Questions from the School Board?

Native American Program: Parents, Community, Federal Trust Responsibility and Students

PARTNERS FOR STUDENT SUCCESS

Treaties:

The Supreme Law of the Land

- During the treaty making years (1778 to 1871), the United States relations with individual American Indian nations were defined and conducted largely through the treaty-making process.
- These were “contracts among nations” that recognized and established unique sets of rights, benefits, and conditions for the treaty making tribes who agreed to cede millions of acres of their homelands to the United States and accept its protection.
- There are 567 federally recognized tribes and 326 federally recognized reservations in the United States, with 29 federally recognized tribes right here in Washington State. **Muckleshoot** is the treaty tribe of this area, whose ancestors have lived here since time immemorial, and whose current members, citizens of the Muckleshoot Nation, continue to reside. The ancestors of Muckleshoot were dispersed between the Green and White Rivers, but also were from as far as Seattle, Bainbridge Island, Yakama and Klickitat. Muckleshoot’s name is derived from the native name for the prairie on which the Muckleshoot Reservation was established in 1857.

Federal Indian Trust Responsibility

- Is a legal obligation under which the United States “has charged itself with moral obligations of the highest responsibility and trust” toward Indian tribes.
- It is one of the most important principles in federal Indian law.
- It is a legally enforceable fiduciary obligation on the part of the United States to protect tribal treaty rights, lands, assets, and resources, as well as a duty to carry out the mandates of federal law with respect to American Indian and Alaska Native tribes and villages.

Request and Recommendation:

- It is requested that the Revenue Policy and Procedures are reviewed.
- It is recommended that the assistant superintendent for business and operations be authorized to apply for and receive Public Law 874 federal funds for the 2017-2018 school year.

REVENUES FROM LOCAL, STATE AND FEDERAL SOURCES

Revenues from Discretionary Local Taxes

As necessary, the district shall consider the necessity of requesting voter approval of an excess property tax to be collected in the year following voter approval. Such a levy, if any, shall be in that amount permitted by law which the board determines necessary to provide educational services beyond those provided by state appropriations. The board shall solicit advice from staff and patrons prior to establishing the amount and purposes of the special levy request. The special levy being collected shall be presented by program and expenditure in the district's annual descriptive guide for patrons as required by law.

Revenues from State Resources

The responsibility for financing public education in Washington falls primarily upon the state.

Revenues from the Federal Government

The objective of the board is to provide the best educational services possible within resources available to the district. Federal grants and programs may provide helpful financial resources towards pursuing that objective.

The board agrees to comply with all federal and state requirements that may be a condition to receipt of federal funds including, but not limited to:

- A. Maintenance of fiscal records which show the receipt and disposition of federal funds;
- B. Provision for eligible private school students to participate in programs and/or services designed for the educationally disadvantaged as well as other programs which are supported by ECIA funds;
- C. Provision for testing to identify target students as well as to measure program results; and
- D. Provision for staff and parent involvement, program planning, budget development and program evaluation.

The district agrees to comply with Title 1 requirements pertaining to the implementation of internal controls for travel, contracted services, training, and capital outlay purchases and expenditures.

The district further assures that a district-wide salary schedule is in effect and that the staff is assigned equitably among schools. Instructional material shall also be distributed equitably among all schools. The board grants authority to directors and staff to participate in the development of any state and/or federal regulations deemed to be necessary for the implementation of federally funded programs.

Federal Impact Funds (Native American)

Federal impact funds are provided to the district as a supplement to taxes and other revenue sources. State-appropriated funds and local taxes contribute to the development and implementation of a basic education program for all students enrolled in the district. The district gives assurance that tribes and parents of Native American children will be afforded the opportunity to make recommendations regarding the needs of their children and will be involved in the planning and development of the basic education program including those educational programs and services to be provided with P.L. 81-874 funds. Native American students shall have the equal opportunity to participate in the district's program with other students.

Recognizing that the board is the ultimate authority in defining the educational program of the district, the superintendent shall establish procedures to assure the involvement of the tribe and parents of Native American students in the development of the basic education program including the education services to be provided with P.L. 81-874 funds and the participation of Native American children in the program on an equal basis. The superintendent will provide opportunities for parents and members of the tribal council to suggest if any policy and/or procedure changes as well as program changes are necessary to better serve the needs of the Native American students.

Federal Impact Funds (Native American)

The district shall disseminate material related to the P.L.81-874 application, program evaluations and program plans and/or changes to parents of Native American children and tribal officials no later than eight weeks before the application is submitted. The district will seek input from tribal officials and the parents of Native American children regarding:

For Cooperative Work-Based Learning, enrolled students will be counted only after they have been qualified in the program. This procedure is in line with the reporting guidelines from OSPI. As was done last year, an adjustment for the student's hours worked will be made at the end of each semester.
