

AGENDA FOR BOARD OF DIRECTORS
AUBURN SCHOOL DISTRICT NO. 408
Monday, May 12, 2014

- I. TIME AND PLACE
 - 1. 7 p.m. at the James P. Fugate Administration Building
- II. ROLL CALL
 - 1. Roll call of board members
- III. PLEDGE OF ALLEGIANCE
- IV. AUDIENCE PARTICIPATION
 - 1. Written communications
 - 2. Scheduled communications
 - 3. Unscheduled communications
 - 4. Community groups and organizations
- V. LEGISLATIVE UPDATE
- VI. STUDENT AND STAFF RECOGNITION
 - 1. Student recognition
 - 2. Staff recognition
 - 3. Washington Association of Educational Office Professionals
 - 4. Teachers of the Year
- VII. STUDENT PARTICIPATION
 - 1. Dick Scobee Elementary School art display
 - 2. Dick Scobee Elementary School PTA report
 - 3. Activity/athletic report
 - 4. Requests for travel
- VIII. SCHOOL PROGRAMS AND STUDENT ACHIEVEMENT
 - 1. 2013-14 Dick Scobee Elementary School improvement plan
- IX. PERSONNEL
 - 1. Certificated and classified personnel report
- X. FINANCE
 - 1. Vouchers
 - 2. Award of contract

XI. DIRECTORS

1. Approval of minutes
2. First reading of policy
3. Teacher Principal Evaluation Program
4. WSSDA legislative capital construction
5. ELL WSSDA packet
6. Special board meeting
7. Discussion
8. Executive session

LEGISLATIVE UPDATE

The board will discuss legislative items.

STUDENT AND STAFF RECOGNITION

1. Recognition of Student

The Auburn School District Board of Directors will recognize Peter Youn, a senior at Auburn High School, for being an outstanding student.

Peter made the decision to attend Harvard University well before the start of his freshman year. As a freshman, he approached his counselor, Leslie Kiilsgaard, and said, "I want to go to Harvard. What do I need to do?"

She told him to do his best, stay on track and go to school every day. Peter followed Mrs. Kiilsgaard's advice to the letter. He did his best, stayed on track and went to school every day. He is not only graduating at the top of his class with a 4.0 GPA, but he also has a perfect attendance record. He will be attending Harvard in the fall.

Peter is a remarkable student who always gives his best. His list of accomplishments is a reflection of his drive, determination and dedication to doing his best in everything. He is ranked number one in his class, scored a perfect 800 on the Math SAT and scored a 5 on the A.P. Calculus BC Exam.

Peter also is a skilled violinist. He has played in the Tacoma Youth Symphony throughout high school and is one of the leading players. He was selected to play with the Auburn Symphony at least twice this past year. He declined an invitation to play at the Select State Solo Ensemble because it conflicted with his Harvard visit. Last year, Peter participated in a benefit concert that raised \$4,000 for North Korean orphans and the homeless in Seattle.

Orchestra teacher Dale Johnson tells this story about Peter, "Peter asked me to help him record an excerpt of him playing for one of his Ivy League applications. On the appointed day, I asked him what piece he was going to play and he said the Mendelssohn Violin Concert. I did not know he had learned it. This was during a time when he had also learned two other really challenging pieces. He recorded the fifteen minute first movement of that challenging piece in one take from memory. There was nothing faintly representing a mistake. He listened to the recording and said he could do better. So we recorded it again and he was right, it was even better. That is vintage Peter."

His other high school activities are numerous. He is a four-year letterman of the Auburn High School FIRST Robotics Team where he was in charge of the Chairman's Award application which the team subsequently won, he played on the varsity tennis team, served as the Key Club president, was the impetus of the creation of the Math Club, served as a Math Club officer and is a member of the National Honor Society.

In his spare time - which is not much - Peter volunteers as a tutor for the King County Library System and, for the past four years, he has volunteered every Sunday at his church. This past September he began providing free violin lessons for a student in need.

2. Recognition of Staff

The Auburn School District Board of Directors will recognize Amy Grijalva, fifth grade teacher at Ilalko Elementary, for her outstanding service.

Other than substitute teaching in the Bellingham and Ferndale school districts right after graduating from Western Washington University, Amy has spent her 15-year teaching career as a fifth grade teacher at Ilalko.

"I like the maturity level of fifth graders," Amy said, "I enjoy watching them get ready for middle school."

Fellow Ilalko fifth grade teacher Peter Sprenger said "I am amazed on a daily basis by what she accomplishes with her students. She inspires me to work at developing new assessments and trying new strategies."

Peter also said "Amy's organization and friendly personality are the glue that holds our team together."

Amy loves teaching. "The "aha" moments when the light bulb goes off, I just love that part of teaching," she said. Her favorite subject to teach is math.

Ilalko principal Tim Carstens said, "Amy understands the success of her teaching is measured by the learning of her students. She instills pride in work, respect for others, and, above all, confidence in her students as they move from elementary to middle school."

Amy grew up in the Maple Valley area and lives in Bonney Lake. Away from work, she enjoys gardening, being with friends and family, and shopping. She has been married to her husband Paul for 15 years and is a busy mom of two girls, ages six and eight.

3. Washington Association of Educational Office Professionals 2014 Office Professional of the Year

The Board would like to congratulate Cristi Cruickshank, administrative assistant for child nutrition services, on receiving the Washington Association of Educational Office Professionals 2014 Office Professional of the Year Award. Cris was honored at the WAEOP annual awards banquet April 26 in Olympia.

This award was decided by a panel of WAEOP judges based on the nomination, education (PSP Certificates, inservice courses completed), membership/leadership roles in professional associations, community activities, personnel rating and letters of recommendation.

Cris has worked for the Auburn School District since 1989 in a variety of office professional positions.

4. Teachers of the Year

The Auburn School District Board of Directors will celebrate the 2013-14 Teachers of the Year.

Travis Volk-Elementary Teacher of the Year

Travis Volk is the Auburn School District 2013-14 elementary school level outstanding teacher of the year. Travis touches the lives of students, families, and his peers at Washington Elementary.

In his seventh year of teaching first grade at Washington, Travis is, according to Washington principal Pauline Thomas, "one of those teachers who parents request and whose students consistently meet benchmark assessments."

She also notes that Travis has been an exemplary teacher by providing a positive, effective learning environment with rigorous curriculum and instruction.

In addition to his highly effective classroom, Travis is active outside of his classroom, too. He serves on the Autism Resources Team and has led professional development focused on effective classroom strategies. He has been on the Washington School Improvement Planning Team, Positive Behavior Intervention System, Olweus Climate Committee, the PTA Yearbook, and has served as the Auburn Food Bank Food drive facilitator for the last seven years. Travis also participated in the Auburn Teacher Leadership Academy during its inaugural year.

He has been instrumental in the transition to the Common Core State Standards for first grade. He is a leader in the first grade professional learning community as they look at data and make curriculum, instruction and assessment decisions.

Travis' favorite part of teaching is the people. "First graders are a constant source of laughter," he said. He also loves the great group of educators at Washington and the Autism Resource Team. He said it is a strong network of teachers willing to collaborate for student success.

Travis is a product of the Auburn School District from kindergarten through 12th grade. He believes every student deserves a teacher who works to understand their needs and cares about them.

Travis' resume shows his commitment to learning. He attended Green River Community College as a Project Teach member and received his bachelor's degree from Central Washington University. Last year he completed a master's of science in reading and mathematics instructions.

Being selected Elementary Teacher of the Year has made Travis reflect about the people in his personal and professional life that have impacted him as a person and an educator.

Susan Winter-Middle School Teacher of the Year

Susan Winter is the Auburn School District 2013-14 middle school level outstanding teacher of the year. She teaches social studies and leadership at Mt. Baker Middle School

Susan has been teaching in the Auburn School District for 24 years. After teaching at Alpac Elementary for 13 years, she is now in her 11th year at Mt. Baker.

Susan is committed to a holistic approach to education. She is committed to strong academic instruction and learning and, at the same time, is committed to supporting her students' emotional, social, and physical well-being. Her philosophy is to help her students create possibilities for themselves that empower them to get into action to create futures they love.

She encourages her students to think positively about themselves and their lives. According to Mt. Baker librarian Anne Clark, "Susan is an outstanding educator who demonstrates commitment and excellence in all areas of education."

In her leadership classes, she works with students to inspire them to take responsibility for their own learning and help them achieve personal integrity in all areas of their lives.

She is a collaborator and brings the language arts and social studies teams together to facilitate effective instruction. She is a leader in social studies curriculum and has helped coordinate it district wide.

Mt. Baker principal Greg Brown said, "Susan represents the best in education."

Reflecting on her role as a teacher, Susan said, "I get out of bed every day knowing I make an enormous contribution on the planet. I empower children to become leaders in their own lives and show them how much they matter. I inspire children to help change the world."

Outside of her positive classroom, Susan founded and runs an after school club called the The End Zone Academy. The club's purpose is to foster community service and students work with The Humane Society, The Auburn Food Bank, the Terry Home and more. She also organized the district middle school event in January, Celebrate Change, to recognize and encourage community service. The event also raised money towards a goal of raising \$10,000 to build a school in South America next summer.

Being the Middle School Teacher of the Year confirms for Susan that she is "doing what I am supposed to be doing on the planet."

Meri Benedict-High School Teacher of the Year

Meri Benedict is the Auburn School District 2013-14 high school level outstanding teacher of the year. Meri teaches health, leadership and is the activities director for Auburn Riverside High School.

Meri has been teaching in the Auburn School District for almost 35 years. She started at Gildo Rey Elementary and then taught at Olympic Middle School before moving to Auburn High School. She transferred from Auburn High to Auburn Riverside eight years ago and became the activities director. During the course of her career she has taught Spanish, French, English, health, leadership and more. Meri is a Nationally Board Certified teacher in Adolescent Health.

