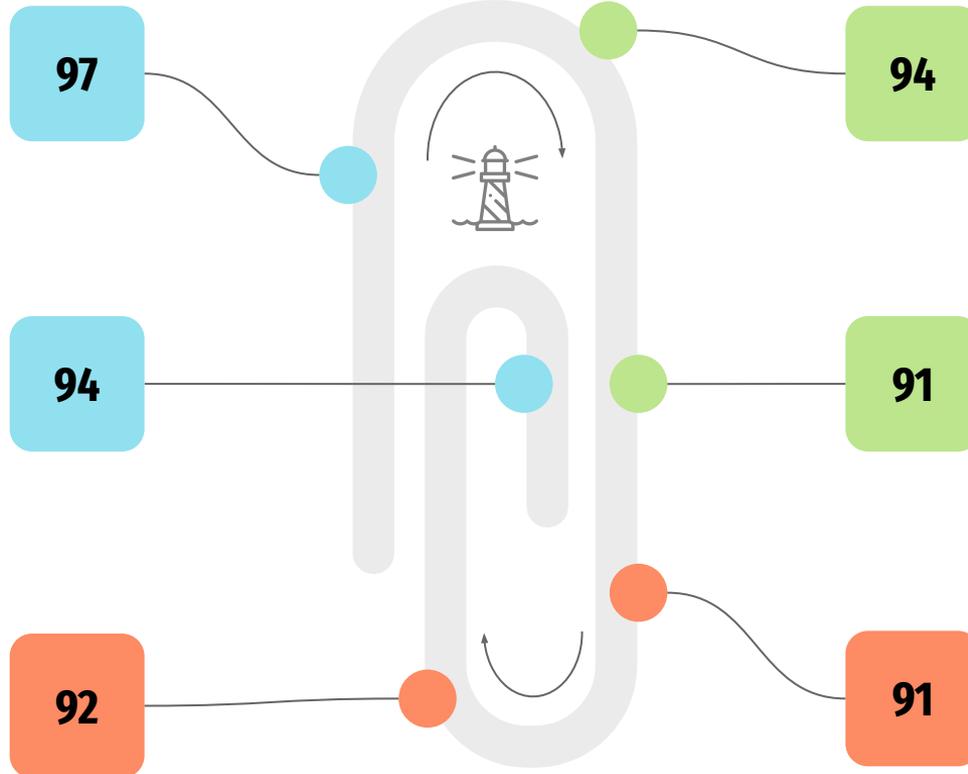

My teacher(s) believe student learning is important

92

Student

My teacher(s) expect me to do my best

91

Center for Education Effectiveness (CEE) Bottom Answers

Numbers represent the percentage of positive responses

Staff

A diverse representation of parents and community are involved in school decision making

