NAMING FACILITIES AND MEMORIALS (DRAFT 3-1-17)

Naming/Renaming of District Facilities

The board of directors considers the naming/renaming of a district facility a matter of significance. In selecting a name, the board will give preference to names identifying the geographic area of the community served by said facility ~~or prominent component. Naming of facilities includes only a whole facility and not locations or portions of a larger facility (e.g. auditorium, athletic fields).~~ Normally, facilities (library, playfield, gymnasium, etc.) that are a part of a school location are not independently names. However, the board will make the decision if special circumstances exist that would justify an independent name for a portion of an existing facility.

In exceptional instances, the board may elect to name/rename a facility **or portion of a facility** in honor of an individual who has attained a great prominence, either locally or nationally, or made a long-term contribution to the education of children in the Auburn schools. Names of persons who are living or have been deceased less than three years **generally** will not be considered. **However, special consideration may be given to individuals still living who have made significant contributions to the local community, if circumstances warrant.**

Memorials

The board recognizes the desire to honor the life and memory of students and employees who have positively impacted education in the district. A suitable memorial for district employees or students will contribute to the educational setting and be consistent with district objectives. No portion of any building or site shall be named differently than the name of the school or facility. Names of persons who are living or have been deceased less than three years **generally** will not be considered. **However, special consideration may be given to individuals still living who have made significant contributions to the local community, if circumstances warrant.**

The superintendent or designee shall develop a procedure that describes the process for the application for and approval of a collective memorial and that includes a list of other suitable memorials for honoring deceased students and staff.