As activities director, Meri is responsible for all aspects of the student government, is the director of all clubs and activities, coordinates all school dances, coordinates graduation, manages the ASB budget and more.

Meri started the Link Crew program at both Auburn High and Auburn Riverside and views it as her single greatest accomplishment of her career. This program teaches students a process to mentor their peers and freshmen to create a positive, embracing climate at school.

She is active in many professional associations and outside of the classroom. She is the South Puget Sound Local Association of Student Councils advisor for the 2013-14 school year, was the King County representative for the Washington Activities Coordinator's Association, has worked for 30 years in various roles during the Association of Washington School Principals summer leadership camps, and is currently the director of two leadership camps.

Frank Ramirez, Auburn Riverside High School assistant principal, said, "A paramount quality for Meri's work is her ability to touch the lives of students. Her sensitivity to young adults and character building is easily apparent in her classroom, during assemblies, and in district-wide activities."

Meri said, "High school students struggle with their identity and the battle between being identical to everyone else and being themselves. My joy comes when they learn their uniqueness is a gift and an asset and begins to thrive as individuals."

Meri thinks kids are wonderful. "I love their crazy energy, excitement for everything, and genuine desire to do good things and make the world a better place. My job is to help them learn how to accomplish that," she said.

STUDENT PARTICIPATION

1. Dick Scobee Elementary School Art Display

Adam Couch, Dick Scobee Elementary School principal, will introduce Mark Ziegler, Dick Scobee Elementary School teacher, who will introduce Logan Rutledge and Mairead Quigley, students, who will present the Dick Scobee Elementary School art display and answer questions from the board.

2. Dick Scobee Elementary School PTA Report

Adam Couch will introduce Theresa Reynolds, Dick Scobee Elementary School PTA president, who will present the Dick Scobee Elementary School PTA report and answer questions from the board.

3. Activity/Athletic Report–Mt. Baker Middle School Girls' Volleyball Program

Greg Brown, Mt. Baker Middle School principal, will introduce Chris Leverenz, Mt. Baker Middle School dean and coach, who will introduce Calley Heilborn, Katieanne Ruppert, and Anna Maracich, students, who will report on the Mt. Baker Middle School girls' volleyball program and answer questions from the board.

4. Requests for Travel

- a. One Auburn Riverside High School student requests permission to travel to Albuquerque, New Mexico, Saturday to Monday, May 17-19. The purpose of the trip is to receive the Emerging Artist Award. Lodging will be at the Hotel Albuquerque, meals will be at local restaurants, and travel will be by airplane. All expenses will be paid by CTE funds. Wendy Woldenberg, Auburn Riverside High School teacher, requests permission to accompany the student. A substitute will be needed for one day.
- b. Two Auburn Riverside High School students request permission to travel to Kansas City, Missouri, Monday to Saturday, June 23-28. The purpose of the trip is to attend the SkillsUSA National Conference. Lodging will be at the Marriott hotel, meals will be at local restaurants, and travel will be by airplane. All expenses will be paid by CTE funds. Frank Medina, Auburn Riverside High School teacher, requests permission to accompany the students. A substitute will not be needed.
- c. Nineteen Auburn Riverside High School students request permission to travel to Ellensburg, Friday to Saturday, May 16-17. The purpose of the trip is to compete in the Jazz Festival. Lodging will be at the Holiday Inn Express, meals will be at local restaurants, and travel will be by charter bus. All expenses will be paid with personal funds (including charter bus). Jon Stenson and Rikki Stenson, Auburn Riverside High School teachers, request permission to accompany the students. No substitutes will be needed.

May 12, 2014

Page 8

Recommendation:

That the above trips be approved as requested.

SCHOOL PROGRAMS AND STUDENT ACHIEVEMENT

1. 2013-16 Dick Scobee Elementary School Improvement Plan

Rodney Luke, associate superintendent of K-12 student learning and technology, will introduce Adam Couch who will introduce Jennifer Reistra, language arts specialist, and Mark Ziegler, 5th grade teacher. The team will present the 2013-16 Dick Scobee Elementary School Improvement Plan, share a PowerPoint presentation, and answer questions from the board. This presentation aligns with the 2013-16 district strategic plan, Goal 1: student achievement, Objective 2 school improvement plans and the 2013-14 stated district goals, Standard III "create conditions district wide for student and staff success."

Recommendation: That the board approve the 2013-16 Dick Scobee Elementary School Improvement Plan.

2013-2016

School Improvement Plan

Dick Scobee Elementary

Planning Process

- Every staff member was on a committee representing one of the SIP goal areas.
- Data Carousels
- Wrote Statements
- Prioritized strengths and challenges
- Wrote SMART goals for the priorities
 - *Math*
 - Researched best practices and high yield strategies targeting the SMART goals
 - Prioritized and selected the strategies we would focus on (i.e. pd, instruction, etc)
 - *Reading*
 - Selected focused areas of need
 - Designed strategies, systems, and approaches to address those needs
 - *Environment*
 - Selected PBIS that specifically supported the SMART goal
- Each team presented to the whole staff
- Gained consensus
- Needs Assessment
- Monitor and Adjust

Communication

- Building Leadership Team
 - Reviewed and monitored progress towards goals with feedback to grade level teams
- Staff Meetings
 - Reviewed and discussed at staff meeting
- All professional development trainings were directly tied to SIP

MSP Trends

SIP Goals

SMART Goal 1:

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state literacy test will increase from 72.3% in 2013 to 84% in 2016. (Average of 4% per year)

SMART Goal 2:

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state math test will increase from 70.5% in 2013 to 79.3% in 2016. (Average of 3% per year)

SMART Goal 3:

The number of ODR's (Office Discipline Referrals) for the 2011-2012 school year were 413 (2.4 per/day). The number of ODR's for the 2012-2013 school year were 396 (2.23 per/day). This is a decrease of 17 (.4.5%). Our goal is to reduce ODR's to 200 (1.13 per/day) over the next three years.

Action Plans and Goals

READING

YEAR 1: 2013-2014

Implement high yield strategies for acquiring academic and Tier II vocabulary in all content areas for grades K-5.

Implement high yield strategies for teaching comprehension K-5 in Literature and Informational Text:

YEAR 2: 2014-2015

Summarization (oral and written)

Year 3: 2015-2016

Implement high yield strategies for teaching point of view and compare and contrast strategies appropriate to their specific grade level as defined by the CCSS.

MATH

Implement Balance Math in kindergarten through fifth.

This is delivered through explicit instruction with modeling, guided practice, and repetition through choral response and writing.

Implement high yield strategies for acquiring academic and Tier II vocabulary in mathematics for grades K-5.

ENVIRONMENT

Explicitly teach/implement Tier I classroom based strategies in all K-5 classrooms

Intervention and Enrichment

Intervention

DICK SCOBEE ELEMENTARY

Strategic Improvement Plan

2013-2016
Auburn School District Strategic Improvement Plan

District Improvement Goal 1: Student Achievement

With district support, leadership, and guidance each student will achieve proficiency in the Washington Comprehensive Assessment Program (WCAP) and all schools will meet adequate yearly progress by meeting or exceeding the Washington State uniform bar in reading and mathematics in grades 3 through 8 and 10.

District Improvement Goal 2: Dropout Rate and On-time Graduation

Schools will reduce dropout rates and meet additional Adequate Yearly Progress indicators as determined by K-8 attendance and high school on-time graduation rates.

District Improvement Goal 3: Parents/Guardians and Community Partnerships

The district and schools will continue to develop partnerships to support student academic achievement and success.

District Improvement Goal 4: Policies and Resource Management

The district will focus on improving student academic achievement and narrowing the achievement gaps in its policy decisions and resource allocation.

Executive Summary

Auburn School District Mission

In a safe environment, all students will achieve high standards of learning in order to become ethically responsible decision makers and lifelong learners.

Auburn School District Vision

The vision of Auburn School District is to develop in students the skills and attitudes that will maximize their potential for lifelong learning and ethically responsible decision making.

School Mission

Motto: Only as far as we dream can we go!

At Dick Scobee Elementary School, we empower students to learn – no excuses!
We are committed to our belief statements:

- Students and staff will pursue learning and will meet high standards.
- All students must take an active part in their education.
- Students learn best when students, parents, and staff work together.
- High expectations and hard work lead to success.
- Each and every individual will be held in high regard and treated with respect by students, staff and community.
- A safe and healthy environment promotes learning.

Background Information

WAC 180-16-220

Requirements for School Improvement Plan

Each school shall be approved annually by the school board of directors under an approval process determined by the district board of directors and “At a minimum the annual approval shall require each school to have a school improvement plan that is data driven, promotes a positive impact on student learning, and includes a continuous improvement process that shall mean the ongoing process used by a school to monitor, adjust, and update its school improvement plan.” School Improvement plans must include a brief summary of use of data to establish improvement; acknowledging the use of data which may include DIBELS, MAP, WELPA, Credit Attainment, Enrollment in Honors/AP Courses, CEE Perceptual Data, SAT/ACT, Discipline, and MSP or HSPE.

Dick Scobee SIP Process

Our SIP teams met on a monthly basis in sub groups (reading/math/pbis). Data was reviewed by the SIP team and shared with staff at data carousels/reviews. Committees researched, developed action steps or SMART Goals and an Action Plan was developed. The plan was shared with staff for agreement and approval.

Demographic Data

Students served by Dick Scobee Elementary school represent some of the greatest challenges in the Auburn School District. Over eighty-three percent of all students qualify for free and reduced lunch; family mobility rate is thirty-eight percent; and over twenty-eight percent of our students qualify for ELL (English Language Learners) services. As of October first 2011, Dick Scobee Students were 11.7% Asian/Pacific Islander, 8.2% black, 28.3% Hispanic, 46.2% White, and 6% Two or More Races. A large portion of our parents are residents of a King County Housing Authority apartment complex. Many of these families speak little to no English at home creating a greater challenge than our student percentages would indicate. Trends for demographics for the last 5 years are described in the table below:

	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013
Free/Reduced Lunch	61.6%	68.3%	73.8%	77.6%	82.3%
ELL	20.4%	24.7%	27.5%	29.4%	25.7%
White	53.5%	49.2%	49%	46.2	45.5%

Discipline and Attendance Analysis

There was limited to no data collected officially for discipline prior to the 2011-2012 school-year. During the 2011-2012 school year there were 413 office referrals recorded in Skyward (2.4 per/day). In 2012-2013, there were 351 recorded as of 5-23-2013 (2.25 per/day). More specifically, there was a decrease from 238 referrals from the playground to 57 (2011-2012 year to 2012-2013 year).