42

Staff

With important decisions we seek input from parents and community

46

Student

Most students are respectful of others at this school

42

Family

This school includes me in conversations about race, culture and gender equity

56

Family

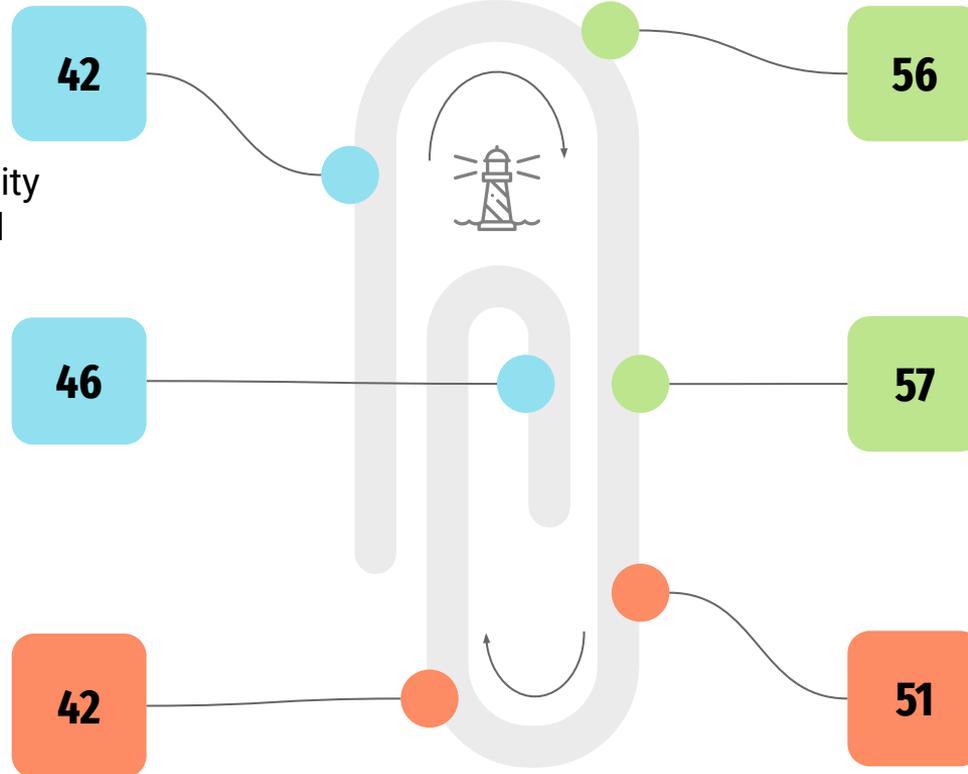

This school tells me how I can help my student with homework

57

Student

In my classes, I learn how to better understand my emotions

Achievement Lens

Public schools power our communities, but their strength depends on us addressing the systemic inequities that our students and communities face.

Rocio Inclan, Senior Director, NEA Center for Social Justice

Achievement Lens- English Language Arts (ELA)

A [long-term study by the Annie E. Casey Foundation](#) found that students who were not proficient in reading by the end of third grade were four times more likely to dropout of high school than proficient readers. In fact, 88 percent of students who failed to earn a high school diploma were struggling readers in third grade.

Data Lens 4- Behavioral

Discipline

Attendance

Discipline and Attendance

Teacher effectiveness is the strongest school-related determinant of student success, but chronic student absence reduces even the best teacher's ability to provide learning opportunities. Students who attend school regularly have been shown to achieve at higher levels than students who do not have regular attendance....

Exclusion from school for discipline (2019-2020)

