STUDENT AND STAFF RECOGNITION

1. Teachers of the Year

High School-Patty Eckelman, Auburn Mountainview

Patty is in her 26th year of teaching. Twenty-five of those years have been in the Auburn School District. She spent three years at Rainier, 10 years at Auburn Riverside and is in her 12th year at Auburn Mountainview.

Patty is a business education teacher in the Career and Technical Education program. Her passion is the Microsoft Office Specialist/Microsoft Imagine Academy industry certifications programs she oversees. Auburn Mountainview is in the top 10 schools in Washington for students earning Microsoft industry certifications. Just this school year, Auburn Mountainview students have earned 259 industry certifications.

In addition to the Microsoft Office classes, Patty also teaches accounting and personal finance.

Patty is passionate about the benefit to students in obtaining real-world skills to prepare them for their future. She takes her classes on annual field trips to the Microsoft campus where they meet with employees who talk about real-world applications of what they learn in Patty's classes.

Three years in a row, Auburn Mountainview High School students won the Washington State Championship for MOS and multiple students have competed in the MOS national competition in Florida. Her students were recently featured in a video produced by Microsoft Learning about the high school certification program.

Patty said, "My students make the program. They are fabulous."

Patty graduated from the University of Montana with a degree in business education. She earned her master's in educational technology from City University. Patty is dedicated to staying current in technology and participated in ATLA 2.0 last year to enhance her technical skills.

Originally from Montana, she and husband Monte met in college. They spent their honeymoon interviewing for teaching jobs in the Auburn School District. Both were hired and they moved west. They live in Auburn and have two sons. Dallas is a junior at Auburn Mountainview and Bailey is in 7th grade at Rainier.

When not teaching, Patty likes to visit Montana and the family takes an annual trip to the Oregon coast.

Middle School-Michele Rock, Rainier

Michele is Rainier's math specialist and a sixth grade math teacher. Math specialist is a new position this year and Michele loves being a resource for Rainier's math teachers. She leads PLCs, works with the data to help guide instruction, provides assessments to teachers and

students, develops math intervention strategies, and helps with all other things math.

Michele is in her 17th year teaching in the Auburn School District. Originally from the Seattle area, Michele moved to Phoenix for college where she earned her bachelor's degree at Arizona Christian University. She met her husband in college and stayed in Arizona where she taught in-home preschool when her two sons were young.

Her husband's work brought her home to the Seattle area 17 years ago and the family landed in Auburn. She was a substitute teacher and taught at Mt. Baker before coming to Rainier.

Michele loves the Rainier community. "I love middle school kids. They have a lot to offer and are so funny. You have to be a little bit crazy to teach middle school."

Not only does she provide math leadership at Rainier, she also is on the item-writing team for district math assessments and works on aligning district instructional calendars.

In her nomination of Michele for this award, Rainier assistant principal Heidi Morris said, "Michele models best practices and has high expectations of her peers and students. She is a lifelong learner."

In addition to her leadership in math, Michele volunteers for after-school athletics and ASB events. She is always positive and enthusiastic. She is actively involved in the local community through Young Life.

Michele has been married to Walt for 33 years. They have two grown sons, both Auburn High grads. In her spare time, she loves spending time with her three grandchildren, visiting friends and family in Phoenix and Yakima, and looks forward to resuming hiking after knee surgery.

Elementary-Brent Botkin, Alpac

According to Alpac principal Jim Riley, Brent is redefining what it means to be an elementary P.E. specialist. He gives students a deep understanding of what it means to live a healthy lifestyle and provides students the opportunity to play a sport that they may not otherwise have an opportunity to try. He is a mentor to students, a leader to his peers, and an activist promoting the importance of physical education to the Washington State legislature.

A 2005 Auburn High graduate, Brent earned his bachelor's in elementary P.E. and health at Central Washington University and was hired at Alpac right out of college. He is in his fifth year of teaching.

Brent loves that he gets to work with kids as they progress from kindergarten through fifth grade. He gets to develop strong relationships because he teaches them for up to six years.

Brent said, "I have the greatest job ever. I try to be a better teacher every day."