During 2010-2011 School year, there was an average monthly attendance rate of 92%. This went to 93% during 2011-2012 and 94.5% in 2012-2013. In 2010-2011, there was an average of 115 tardy students per week. This decreased to an average of 92 per week in 2011-2012 and 84 in 2012-2013.

Attendance has been a challenge in this building as far back as working memory and data can track. In the last 15 months many steps have been taken to address this issue, and while the growth in this area is slow, any additional minutes of seat time that is increased makes a significant difference for that child.

Assessment Decisions

In reading, DIBELS is our primary filter for establishing leveled reading CORE groups as well as our Tier II leveled reading groups. Both words per minute and accuracy data are analyzed for these decisions. While DIBELS is the primary filter in K-2, grades 3-5 use MAPS and MSP scores for additional information. All grade levels use Common Formative Assessments to make instructional decisions regarding the progress of students and/or need for additional remediation. At various grade levels additional diagnostic assessments are used to target specific deficits for students for the purpose of targeted assistance.

In math, Common Formative Assessments, Unit Pre-Assessments, and Unit Summative Assessment are used for grades k-5. MAPS and MSP results are also analyzed for systemic needs and targeted support.

Data Analysis- DIBELS

The gains in Benchmark students at most grade levels meets or surpasses the number of Benchmark students in the past 2 years. Although we have an increasing number of incoming Intensive students in Kindergarten, we continue to make gains in the number of Benchmark students by the middle and end of year. In winter, 74% of our Kinders were at Benchmark on Nonsense Word Fluency, and 69% were Benchmark on Phoneme Segmentation Fluency. The additional subtest of ORF in mid-year first grade continues to be a challenge; however we still had 52% of our students meet Benchmark on the ORF. In winter, 87% of our students were Benchmark on Phoneme Segmentation Fluency and 58% were benchmark on Nonsense Word Fluency. Our first graders have a strong sense of phonemic awareness which is allowing them to move into connected text earlier in the school year. At the second grade level, we more than doubled the number of Benchmark students (74%) as measured by the winter Dibels than in previous years. A little over half of our students in grades 3 through 5 met the winter Benchmark. There has been a significant increase in the accuracy of readers in grades 2 through 5, which may be reflected in the reduced rates.

Data Analysis- MAPS

Our fall MAPS scores showed our third grade mean RIT score of 186 which puts them into the 28%tile. Our fourth graders scored a mean RIT of 199 (30%tile) and our fifth graders a mean RIT of 202 (36%tile). Winter MAPS scores indicate students at grades 3 and 5 are making gains (3rd: 7.9/ 4th: 0.0/ 5th: 3.9).Fifth grade's gain of 3.9 from fall to winter has already exceeded their total annual gain of 3.4 last year. Comprehension continues to be a challenge at every grade level, particularly for our struggling students.

Reading	202 (36%tile)	205.9		3.9

MSP/HSPE Reading

Our MSP scores continue to fluctuate from year to year rather than consistently showing an upward trend. The number of fourth grade students meeting standard exceeded the state percentage, while third and fifth graders were below the state percentage. The trend for third grade is to perform better on informational text, while the opposite is true of our fourth and fifth graders. Last year was a challenging year for third graders. They significantly dropped in every measure of comprehension, while fourth graders made significant gains in every measure of comprehension. Fifth graders made gains in every area except comprehension of text.

STAR Reading

Although students in grades two and five are increasing in their GE from fall 2012 to winter 2013, they have decreased in the National Percentile Rank. Our students in grades three and four have made significant gains in both GE and NPR. Comparing last year to this current school year, second graders made some improvement (28 NPR to 31 NPR), third and fifth graders showed the same NPR scores in winter 2013 as they did in winter 2012 (2nd: 37 NPR/ 5th: 32 NPR). Fourth graders showed the most improvement with a winter 2012 NPR of 35 and a 2013 NPR of 45.

Our analysis of data concluded that in almost every area measured on the MSP our third, fourth, and fifth grade scores have a positive trajectory with the way they are trending. Our female students consistently outperform our male students, and that “Problem Solving/Reasoning” is the area in which our students do not meet standard most often.

We have made gains with many of our minority populations such as special education and ELL students in the areas of “Number Sense” and “Geometric Sense/Measurement.” We infer from the data that vocabulary is an area that would greatly assist these students in the other two strands.

MATH

Percent Meeting Standard

Percent Performing Similar as Those Meeting Standard (Number Sense/Algebraic)

Percent Performing Similar as Those Meeting Standard (Measurement/Geometric Sense/Statistics)

Percent Performing Similar as Those Meeting Standard (Problem Solving/Reasoning)

CEE Perceptual Survey

The CEE Perceptual Survey demonstrated significant gains in the affirmative direction for almost every item. The one area that we continue to struggle in is Parent Involvement, Communication, and Cultural Sensitivity.

With only a year-and-a-half of data collection on discipline, our analysis may be limited. What we do know is that the data we analyzed is our current reality, and from that we can make informed decisions. After the first year of data collection there were many steps taken in response the high volume of office referrals that came from the playground. These steps resulted in a reduction of approximately 75%.

Strengths

READING & ELA

Despite an increasing number of ELL students, children are exiting Kindergarten to enter first grade with a stronger knowledge of phonemic awareness. We have experienced significant increases in the number of students meeting benchmark by the end of Kindergarten even with two additional subtests in the spring testing.

Students are also entering first grade with more ability to decode nonsense words. This is allowing first grade teachers to move into connected text much earlier than in the past. That is evident in our current Winter Dibels Benchmark scores.

Students in grades two through five have significantly increased their Oral Reading Fluency accuracy as evidenced by our fall and winter Dibels Benchmark scores. This is contributing to the increase in their capability to retell. Successful differentiation during CORE Reading, the use of explicit phonics/decoding instruction, and consistent progress monitoring are helping to ensure the continuation of increasing the number of benchmark readers.

MATHEMATICS

5th Grade Celebrations

- ▶ The strand in which the most 5th graders met standard for all three years was Measurement and Geometric Sense.
- ▶ There was a 12% increase in the number of students that met standard for Geometric Sense from 10 to 12.
- ▶ Measurement and Geometric Sense was the strongest strand in terms of ELL students meeting standard for all three years.
- ▶ There was a 12% increase in the number of students that met standard for Procedures and Concepts from 10 to 12.
- ▶ Our male 5th graders have made gains of at least 25% in all four strand areas.

4th Grade Celebrations

- ▶ Number Sense grew from 35% to 64% from 2010 to 2012.
- ▶ Number Sense went from being the weakest strand to the strongest strand.
- ▶ 30% more of our Special Education Students met standard in 2012 than in 2010.
- ▶ The boys have made significant gains in math.
- ▶ Procedures and Concepts is the strand in which the most 4th grade male students met standard
- ▶ Procedures and Concepts was the strand in which the most students met standard for all three years.

3rd Grade Celebrations

- ▶ Problem Solving has improved from 44% to 61% 2010 to 2012.
- ▶ Procedures and Concepts improved from 50.7% of our 3rd graders meeting standard to 79.1% from 2010 to 2012.
- ▶ The number of our 3rd graders meeting standard on Number Sense/Algebraic Sense improved from 48% to 65%.
- ▶ Male third graders met standard in Procedures and Concepts at a higher rate than any other strand.
- ▶ Female 3rd graders perform better in Geometric Sense/Measurement than any other strand
- ▶ 42.9% more of our Special Education Students met standard for Number Sense/Algebraic Sense in 2012 than in 2010.
- ▶ Special education improved from 0% to 71.4% in Procedures and Concepts from 2010 to 2012.

SUPPORTIVE LEARNING ENVIRONMENT

- *Supportive Learning Environment went from 32% in 2010 to 52% in 2012 (almost always true).*
 - 12% of staff in 2010 felt “Students are engaged in learning”. In 2012 50% of staff believed this to be almost always true.
- *Clear and Shared Focus went from 38% in 2010 to 47% in 2012.*
 - “The staff demonstrate commitment to our goals” grew to 53% in 2012. Only 16% of staff believed this to be true in 2010.
- *Collaboration & Communication grew to 39% in 2012, up from just 18% in 2010.*
 - “Staff collaborate to improve student learning” went from 32% in 2010 to 50% in 2012.
- *The total number of office discipline referrals (ODR’s) have decreased from 357 in 2011-2012 to 351 in 2012-2013. That is an average of 2.33/day in 2011-2012 down to 2.29 in 2012-2013.*
- *Categorically, “Horseplay” was the coded offense with the second highest frequency with 45 (11%) in 2011-2012. There were zero referrals for that offense in 2012-2013.*
- *The number of playground referrals decreased from 205 (62.6% or 1.34/day) in 2011-2012 to 57 (15.5% or .37/day) in 2012-2013. This is a decrease of 47.1%.*

Prioritized Challenges

READING/ELA

Vocabulary – Implement an instructional template that explicitly teaches vocabulary.

Vocabulary acquisition continues to be a challenge for most of our students, especially the increasing number of ELL students at our school. This statement is based on STAR scores as well as observations of speaking and student writing pieces.

- STAR: 2nd Grade went from the 40%tile in Fall to the 31%tile in Winter.
- 5th Grade level went from the 36%tile in Fall to 32%tile in Winter.