American Indian

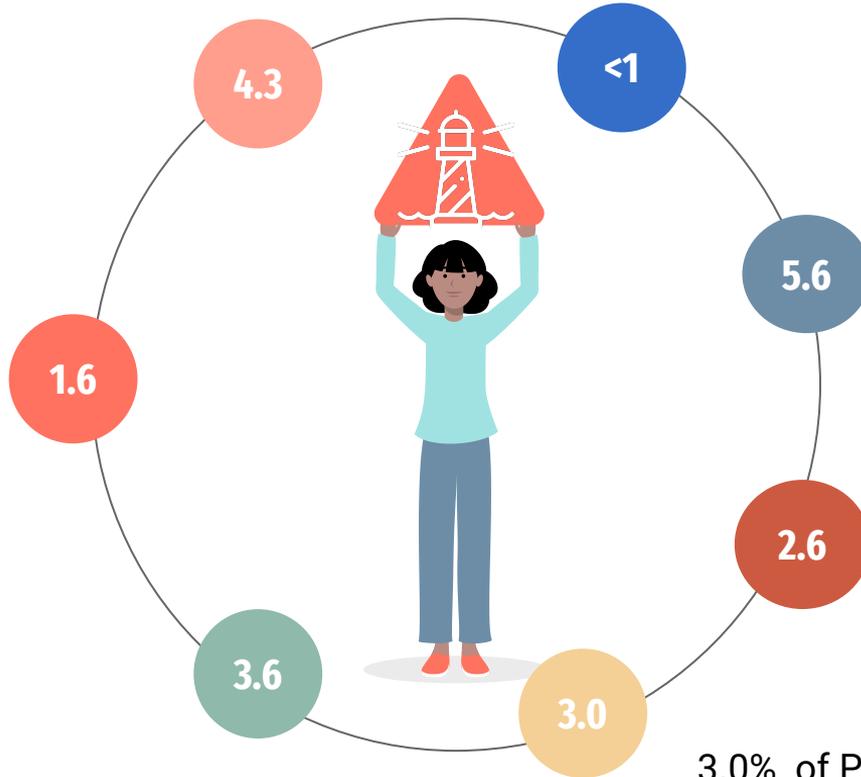

4.3% of American Indian students were excluded from school

White

1.6% of White students were excluded from school

Multiracial

3.6% of Multiracial students were excluded from school

Asian

<1% of Asian students were excluded from school

Black

5.6% of Black students were excluded from school

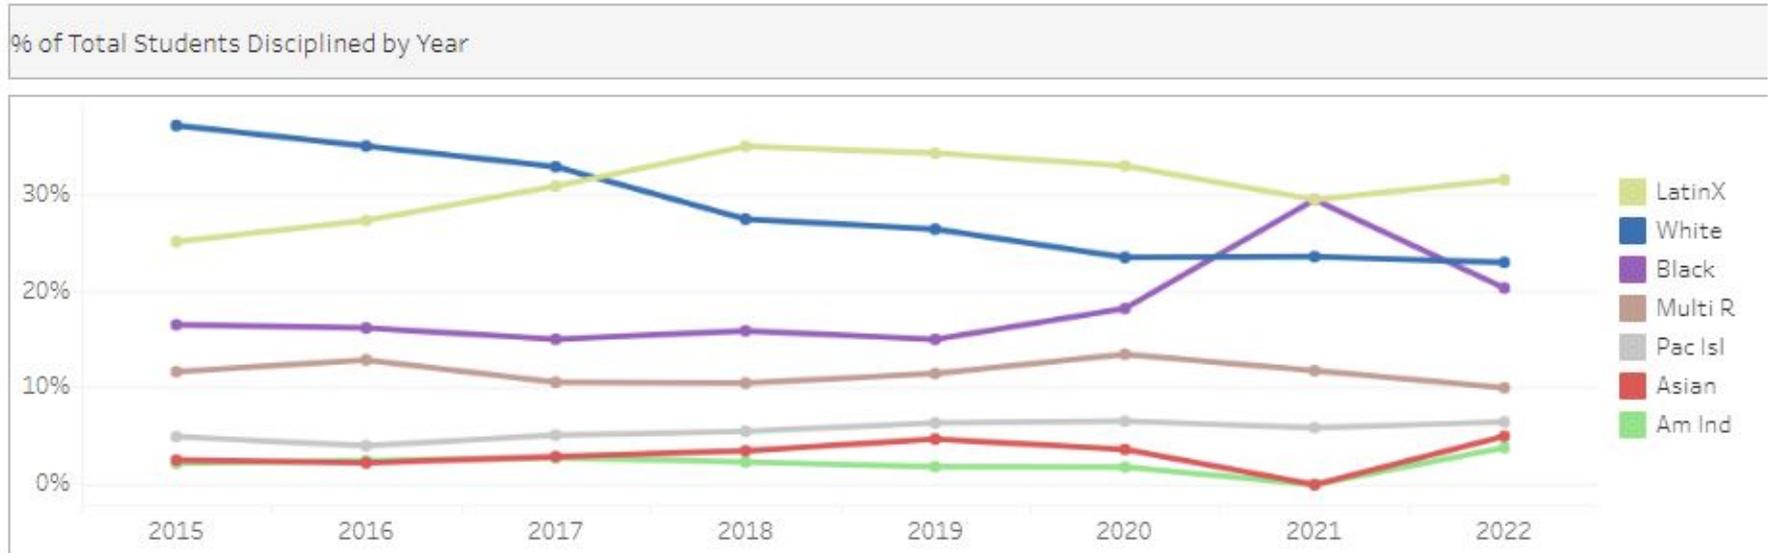

Latino/a

2.6% of Latino/a students were excluded from school

Pacific Islander

3.0% of Pacific Island students were excluded from school

Discipline

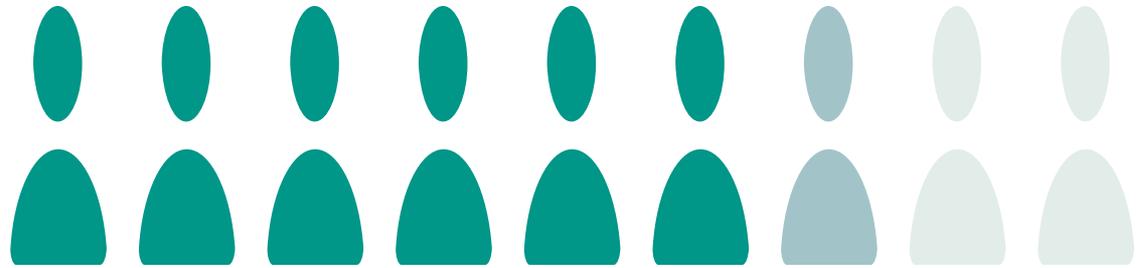

This data set is both in and out of school discipline.

Regular Attendance- <2 Absences per month

70%

7 in 10 ASD students had < 2 per month
8 in 10 WA students had < 2 per month