Brent's work includes serving on the P.E. curriculum adoption committee, using Google classroom with his P.E. classes, participating as a member of the PBIS committee and, recently, speaking to legislators in support of a bill that would require districts provide and report P.E. instruction minutes.

In addition to teaching P.E., Brent runs the Soccer for Success program at Alpac, giving 225 kids the opportunity to play soccer over the last three years. He also implemented a co-ed flag football program and organized a flag football tournament this year at Auburn High competing against teams from Alpac, Lea Hill, and Pioneer.

As you might imagine, Brent spends his free time in athletic endeavors. He plays baseball, golf, football, soccer and volleyball. He also enjoys hiking. He comes from a family of teachers: his dad is a sub in the Auburn School District and his sister taught ELL at Auburn Riverside before moving to Chile. He looks forward to being an uncle in July.

Background Information

WAC 180-16-220

Requirements for School Improvement Plan

Each school shall be approved annually by the school board of directors under an approval process determined by the district board of directors & “At a minimum the annual approval shall require each school to have a school improvement plan that is data driven, promotes a positive impact on student learning, & includes a continuous improvement process that shall mean the ongoing process used by a school to monitor, adjust, & update its school improvement plan.” School Improvement plans must include a brief summary of use of data to establish improvement; acknowledging the use of data which may include DIBELS, MAP, WELPA, Credit Attainment, Enrollment in Honors/AP Courses, CEE Perceptual Data, SAT/ACT, Discipline, & MSP or HSPE.

Stakeholder Input

In the spring of 2015, as part of the fully revised process, Ilalko Elementary principal, Tim Carstens, solicited volunteers to serve on a team that would meet with district consultants to facilitate the review & SIP rewrite process. This executive advisory group included representation from primary, intermediate, & specialist teachers, classified staff members, & parents. This team met regularly throughout the year to review relevant student data, current methods for monitoring student growth, systems in place that foster a supportive learning environment, & to determine appropriate & ambitious goals for the next SIP cycle (2016-2019). The executive team utilized a variety of methods to share information & gather feedback from colleagues. Collectively the entire staff participated in grade level data carousels to review data on reading & math. Based on feedback collected from the staff, the executive advisory group

determined the levels of priority to be reflected in the final SIP document & on which the SMART goals would be based.

Demographic data

The trends in student demographics since the last SIP rewrite in 2012 show an increase in student population which has impacted building decisions in the course of the last 3 years. The

percentage of students identified as English Language learners grew from 18.4% in 2012-2013 to 22.3% in 2014-2015. This growth is also reflected in the analysis of growth of ethnic groups represented & reported at Ilalko (see table). The result of this growth in ethnic groups at Ilalko has resulted in our school providing a second teacher to support the ELL program. This allows for smaller groups, consistent opportunity, 3:1 student to teacher ratio for those in greatest need of English acquisition support. The free & reduced rate has seen slight growth from 55.2% in 2012-2013 to 57.0% in 2014-2015. Prior to the district boundary change in 2015, the student body at Ilalko reflected a population of 647 students; as of May 1, 2016 the student body totals 593 students.

Discipline Analysis

Baseline data for student discipline was established starting with the 2012-2013 school year upon the arrival of our current administrator. Behavior data recorded for the '12-'13 school year only included referrals for extreme situations and upon review of the data sample; the building leadership team (BLT) and administration made instructional changes to impact student performance. In the 2013-2014, as advised by the BLT, we implemented a 'recess room' as a system to curtail behaviors seen throughout the common areas of the school including but not limited to; classrooms, hallways, specialist classroom, playground, etc... This effort in addition to the change in data collection methods, shows significant increase in the reported referrals throughout the year as well as an increase in referrals as disaggregated by gender. The implementation of the 'recess room' impacted student behaviors coincides to data collected regarding student achievement; 2013-2014 End of year DIBELS Core Support scores & MAPS projected student growth rates (in Math) were higher than the previous and following years. While we are consistently seeing a decrease in student behaviors, staff has indicated interest in

revisiting school wide PBS systems to inform new staff & maintain focus on positive behaviors to impact learning. Staff has also indicated interest in revisiting referral forms, behavior

Data Analysis- DIBELS

Ilalko Elementary staff examined the DIBELS summary reports for each grade level as part of the reading data carousel. Action steps & SMART goals are measured & monitored using trends as shown through DIBELS data; instructional decisions are based on the percentages of students' performing at all levels.