Comprehension - Strengthen strategies for analyzing and comprehending text

Our fluctuating MSP and MAPS scores indicate inconsistent performance on measurements of comprehension and analysis using both informational and expository texts. For example, our fifth grade students continue to lag behind both the district AND state in their comprehension and analysis of informational and literary text. (Students who do pass the MSP, generally score a Level 3 vs. Level 4.)

We need to engage students in reading high-quality texts in a variety of genres closely and critically by teaching research-proven reading comprehension strategies using gradual release of responsibility approaches.

Retell vs. Summary – Explicitly teach the definition of each, comparing how they are alike and different. Model and teach how to give an excellent oral retell and how to tell or write an excellent summary. Create and implement school wide rubrics for measuring the quality of student retells and summaries.

Many of our teachers and most of our students have confusion about how to give a retell and how to write/give a summary of text. This statement is based on on-going teacher dialogue with peers at their grade level as well as with their cross-grade colleagues. Research shows that effective summarizing is part of critically thinking deeper about text.

Gender Gap- Incorporate movement opportunities as part of the learning process, provide male reading role models, provide boys with topics and genres that are of interest to them (in connection to texts, assignments, read alouds, classroom libraries).

This is a trend that permeates grades three through five as we look at MSP results over the last 5-7 years. We know there may be a variety of causes such as the brain development of boys, interest level of the texts, apprehension about writing responses, and lack of motivation and interest in reading.

- 3rd & 4th Grades: Girls have outperformed boys on MSP for at least the past 6 years. Boys that do pass, generally score a Level 3. (Never been a year where there has been more Level 4's than 3's.)
- 5th Grade: Girls outperforming boys for 5 out of the last 7 years on the MSP.

MATHEMATICS

5th Grade Challenges

- Problem Solving is the strand in which the least amount of 5th graders have met standard for each year from 10-12.
- There was a 10% decrease in the number of students meeting standard in number sense from 11 to 12.
- Number Sense and Algebraic Sense is the biggest weakness for our students with IEP's.

4th Grade Challenges

- Problem Solving is the weakest strand for our 4th graders.

3rd Grade Challenges

- Problem Solving has been the weakest strand for all three years.
- There have been no gains in the Geometric Sense strand for our Special Education students from 2010 to 2012.
- Problem Solving is the most significant challenge for our ELL students.

POSITIVE LEARNING ENVIRONMENT

- Parent and Community Involvement. 39% of the staff felt this was a challenge for our school in 2012.
- Only 7% staff felt the statement “This school has activities to celebrate the diversity of this community” was almost always true (2012).
- Focused Professional Development. 27% of staff felt this was a challenge for our school in 2012.
- 20% of staff believes “We are provided training to meet the needs of a diverse student population”.
- Monitoring of Teaching and Learning. 24% of staff felt this was a challenge for our school in 2012.
- 17% of staff feel peer observation and feedback is used to improve instruction.
- ODR’s for “Multiple Offenses” increased from 26 (6.34%) recorded in 2011-2012 to 81 (20.51%) in 2012-2013.
- ODR’s for “Non-Compliance” rose from zero in 2011-2012 to 47 (11.9%) in 2012-2013.
- Our ODR data for race is not proportionate to our racial demographic data.

Study Teams

(Each study team should consider parent/community involvement, cultural competency and integration of technology as potential strategies in each goal area e.g. How can parent involvement, cultural competence and technology assist the school in meeting its reading goal?)

Literacy Goal Group: *Cindy Carroll, Jennifer Riestra, Tim Pfab, Glenn Jenkins, Debbie Helm,*

Reading Goal Group Research Materials:

Vocabulary: Exposing students to many words at the surface level is not enough (Beck, McKeown & Kucan, 2002; Stahl & Nagy, 2006; Graves, 2006). Although the National Reading Panel has concluded that there is no one single vocabulary instruction method will result in optimal learning, explicitly teaching vocabulary has been shown to increase students’ ability to understand new content by 12 percentile points (Stahl & Fairbanks, 1986). Research documents the strong link and reciprocal relationship between vocabulary knowledge and text comprehension (Anderson & Freebody, 1981; Beck, 2002; Nagy, 2007; Stahl & Fairbanks, 1987). Studies have shown that students’ achievement will increase by 33 percentile points when vocabulary instruction focuses on specific words that are important to what they are learning. Research on ELLs also indicates that vocabulary knowledge predicts academic achievement across the curriculum (Saville-Troike, 1984; Snow & Kim, 2007). Effective vocabulary instruction incorporates both direct (teach specific words, direct instruction, word roots and affixes, read alouds,

pre teach vocab, deep processing of words) and less direct approaches (use context clues, encourage wide reading, engage in high quality oral language, cultivate an interest in words (Baker, 1995; Beck, 2002; Biemiller, 2004; Lehr, Osborn, & Hiebert, 2004; Marzano, 2004; Nagy, 2005, Stahl, 1999). Students must encounter words in context more than once to learn them. (repetition and multiple exposures in a variety of contexts.) In essence, more exposure results in more understanding. Use read alouds/think alouds to expose students to higher-level vocabulary than they may read independently by providing word explanations during the read. There is a need to explicitly teach vocabulary terms that are critical to students' understanding of new content. It is vital to identify appropriate words to teach (Tier 1, 2, 3) and provide student-friendly definitions. Vocabulary words should be those that the learner will find useful in many contexts. Direct teaching helps students to develop in-depth knowledge of words (Beck, McKeown & Kucan, 2002). When students receive instruction on words prior to encountering them in context, their ability to comprehend these words increases by a factor of one-third. Effective vocabulary instruction also includes active engagement in learning tasks, motivation to learn and use words, and the development of independent word-learning strategies including the use of context clues, the use of word parts, and the efficient use of the dictionary. An effective way to learn a new word is to associate an image with it (nonlinguistic representations such as pictographs, mental images, pantomimes, pictures, videos) **National Reading Technical Assistance Center 2010** Computer technology can also be used effectively to help teach vocabulary.

Comprehension:

1.) Retelling & Summarizing:

Speaking, listening

Children develop the ability to retell a story with a logical sequence of events between the ages of two and five. Children who have problems retelling stories seem to be more likely to have problems with reading comprehension in later years. Repeated practice in retelling—even with minimal teacher instruction—improves reading comprehension, with transfer to future reading tasks.

Retelling is considered an oral event, and is a prerequisite to summarizing. A retell should include key points and details (narrative: setting, characters, problem, sequence of events, resolution; informational: topic, main ideas, details, organization, key vocab.).
(Kissner)

Summarizing, an oral or written event, is a shortened version of an

original text that requires higher order thinking (synthesis, evaluation. It should include all the main ideas and important details, while reflecting the structure and order of the original text. **(Kissner)**

Gender Gap

- Brain research has found that certain areas of the male brain do not develop at the same rate or even in the same sequence as the female brain. The female brain matures sooner than the male brain, and certain areas of the brain do not develop to the same degree in one gender as compared with the other. These brain design differences are what create some of the external behaviors and attitudes that we see in boys and girls. Gender research of the brain implies the need for movement in males, which stimulates boys' brains and enhances their ability to learn **(Guriar & Henley, 2001)**.
- Boys do not read or enjoy reading as much as girls
- Boys enjoy reading different materials. Girls are twice as likely as boys to read fiction for enjoyment. They are more likely to read text messages, magazines, animal-related books, lyrics and poems. By contrast, more boys than girls read newspapers, science fiction/fantasy, sports-related books, manuals, joke books, humorous fiction and comic books. **(National Literacy Trust)**

How teachers can get boys motivated:

Provide role models, appeal to the interests of boys (read aloud selections, balance fiction and nonfiction in class libraries), make literacy relevant; provide choice of reading and writing tasks.

Effective comprehension instruction includes explicitly teaching students how to use research-based reading comprehension strategies (strong evidence), how to identify and use text's organizational structure (moderate evidence), guiding students through focused, high-quality discussion on the meaning of text (minimal evidence), and establishing an engaging and motivating context in which to teach reading comprehension (moderate evidence). Creating an engaging, motivating context includes helping students discover the purpose and benefits of reading, creating opportunities for students to see themselves as successful readers, giving students reading choices, and providing opportunities for students to learn by collaborating with their peers (moderate evidence). **(What Works Clearinghouse/Institute of Education Sciences)**

Build disciplinary and world knowledge by providing exposure to a volume and variety of texts. **(Duke, Pearson, Strachan, Billman)**

Strong evidence: Provide explicit vocabulary instruction. The probability that students will learn new words while reading is relatively low—about 15%. **(Swanborn and de Glopper)**

Writing Goal Group Research Materials:

The CCSS Writing Standards strongly emphasize the need for students to learn to write about the information that they find in text. This is in line with recent research suggesting that writing about texts and engaging in the act of writing text increase reading comprehension. Students will need to know how to summarize text, critically analyze the information reported in texts, and synthesize information from multiple texts, using what is drawn from sources as evidence in support of students' own ideas. Recommendations include:

1. Provide opportunities for students to write in response to reading across the curriculum.
2. Provide research opportunities that involve reading both print and digital texts, and that require writing in response to reading.
3. Provide teachers with professional development in teaching students how to write the types of texts required in the CCSS.

Math Goal Group: *Dara Lindberg, Lindsay Spears, Amanda Brooks, Tiffany Mattox, Amanda Baehr, and LeAnn Ringler*

Math Goal Group Research Materials:

Fact Fluency Program: Math fact fluency is the ability to recall the answers to basic math facts automatically and without hesitation. Students must first gain a conceptual understanding of the operations, then be taught specific computational strategies and practice in untimed settings, and finally develop fluency through times assessments. (Spear-Swerling, 2006) Fact fluency allows students to solve complex problems without cognitive overload taking place due to lack of fact fluency. (Woodward, 2006; Cummings & Elkins, 1999; Pellegrino & Goldman, 1987; Hasselbring, Goin, & Bransford, 1988)

Building-wide Problem Solving Strategy: Using a building wide approach to problem solving will improve and streamline vocabulary instruction and increase the fidelity of instruction across classrooms. This involves the process of teaching students how to define the problem, identify and prioritize possible solutions, and evaluating the outcome. (Mellinger, 1991). We will use "USA ✓" (Understand, Solve, Answer, Check). This strategy includes the four essential tenants supported in the meta-analysis of research on this topic. (Marcucci, 1980). When students are taught this with deep understanding, there is an effect size of .61. (Hattie, 2009)

Common Formative Assessments: When teachers are required to use data and evidence based models, effect sizes were higher than when data were evaluated by teacher judgment.