2020-2021 School Year saw nearly a 10% drop from prior years

Regular Attendance (2020-2021)

American Indian

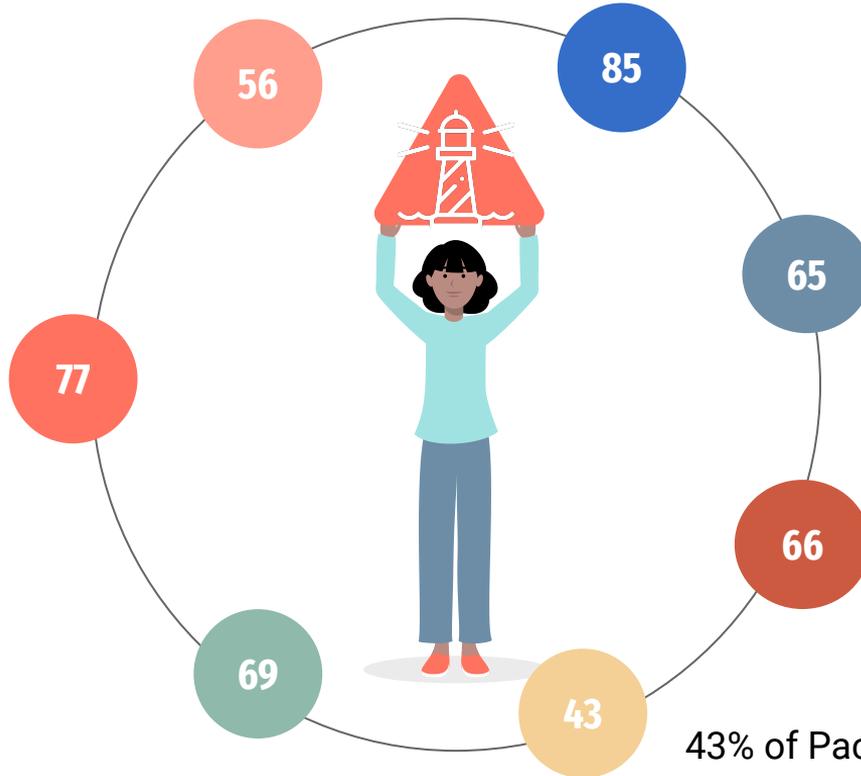

56% of American Indian students had <2 absences per month

White

77% of White students had <2 absences per month

Multiracial

69% of Multiracial students had <2 absences per month

Asian

85% of Asian students had <2 absences per month

Black

65% of Black students had <2 absences per month

Latino/a

66% of Latino/a students had <2 absences per month

Pacific Islander

43% of Pacific Island students had <2 absences per month

Data Lens 5

Career and College Ready

Career and College Ready

Students who earn college credit in high school are more likely to graduate, enroll in postsecondary programs, and complete a college degree or technical certification.