Data Analysis- MAPS

Students in 2nd – 5th grade at Ilalko Elementary are assessed three times each year in mathematics & reading using the NWEA Measure of Academic Progress. This data is used to make instructional decisions regarding Walk to Read ability groupings. It also provides baseline evidence to identify students that may be considered for additional intervention support & services including but not limited LAP, Resource (SPED), & high school mentors/tutoring.

Data Analysis- CEE Perceptual Survey

Ilalko Elementary staff, students (5th graders) & parents participated in the educational effectiveness survey from the Center for Educational Effectiveness in the 2012 & 2014 school years. The staff additionally participated in interim surveys through online services such as Survey Monkey to monitor the targeted goals of the 2010-2013 & 2013-2016 SIP cycles. The building leadership team interpreted the data gathered as staffing & administrative changes were made. This survey is confidential & optional. In 2012, 33 staff members completed the survey; in 2014, only 21 staff members completed the survey. As a result of this low turnout in staff participation, the principal & building leadership team created & distributed a mirrored survey that would more accurately represent the current staffing sample at the beginning of the 2015 school year. The mirrored reissue survey collected 38 responses from staff members and assisted the SIP leadership team in generating actions and goal suggestions for Goal #3. The chart below summarizes the percentages of staff members responding “almost always true” & “often true” for each of the 9 Characteristics of Highly Effective Schools according to the CEE survey cycles in 2012 & 2014 (actual), & the mirrored reissue survey in 2015.

* Targeted in SIP 2010-2013

** Targeted in SIP 2013-2016

*** Data collected did not accurately reflect staff perceptions due to inaccurate mirroring of original CEE Survey.

The CEE survey collects and monitors perceptions of cultural responsiveness, district support of school improvement, readiness & willingness to benefit student learning. Significant strengths as measured by increase of the percentage of staff responding “almost always true” and “often true” from the 2012 survey to the 2015 mirrored reissue include:

- Staff perception of urgency around the need to improve has increased by 5%.
- 10% increase in self-willingness to welcome new ideas
- 5% increase in belief that colleagues welcome new ideas
- 25% increase in self-willingness to be held accountable for student learning.
- 30% increase in the perception that colleagues are willing to be held accountable

Finally, the CEE collects perceptions of parents & students (4th & 5th grades) regarding the 9 Characteristics of Highly Effective Schools. Significant responses as measured by changes in the percentage responding “almost always true” and/or “often true” from the 2012 & 2014 survey cycles that impacted the leadership teams’ suggestions for Goal #3 include:

- The percentage of parents indicating “almost always true” of the Supportive Learning Environment portion of the CEE increased 8% from 2012 to 2014; representing positive impact of actions as accomplished by the goals & actions our staff determined and monitored between 2010 - 2013.
- The percentage of parents indicating “almost always true” and “often true” of the Frequent Monitoring of Teaching & Learning portion of the CEE decrease 6% from 2012 to 2014.
- The percentage of 4th & 5th grade students indicating “almost always true” & “often true” of the Supportive Learning Environment portion of the CEE increased 1% from 81% in 2012 to 82% in 2014; representing positive impact of actions as accomplished by the goals & actions our staff determined and monitored between 2010 - 2013.
- The percentage of 4th & 5th grade students indicating “almost always true” & “often true” of the Frequent Monitoring of Teaching & Learning portion of the CEE decreased 4% from 77% in 2012 to 73% in 2014.

AWSP Framework Criterion 3; Planning with Data

- Our building conducts a LAP program that addresses reading, writing, &/or mathematics, as well as readiness skills associated with these content areas.
- Students are identified for LAP as those students in kindergarten through grade 4 who score below standard for his/her grade level using multiple measures of performance, including the statewide student assessments or other assessments & performance tools administered by the school or district & who is identified by the district to receive LAP services.

Multiple Measures of Performance Include:

- *Dynamic Indicators of Basic Early Literacy (DIBELS) screener Grades K-4
- *Measurement of Academic Progress (MAP) Grades 3 & 4