In addition, when the data was graphed, effect sizes were higher than when data were simply recorded. The effect size of using these assessments

systematically is .90. (Hattie, 2009)

Acceleration: One of the most powerful strategies available is “Acceleration.” This means that the system intentionally looks for ways to allow students to work ahead in the content if and when they are ready. “Accelerated instruction enables bright students to work with their mental peers on learning tasks that match their abilities” (Kulik & Kulik, 1984b, p. 84). It has an effect size of .88. (Hattie, 2009)

Micro Teaching: Microteaching typically involves teachers conducting lessons to a small group of students and then engaging in post discussions about the lessons.

They are usually video taped for later analysis and allow for an intense view of their teaching and/or to model expected instruction. This has an effect size of .88. (Hattie, 2009)

Teacher Clarity: It is important for the teacher to communicate the intentions of the lessons and the notions of what success means for these intentions.

Teacher clarity is defined as organization, explanation, examples and guided practice, and assessment of student learning. (Fendick 1990) Ensuring that students fully comprehend the learning target and what they will have to do to demonstrate mastery has an effect size of .75. (Hattie, 2009)

Feedback: When feedback is combined with a correctional review, feedback and instruction become intertwined until “the process itself takes on the forms of new instruction, rather than informing the student solely about correctness” (Kulhavy, 1977, p.212).

“Feedback is information with which a learner can confirm, add to, overwrite, tune, or restructure information in memory, whether that information is domain knowledge, meta-cognitive knowledge, beliefs about self and tasks, or cognitive tactics and strategies” (Winne & Butler, 1994, p.5740). This specific type of feedback when provided consistently has an effect size of .73. (Hattie, 2009)

Piagetian Programs: Knowing the ways in which students think, and how this thinking may be constrained by their stages of development may be most important to how teachers choose materials and tasks, how the concept of difficulty and challenge can be realized in different tasks, and the importance of developing successive and simultaneous thinking (Naglieri & Das, 1997; Sweller, 2008). We are not prescribing a “specific” program be adopted but rather that the staff receive professional development around the concepts and understanding pertinent to their instruction with kids.

Self-Reported Grades: Students need to have an estimate of their own performance-typically formed from past experiences in learning. While the results of this strategy vary based on age, there is strong data to support the notion that this is a powerful strategy for all students. When used with fidelity, the effect size is 1.44. (Hattie, 2009)

Supportive Learning Environment Goal Group: *Dave Moynihan, Beth Raines, Heather Clerget, Liz Gibson-Meyers, Allison Kihara, Lori Adams, Judy Jones, Sarah Lysene*

Supportive Learning Environment Research Materials:

Evidence-based practices have been demonstrated in formal research studies to be related to valued outcomes for children and their families.

Any claim that a practice or procedure is “evidence-based” should be framed in the context of (a) explicit description of the procedure/practice, (b) clear definition of the settings and implementers who use the procedure/practice, (c) identification of the population of individuals who are expected to benefit, and (d) the specific outcomes expected. Given this context, the research involving the practice/procedure may be reviewed, and an array of criteria have been proposed by different agencies and organizations (c.f. American Psychological Association, What Works Clearinghouse, SAMSA, Institute for Education Science) for how this literature may be examined to determine the level of experimental rigor, and the confidence with which any statement about “evidence-based” effects can be claimed. A summary of suggestions for defining evidence-based practices from Quantitative (Gersten et al., 2005), Correlational (Thompson et al., 2005) and Single Subject (Horner et al., 2005) research methods was reviewed for educational literature in special section of *Exceptional Children* (Odom et al., 2005).

We provide here (a) the citations defining the context content for SWPBS, (b) the current status of evidence for each of the three tiers of the SWPBS approach (Primary Prevention, Secondary Prevention, Tertiary Prevention), and (c) summary of current and expected directions.

School-wide Positive Behavior Support

School-wide Positive Behavior Support is a systems approach to establishing the social culture and behavioral supports needed for all children in a school to achieve both social and academic success. SWPBS is not a packaged curriculum, but an approach that defines core elements that can be achieved through a variety of strategies. The core elements at each of the three tiers in the prevention model are defined below:

Prevention Tier	Core Elements
Primary	• Behavioral Expectations Defined • Behavioral Expectations Taught • Reward system for appropriate behavior • Continuum of consequences for problem behavior

	• Continuous collection and use of data for decision-making
Secondary	• Universal screening • Progress monitoring for at risk students • System for increasing structure and predictability • System for increasing contingent adult feedback • System for linking academic and behavioral performance • System for increasing home/school communication • Collection and use of data for decision-making
Tertiary	• Functional Behavioral Assessment • Team-based comprehensive assessment • Linking of academic and behavior supports • Individualized intervention based on assessment information focusing on (a) prevention of problem contexts, (b) instruction on functionally equivalent skills, and instruction on desired performance skills, (c) strategies for placing problem behavior on extinction, (d) strategies for enhancing contingency reward of desired behavior, and (e) use of negative or safety consequences if needed. • Collection and use of data for decision-making

The core elements of SWPBS are integrated within organizational systems in which teams, working with administrators and behavior specialists, provide the training, policy support and organizational supports needed for (a) initial implementation, (b) active application, and (c) sustained use of the core elements (Sugai & Horner, in press).

Is there evidence indicating that SWPBS can be implemented with fidelity and is related to improved social and/or academic outcomes for students?

Among the most rigorous standards for documenting that a practice/procedure is “evidence-based” is demonstration of at least two peer-reviewed randomized control trial research studies that document experimental control. To meet this standard the practice/procedure must be operationally defined, there must be formal measures of fidelity, there must be formal outcome measures, and these elements must be used within a randomized control trial group research design.

SMART Goal 1:

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state literacy test will increase from 72.3% in 2013 to 84% in 2016. (Average of 4% per year)

SMART Goal 2:

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state math test will increase from 70.5% in 2013 to 79.3% in 2016. (Average of 3% per year)

SMART Goal 3:

The number of ODR's (Office Discipline Referrals) for the 2011-2012 school year were 413 (2.4 per/day). The number of ODR's for the 2012-2013 school year were 396 (2.23 per/day). This is a decrease of 17 (.4.5%). Our goal is to reduce ODR's to 200 (1.13 per/day) over the next three years.

SMART Goal 1

Subject Area: READING

School Name:

Dick Scobee Elementary School

Target Population- *based on demographic, discipline and attendance data analysis:*

All students at Dick Scobee Elementary

Our Reality- *based on assessment data analysis:*

Student population significantly changes which is reflected in fluctuating test scores from year to year. However, the number of students who speak a second language at home continues to increase.

Our SMART Goal- *based on target population and your reality:*

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state literacy test will increase from 72.3% in 2013 to 84% in 2016. (Average of 4% per year)

Action Plan

Action Steps	Evidence of Implementation	Evidence of Impact	Resources	Responsibilities	Professional Development
<i>Sequential- what comes first? (3-5 Action Steps)</i>			<i>Examples include: PLC, Building 21, CEE data, Power Standards</i>		
YEAR 1: Implement high yield strategies for acquiring academic and Tier II vocabulary in all content areas for grades K-5.	All teachers will implement and regularly use a consistent format for introduction of high yield academic words. Teachers will implement a cycle of continuous review of academic and Tier II vocabulary. Teachers will incorporate the structured use of academic vocabulary into their lessons.	Students comprehension scores on state and/or national assessments will increase. Each trimester STAR, MAPS, and DIBELS data will be analyzed for evidence of student growth. CFA's and student responses will be	PLC Time/ Building 21 August In-service/ Staff Meetings Science, Social Studies texts Instructional Routine Cards	Principal SIP/BLT Teachers and Para-educators Debbie Helm established a list of 40 academic vocabulary words. 	a summary of literary text using the SWBST (Somebody Wanted But So Then) framework. Classroom Teachers, Support Specialists, Paras				
YEAR 3: Implement high yield strategies for teaching <u>point of view</u> and <u>compare and contrast</u> strategies appropriate to their specific grade level as defined by the CCSS.	Grade level teams will use the Common Core State Standards to define each strategy (Point of View & Compare and Contrast). Classroom Teachers, Support Specialists Use cross grade level team discussions to create an awareness of the continuum of complexity of these strategies from Kinder to 5th grade. Classroom Teachers, Support Specialists Certificated and classified instructors will use common building wide instructional language (and hand motions) when teaching “Point of View” and “Compare and Contrast.” Classroom teachers will use the DOK wheels when writing/asking questions so as to increase the rigor.	Students comprehension scores on state and/or national assessments will increase. Each trimester STAR, MAPS, and DIBELS data will be analyzed for evidence of student growth. CFA’s and student responses will be analyzed during PLC for improved skill in “Point of View” and “Compare and Contrast.”	PLC Time/ Building 21 Staff Meetings Money to identify and purchase “mentor texts.”	Principal SIP/BLT Teachers and Para-educators	Staff meetings PLC meetings Building 21 Hours Training on building wide phrasing, hand motions, and instructional practices for continuity of instruction. Modeling and observation will be used as a part of the PD.

SMART Goal 2

Subject Area: Mathematics

School Name:

Dick Scobee Elementary

Target Population- *based on demographic, discipline and attendance data analysis:*

All students at Dick Scobee Elementary

Our Reality- *based on assessment data analysis:*

Student population significantly changes which is reflected in fluctuating test scores from year to year. However, the number of students who speak a second language at home continues to increase.