In Washington state, nearly 70 percent of all projected job openings require at least some education beyond high school. Two-thirds currently require a certificate, associate degree, or higher.

Career and College Ready

Today, more of the world's population is bilingual or multilingual than monolingual...Researchers have shown that the bilingual brain can have better attention and task-switching capacities than the monolingual brain, thanks to its developed ability to inhibit one language while using another.

Dual Credit Completion

Dual Credit programs allow students to earn both high school and college credit at the same time. Dual credit programs include:

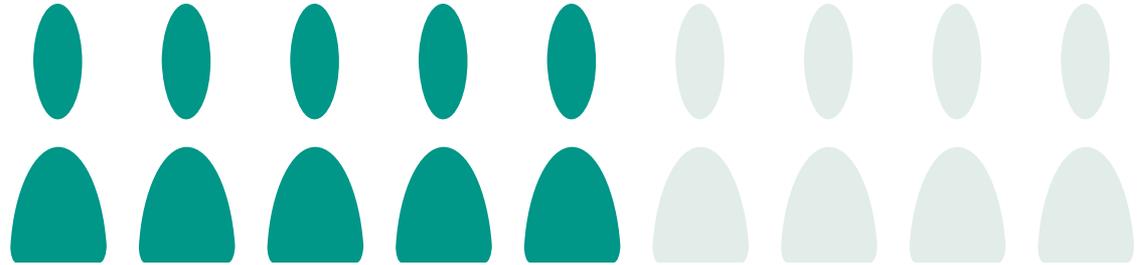

- Running Start
- CTE Dual Credit (formerly Tech Prep)
- College in High School
- Advanced Placement

Students can enroll in more than one type of dual credit course.

Dual Credit Completion (2020-2021)

68%

6.8 in 10 ASD students completed
6.2 in 10 WA students completed

Dual Credit Attainment

Student participation in 2020-2021

22%

AP Courses

Advanced Placement Courses allow students to take the AP test to potentially earn college credit

6%

College in the High School

College in the High School courses allow students who successfully complete the course and pay tuition, to earn college credit

11%

Running Start

Students take college courses on college campuses, tuition free, to earn credit

47%

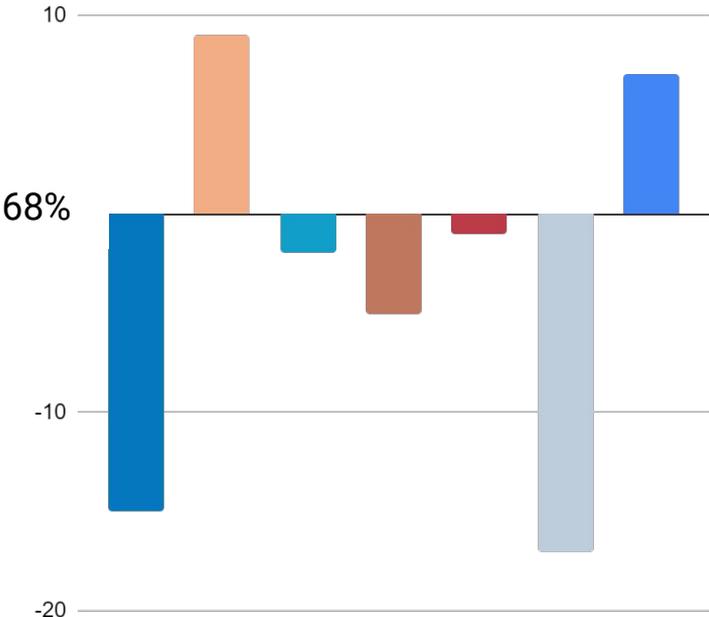

CTE Dual Credit

Students who successfully complete (C or better) a CTE course that has articulation agreements, may earn college credit

Dual Credit Attainment by Race

Performance of different groups 2020-2021

Completion of at least 1 dual credit course in the 20-21 school year compared to the district average (68%)