Our SMART Goal- *based on target population and your reality:*

The average percent of students in grades 3-5 meeting and/or exceeding standard based on the state math test will increase from 70.5% in 2013 to 79.3% in 2016. (Average of 3% per year)

Action Plan

Action Steps	Evidence of Implementation	Evidence of Impact	Resources	Responsibilities	Professional Development
<i>Sequential- what comes first? (3-5 Action Steps)</i>			<i>Examples include: PLC, Building 21, CEE data, Power Standards</i>		
Implement Balance Math in kindergarten through fifth. 10-15 minutes daily of fact fluency practice 15-20 minutes daily of targeted review 30 minutes daily for instruction of new content This should be explicit	Teachers will provide 10-15 minutes of math fact practice and/or instruction every day, five days a week. Teachers will administer a timed fact fluency assessment once a	Student math scores for MAPS, MSP, and monthly fact fluency assessments will improve.	Master schedule will allow for the time necessary to implement. Building 21 hours Staff Meetings Personnel to record data	Principal – will observe via drop-ins the implementation of this dedicated time. SIP/BLT - will discuss and review needs for sustainability and necessary adjustments Teachers – will implement, assess, and	Building 21 hours used in August for training from Brendan Jeffreys Brendan Jeffreys will provide modeling at every grade level first through fifth at least one time. These sessions will be videotaped for future training and fidelity checks.

instruction with modeling, guided practice, and repetition through choral response and writing.	month and submit to the principal.			review assessment results	
Implement high yield strategies for acquiring academic and Tier II vocabulary in mathematics for grades K-5.	Grade level teams will collaboratively identify Tier II and academic vocabulary in mathematics. Grade level identified vocabulary will be reviewed cross grade level/all staff. All teachers will implement and regularly use a consistent format for introduction of high yield academic words. Teachers will implement a cycle of continuous review of academic and Tier II vocabulary. Teachers will incorporate the	Student math scores for MAPS, MSP, and monthly fact fluency assessments will improve.	PLC Time/ Building 21 August In-service/ Staff Meetings Ongoing Coaching	Principal Grade Level Teams will identify/develop common phrases and hand motions for the identified math vocabulary words. SIP/BLT will work to ensure that the instructional phrases and hand motions are consistent across the building.	Building 21 hours used in August for training from Brendan Jeffreys Brendan Jeffreys will provide modeling at every grade level first through fifth at least one time. These sessions will be videotaped for future training and fidelity checks.

	structured use of academic vocabulary into their lessons. Teachers will incorporate academic vocabulary in grade level common assessments.				

SMART Goal 3

Subject Area: Environment

School Name:	Dick Scobee Elementary
Target Population- <i>based on demographic, discipline and attendance data analysis:</i>	All students at Dick Scobee Elementary
Our Reality- <i>based on assessment data analysis:</i>	<i>The number of ODR's (Office Discipline Referrals) for the 2011-2012 school year were 413 (2.4 per/day). The number of ODR's for the 2012-2013 school year were 396 (2.23 per/day). This is a decrease of 17 (.4.5%).</i>
Our SMART Goal- <i>based on target population and your reality:</i>	Our goal is to reduce ODR's to 200 (1.13 per/day) over the next three years.

Action Plan

Action Steps	Evidence of Implementation	Evidence of Impact	Resources	Responsibilities	Professional Development
<i>Sequential- what comes first? (3-5 Action Steps)</i>			<i>Examples include: PLC, Building 21, CEE data, Power Standards</i>		
Consider explicitly teach/implement Tier I classroom based strategies in all K-5 classrooms	Teachers recognize and acknowledge students using Tier I strategies. Use of Tier I strategies by staff are observed during classroom visits. Staff will review office referral data 4 times a year??	Office referrals will decrease based on Skyward reporting tool. Student achievement scores will go up on all assessments. Students	Staff Meetings Building 21 Hours (time above used for reviewing and discussing discipline data)	Principal will monitor, observe, coach with feedback BLT/SIP will review and analyze data 4 times a year. They will plan for next steps and identify needs Teachers will	District PBIS Leadership Team will provide training, survey tools, and feedback Training will be provided during staff meetings, and Building 21

		demonstrate use of Tier I strategies to self manage behavior. Students demonstrate an increase in time on task.		implement and review data 4 times a year. Discipline officer will provide data	
Year 2: Focus and training on improving the level of collaboration of grade level teams, cross-grade level teams, and whole staff.	Certificated staff will attend and participate in retreat events. Grade level teams and specialists will plan for and share the lead of staff meetings (with a focus on celebrations) There will be follow up to the themes and training of retreat throughout the year.	Levels of trust among staff as measured by CEE data will increase.	Building 21 Hours Work will be continued via staff meetings.	A sub-committee will work under the principal to plan, communicate and gain buy-in.	This will be accomplished through a retreat-style training.

Planning Implementation Calendar

Timeline for Planning Process

School Leadership Team Meetings:

DATE	TASK	TIME
10-2-2012	SIP Overview w/ BLT	BLT
10-12-2012	Mini Data Carousels with Committees • Review data • Write objective statements as a result of the data • Identify other data that would be useful for next review	Waiver Day
10-16-2012	All Staff Data Carousel • Whole staff review of data and review of committee's statements • Write additional statements	Staff Meeting plus Building Hours
10-19-2012	Committee Chairs begin the process of facilitating: • Review all statements • Consolidate and categorize • Prioritize • Narrative Statement • Proposed SMART Goal	Own Time (TBD)
11-6-2012	Agree on SMART Goals as a staff • Committees will present their proposed SMART Goal and get consensus	Staff Meeting
11-9-2012	Committees begin research and action steps (due 1-29-2013) • Research and design	Own Time (TBD)

	the action steps that will help meet our goal • Determine necessary resources, delivery model, etc • (maybe we are already doing it?)	
11-27-2012	Look at finished examples of other buildings' SIP documents • We will look at a variety of formats to help us identify one for us	BLT
1-29-2013	Committees present action steps to whole staff • Each committee will present their portion of the plan to the whole staff.	Staff Meeting
2-5-2013	Final Review	BLT
2-26-2013	Final Presentation	Staff Meeting
3-11-2013	SIP Work • First Action Steps	Waiver Day
8-2013	Meet with DSL to receive edits	Principal Time
10-2013	Meet with Pili Wolfe for consultation of revisions necessary and review of plan.	

PERSONNEL--CERTIFICATED AND CLASSIFIED

1. Certificated and Classified Personnel Report

1. Vouchers

Vouchers will be presented.

Recommendation: That the vouchers be signed.

2. Award of Contract-Bid 646-Staff Desks/Auburn High School

A tabulation of the bids received for the purchase, delivery, and set up of staff desks for Auburn High School is attached. It is recommended to award the contract to the low bidder, Creative Office, as shown on the attached tabulation. Total recommended award is \$84,747.53.

Recommendation: That the contract be awarded to the lowest responsive bidder as indicated above.

The following vouchers, as audited and certified by the Auditing Officer as required by RCW 42.24.080, and those expense reimbursement claims certified as required by RCW 42.24.090, are approved for payment. Those payments have been recorded on this listing which has been made available to the board.

As of May 12, 2014, the board, by a _____ vote, approves payments, totaling \$585,986.17. The payments are further identified in this document.

Total by Payment Type for Cash Account, US Bank of Washington:
Warrant Numbers 418781 through 419018, totaling \$585,986.17

The minutes of the regular meeting of Monday, April 28, have been forwarded to the board.

Recommendation: That the minutes be approved.

The following policy is being submitted to the board for first reading: Revised policy 3410–Student Health. Timothy Cummings, associate superintendent for human resources, will answer questions from the board. The policy has been reviewed by the committee of the board for policies.

Recommendation: That the above-mentioned policy be accepted for first reading with second reading and adoption scheduled for Tuesday, May 27.

Louanne Decker, associate superintendent of K-12 school programs, will present an update on the 2013-14 implementation of the Association of Washington State Principals (AWSP) Leadership Framework for principal evaluation and the Center for Educational Leadership (CEL5D) instructional framework for teacher evaluation. Auburn School District is required to transition all certificated teachers, principals, and assistant principals to the state's new evaluation criteria and new frameworks by the 2015-16 school year. Ms. Decker will share a PowerPoint presentation and answer questions from the board. This presentation aligns to the School Board of Directors Goals Standard IV, goal 8; create conditions for the successful implementation of the state required teacher/principal evaluation system.

The legislative subcommittee recently met and put together the attached recommendations for WSSDA legislative proposal for School Construction (SLP 7.1.16) and School Construction Funding (SLP 7.1.17). Michael Newman, deputy superintendent for business and operations, will share information and answer questions from the board.

Recommendation:	That the recommendations for the WSSDA legislative proposal for School Construction (SLP 7.1.16) and School Construction Funding (SLP 7.1.17) be submitted by the Auburn School District Board of Directors to WSSDA.
-----------------	---

5. ELL WSSDA Packet

The superintendent will share with the board information on the ELL WSSDA proposal.

6. Special Board Meeting

The superintendent is requesting a special board meeting to be held on Monday, June 23, 6:00 p.m., for the purpose of evaluating the superintendent.

Recommendation:

That the board approve a special board meeting to be held on Monday, June 23, 6:00 p.m. for the purpose of evaluating the superintendent.

7. Discussion

8. Executive Session

STUDENT HEALTH

The superintendent shall arrange for health services to be provided to all students. Such services shall include but not be limited to:

- A. The maintenance of student health records;
- B. The development of procedures at each building for the isolation and temporary care of students who become ill during the school day;
- C. Consulting services of a qualified health specialist for staff, students and parents;
- D. Vision and hearing screening;
- E. ~~Scolio~~ ~~iosis~~ ~~screening~~; and
- F. Immunization records and screening.

Additional powers of board
School physician or school nurse may be employed

Auburn School District Teacher Principal Evaluation Program (TPEP) Year One Summary

Louanne Decker, Associate Superintendent
May 12, 2014

E2SSB 6696 (2010)

- 8 Teacher Evaluation Criteria
- 8 Principal Evaluation Criteria
- 4-Tiered Rating System

SB 5895 (2012)

- 3 Criteria must include student growth
- Up to 3 instructional and leadership frameworks
- Experienced teachers and principals cannot be basic
- Evaluations will be used in HR decisions

NCLB Waiver (Summer 2012)

- Summative Scoring Formula
- Separate analysis of Student Growth Criteria
- Matrix for analyzing summative and student growth scores
- Options for low student growth scores

New Evaluation System Applies to Classroom Teachers, Principals and Assistant Principals

Classroom Teachers,
Principals,
Assistant Principals

Non-Classroom
Teachers

Staff who
provide
academically
focused
instruction
to students

Includes:
All Content Areas,
Special Education,
Music, PE, Art

May Include:
Teacher-Librarians
Instructional
Coaches

ESA
School
Counselors, SLP,
OT, PT, School
Nurses

Districts may create four-tiered systems for non-classroom teachers, but are advised to give careful consideration to the design and implementation of any new evaluation systems .

INSTRUCTIONAL FRAMEWORK

Teacher Evaluation Model

LEADERSHIP FRAMEWORK

Principal Evaluation Model

Nested Goals

Using District, School, and Classroom-Based Data

Five Student Growth Criteria

- **3.1 Establish Student Growth Goals**
Re: individual or subgroups of students
- **3.2 Achievement of Student Growth Goals**
Re: individual or subgroups of students
- **6.1 Establish Student Growth Goals**
Re: whole class based on grade-level standards and aligned to school and district goals
- **6.2 Achievement of Student Growth Goals**
Re: whole class based on grade-level standards and aligned to school and district goals
- **8.1 Establish Team Student Growth Goals**
Re: teacher as part of a grade-level, content area, or other school/district team

Using District, School, and Classroom-Based Data

Student Growth Criteria

- **3: Provides evidence of student growth that results from the school improvement planning process**

Re: All or most of the students in the school

- **5: Assists staff in developing required student growth plan and identifying valid, reliable sources of evidence and effectiveness**

Re: All or most of the students within a subset of teachers

- **8: Provides evidence of growth in student learning**

Re: All or most of the students within a subset of a student population for the purpose of closing the achievement gap

Support and Professional Development for Teachers

Continuing Contract Staff:

14 Hours of paid training during the 2013-14 school year

Provisional Teaching Staff:

7 Hours of paid training during the 2013-14 school year

Three year plan for full implementation by 2015-2016 on the instructional/leadership framework

- **2013/14**: All provisional or probationary classroom teachers. At least 14% of continuing contract classroom teachers evaluated using the framework and state's new evaluation criteria. (actual 30%)
- **2014/15**: Add an additional 25% of classroom teachers to the framework and state's new evaluation criteria. (add 209 to 56%)
- **2015/16**: 100% of classroom teachers being evaluated using the framework and state's new evaluation criteria. 100% of principals/assistant principals on new evaluation criteria. (add 360 to 100%)

Timeline

Instructional & Leadership Framework – Implementation

2013 - 2014 Progress Report

1. June 2012: Auburn School Board of Directors approved CEL5D as Auburn's instructional framework.
2. August 2013: Auburn School Board of Directors approved AWSP as Auburn's leadership framework.
3. Applied and received OSPI Regional Implementation Grant (RIG 2) to help with professional development costs:
 - Stacy Jordison trained as a state facilitator in the CEL5D instructional framework, rater agreement training in the summer of 2014.
4. Train 25 more teachers and principals on how to deliver CEL5D training to staff in a “train the trainer” model.
5. Continue to support our teaching staff and principals in this transition with professional development, ensure an effective model of feedback. Follow state guidelines regarding student growth.

School Construction (SLP 7.1.16)

1. Issue/Concern for the Legislative Committee

The following is an issue of great concern to our school district: Due to the McCleary decision and the implementation legislation 2261 and 2776 which significantly changes the current capacity and configuration of our schools will not meet the new demands place on the utilization of current space. With the implementation of Full-Day Kindergarten, the phase-in of the K-3 Class size ratios and the implementation of STEM programs, as well as the increase in high school graduation requirements for College and Career Readiness (CORE 24) which includes the need for additional high school science labs we are out of space and resources to address these well intended improvements to the schools in Washington State. The implementation of these laws will require the **addition of 96** classrooms K-3 (based on 2013-14 enrollment) and the need for **10 lab science spaces** added to our current high schools in the Auburn School District.

2. Please select one of the following statements:

Ray Vefik, Board President, contacted WSSDA staff to develop a proposal. We are submitting an amendment to standing proposal number SLP 7.1.16.

WSSDA shall initiate and/or support (Please write your position statement)*

Specific standing proposal revisions:

School Construction (SLP 7.1.16)

WSSDA supports “ample provision” for school construction through state policies that:

- Fund school construction needs when districts are determined eligible;
- Maintain a ~~reliable system of~~ funding that supports adequate planning at the local level;
- Provide specific sources of revenue to support and enhance state trust revenue;
- Give highest priority to projects that address un-housed student needs, either through new construction or remodeling
- Allocate square footage to meet current and future program needs;
- Recognize realistic all construction costs. ~~Including mandated green building costs and~~
- ~~Equalize funding for modernization of existing school facilities in lieu of abandonment and new construction.~~
- *(Adopted 2001; Amended 2008)*
- Fully fund space needed to meet K-3 class size reduction targets.
- Fully fund the space needed for the additional high school lab science graduation requirement.
- Provide funding to create or renovate classrooms needed for STEM education.

Position statement:

WSSDA shall initiate and/or support the school construction resources:

With the implementation of Full-Day Kindergarten, the phase-in of the K-3 Class size ratios and the implementation of STEM programs, as well as the increase in high school graduation requirements for College and Career Readiness (CORE 24) which includes the need for additional high school science labs we are out of space and resources to address these well intended improvements to the schools in Washington State.

3. We believe the issue should be addressed by the State Legislature.

4. Statements of Support/Explanation

Please answer all six questions listed below:

a. Please explain why this issue has statewide implications and should be priority of WSSDA.

The reduction of class sizes and additional graduation requirements will require additional spaces to house students. These changes were not a part of the planning processes for school districts when schools were designed and constructed.

b. Explain the consequences to your district if this issue is not resolved

With the targeted 17:1 in K-3 by 2017-18, the Auburn School District will need 96 additional classrooms. There will be over 1600 unhoused students in grades K-3. The district will be unable to meet requirements for class size reductions and graduation requirements.

c. What are the potential consequences to other districts?

Increased need for lowering class size and increasing graduation requirements will create for almost all district classroom demands that they are unable to fulfill due to capacity.

d. How does this issue/proposal affect students and improve student learning?

The two pieces of legislation that have been passed into law 2261 and 2776 are a Basic Education requirement for improving student learning and outcomes for high school graduates. Adequate facilities are critical to meet these educational requirements.

e. Costs of implementing your proposed solution?

These are significant costs locally and across the state of Washington. To meet the K-3 ratios, the Auburn School District will need to construct three new elementary schools. Our current estimate is \$27 million per school to construct. This does not include property acquisition costs. The amount would vary from district to district given their current space availability. The high school lab science costs will depend on renovation of existing spaces or new construction.

f. How would the proposal increase public confidence in public education

The effectiveness of the instructional program requires an appropriate learning environment. The legislatures' intend to have reduced class sizes to improve student learning and achievement cannot be accomplished without the necessary spaces to teach students.

School Construction Funding (SLP 7.1.17)

1. Issue/Concern for the Legislative Committee

The following is an issue of great concern to our school district: Due to the McCleary decision and the implementation legislation 2261 and 2776 which significantly changes the current capacity and configuration of our schools will not meet the new demands placed on the utilization of current space. With the implementation of Full-Day Kindergarten, the phase-in of the K-3 Class size ratios and the implementation of STEM programs, as well as the increase in high school graduation requirements for College and Career Readiness (CORE 24) which includes the need for additional high school science labs we are out of space and resources to address these well intended improvements to the schools in Washington State. The current formula does not adequately address the new changes in the square footage needed to implementation of these laws.

2. Please select one of the following statements:

Ray Vefik, Board President, contacted WSSDA staff to develop a proposal. We are submitting an amendment to standing proposal number SLP 7.1.17.

WSSDA shall initiate and/or support (Please write your position statement)*

Specific standing proposal revisions:

School Construction Funding (SLP 7.1.17)

WSSDA shall support an increase to the state's funding formulas for school construction so that the allocation of square feet per student ~~at least meets the national average~~ is adjusted to address the changes in class sizes 17:1 (K-3) and high school lab science graduation requirements and the cost per square foot allocation reflects actual costs, as well as the actual costs of construction for the implementation of 2261 and 2776.
(Adopted 2005; Amended 2008)

Position statement:

WSSDA shall initiate and/or support the school construction resources:

With the implementation of Full-Day Kindergarten, the phase-in of the K-3 Class size ratios and the implementation of STEM programs, as well as the increase in high school graduation requirements for College and Career Readiness (CORE 24) which includes the need for additional high school science labs we are out of space and resources to address these well intended improvements to the schools in Washington State. The current formula needs to be adjusted to accommodate the phased in recommendations from 2261 and 2776, along with the McCleary decision.

3. **We believe the issue should be addressed by** the State Legislature, OSPI and State Board of Education.

4. Statements of Support/Explanation

Please answer all six questions listed below:

a. Please explain why this issue has statewide implications and should be priority of WSSDA.

The current formula does not address the change in class size and the addition of graduation requirements. These changes were not a part of the planning processes for school districts when schools were designed and constructed.

b. Explain the consequences to your district if this issue is not resolved

Without an increase in the formula it would fall upon local taxpayers to fund legislative demands with local levies and bonds to cover these additional costs. The resources are not available to implement adequate facilities to accommodate class size and additional lab science spaces.

c. What are the potential consequences to other districts?

Other districts would experience unhoused students due to lower class size requirements and graduation requirements would not be able to be met in the traditional school day.

d. How does this issue/proposal affect students and improve student learning?

The intent of the legislation in both 2261 and 2776 is improving student learning and achievement as Basic Education requirement. Adequate facilities are critical to implement and meet these educational requirements.

e. Costs of implementing your proposed solution?

These are significant costs locally and across the state of Washington. To meet the K-3 ratios, the Auburn School District will need to construct three new elementary schools. Our current estimate is \$27 million per school to construct. The amount would vary from district to district given their current space availability. The high school lab science costs will depend on renovation of existing spaces or new construction.

Historically, square footage allowances have increased slightly each year for school construction cost and are projected to be \$200.40 for 2014. But, these amounts are still behind the actual construction costs. Based on OSPI data for new school construction bids in 2012-13 the average was \$275.95 and some costs were over \$375 per square foot.

f. How would the proposal increase public confidence in public education

This would restore public confidence in public education by providing adequate funding for facilities required by the legislature that would otherwise be a burden to the local taxpayers. The legislatures' intend to have reduced class sizes to improve student learning and achievement cannot be accomplished without the necessary spaces to teach students.

2015 Legislative Session Proposal Form

Proposal submitted by (school district) _____

Please check WSSDA's Positions list at www.wssda.org to see if the subject of your issue or proposal is already covered by a standing (permanent) legislative position.

- Please provide a typewritten, computer-generated or hand-written legible form.
- The deadline for submission to the WSSDA office is **Friday, May 23, 2014**.
- Facsimile proposals are acceptable. Fax completed proposal forms to 360.493.9247.
- Forms can be mailed to: WSSDA, 221 College Street NE. Olympia, WA 98516

1. Issue/Concern for the Legislative Committee:

The following is an issue of great concern to our school district:

When should English Language Learners be included in high stakes testing?

Every English Learner should be required to participate in the Washington Comprehensive Assessment Program (WCAP). However, in order for an ELL qualified student's MSP/HSPE/EOC results to be counted as part of federal and state accountability, the student should have previously attained an Advanced rating (Level 3) on the annual state English language proficiency assessment (WELPA).

Comment [DJ1]: I would support the inclusion of L3 ELL student data for assessment; however, this will contradict with Federal guidelines and may cause confusion.

2. Please check one of the following statements:

- ☐ Please have a member of the WSSDA legislative Committee or WSSDA staff contact our board Legislative Representative to develop a specific proposal.
(NOTE: If this option is desired, please do not wait until the deadline to contact us.) -OR-

☒ The following specific proposal could address or resolve our issue/concern:

The WSSDA shall initiate and/or support...

Legislation that supports funding for and development of academic language interim assessment tools to measure growth toward mastery of English Language Development Standards, in addition to the annual measurements of progress in academic English Language Learning (WELPA).

Comment [DJ2]: ELLs are ultimately held accountable to grade level CCSS and will have access to interim SBAC assessments. Additionally, Auburn uses benchmark assessments to track progress. I feel it would be unnecessary to have the state add more testing at this time.

3. We believe the issue should be addressed by (please check appropriate boxes):

- ☒ State Legislature
☐ State Board of Education
☐ Office of the Superintendent of Public Instruction
☐ U.S. Congress
☒ Please address this issue to the appropriate body

(Over, please)

4. Statements of Support/Explanation:

- a) Please explain why this issue has statewide implications and should be a priority of WSSDA.

Currently there are no interim state formative tests of English language acquisition available for teachers to use during the year to monitor progress of their students in learning English. Teachers need these formative tests to plan instruction. Annual test results cannot guide teachers throughout the school year.

Comment [DJ3]: Auburn uses a variety of local assessments to measure ELL progress and we will have access to SBAC interim and formative assessments next year. I don't feel this should be a priority as the CCSS measure all domains of language acquisition.

- b) Please explain the consequences to your district if this issue is not resolved.

If this is not resolved, the achievement gap between English Learners will continue to increase. Fewer English Language Learners will graduate from high school due to less knowledge of English.

Comment [DJ4]: That's a huge stretch! It has not been true at the elementary level so far...

- c) What are the potential consequences to other districts?

Same as b) above.

- d) How does this issue/proposal affect students and improve student learning?

The rate of acquisition of English will increase and lead to high academic achievement of English Language Learners on district and state assessments.

Comment [DJ5]: Great instruction and aligned systems that work together are what makes the difference for ELLs not additional testing.

- e) What are the costs of implementing your proposed solution, if one is proposed?

Unknown at this time.

- f) How would the proposal increase public confidence in public education?

Students will be better prepared for college and career, which the public expects. Increased student achievement would also translate into additional public support for local levies as well as additional public support for the related state initiative leading to full funding of public education.

Comment [DJ6]: Additional testing has not proven to be an effective way to increase confidence in public education, but has more often been used as a tool to fracture the public's confidence.

5. Please indicate which of the following apply to your district:

X This proposal is being submitted by the _____ School District.

Deadline – Friday, May 23, 2014

2015 Legislative Session Proposal Form

Proposal submitted by (school district) _____

Please check WSSDA's Positions list at www.wssda.org to see if the subject of your issue or proposal is already covered by a standing (permanent) legislative position.

- Please provide a typewritten, computer-generated or hand-written legible form.
- The deadline for submission to the WSSDA office is **Friday, May 23, 2014**.
- Facsimile proposals are acceptable. Fax completed proposal forms to 360.493.9247.
- Forms can be mailed to: WSSDA, 221 College Street NE. Olympia, WA 98516

1. Issue/Concern for the Legislative Committee:

The following is an issue of great concern to our school district:

English Language Learner (ELL) endorsement and coursework for general education and content area teachers and administrators:

There is a serious state wide shortage of qualified English Language Learner certificated teaching personnel. If the legislature acts promptly, the state has a unique opportunity to develop an economic strength for the state by exploring and supporting the positive aspects of multilingual constituents. While all certificated teachers do not need to be bilingual or multilingual, all certificated teachers shall be trained or be enrolled in training in effective teaching and language acquisition strategies to meet the diverse learning needs of students whose first language is other than English.

- All teaching education programs (TEPs) and administrator certification programs should require language acquisition coursework as part of their core requirements. These courses should prepare teachers to deliver instruction in sheltered instructional methodologies and use assessments designed to improve instruction for students with varying degrees of language proficiency.
- All professional education advisory boards will evaluate and make recommendations to teacher education programs regarding the improvement and/or addition of coursework or classes as described in "a" above.
- Core credential requirements should also include multicultural competence training, preparing teachers to work with the multiple language groups and backgrounds represented in the State or District.
- School districts with certificated staff working in classrooms with an English Language Learner shall be required to add to their highly qualified status by completing an ELL endorsement and coursework for general education and content area. It is also recommended that a multi-year phase-in calendar be developed with financial incentives to facilitate university training programs and school districts to meet phase-in time lines. See proposed phase in calendar below.

Comment [DJ1]: This certainly couldn't hurt...

Comment [DJ2]: This would create a significant issue with human resources. Nearly all certificated staff in Auburn will have at least 1 ELL in their classroom, how would the system support sending them back to become certificated?

Current certificated teachers	Current college of education students AND All college students enrolling after the passage of this legislation.
Earn ELL endorsement by 2018	Earn an ELL endorsement through college support by 2018 or graduation; whichever comes first.

2. Please check one of the following statements:

- ☐ Please have a member of the WSSDA legislative Committee or WSSDA staff contact our board Legislative Representative to develop a specific proposal.
(NOTE: If this option is desired, please do not wait until the deadline to contact us.) -OR-

☒ The following specific proposal could address or resolve our issue/concern:

The WSSDA shall initiate and/or support...

- 1) All teachers receiving K-12 classroom endorsements for preparation to teach in general education classes will be required to be prepared to teach English Language Learners.
- 2) Approved universities with teacher education programs in place to train teachers for the English Language Learner Endorsement should serve in an advisory capacity to developing legislation which will require such training to be part of the requirements for all teachers completing endorsement programs in the State of Washington, and to outline the components necessary to adequately prepare all teachers to be successful instructors for English Language Learners.

3. We believe the issue should be addressed by (please check appropriate boxes):

- ☒ State Legislature
☐ State Board of Education
☐ Office of the Superintendent of Public Instruction
☐ U.S. Congress
☒ Please address this issue to the appropriate body

4. Statements of Support/Explanation:

- a) Please explain why this issue has statewide implications and should be a priority of WSSDA.

The rapidly changing demographics and multiple languages spoken in the state are increasing the needs for districts to address student achievement in these language groups.

- b) Please explain the consequences to your district if this issue is not resolved.

The achievement gap in a minority majority district would continue to increase leading to continued high dropout rates in the high needs populations.

- c) What are the potential consequences to other districts?

The achievement gap within high needs populations with multiple languages spoken in the home are similar and would have the same impact on the achievement gap.

- d) How does this issue/proposal affect students and improve student learning?

Student achievement in this population would increase graduation rates dramatically in the high needs demographics.

- e) What are the costs of implementing your proposed solution, if one is proposed?

The endorsement program should be cost neutral if Teach Ed. Programs revised current core credit requirement to include language acquisition requirements.

- f) How would the proposal increase public confidence in public education?

Student success would translate into public confidence and support for local levies and support for public education in general.

Comment [DJ3]: Not all ELL endorsement programs believe that ELLs should be held to the same standards as all other students. Some are more interested in "the whole child" and helping students confidence rather than teaching them how to read, write, listen and speak.

Comment [DJ4]: Not true if we were required to have all staff who work with ELLs to be endorsed as stated above.

5. Please indicate which of the following apply to your district:

X This proposal is being submitted by the _____ School District.

☐ This proposal has received approval by the school board.

☐ This proposal has not received approval by the school board.
