Background Information

WAC 180-16-220

Requirements for School Improvement Plan

Each school shall be approved annually by the school board of directors under an approval process determined by the district board of directors and “At a minimum the annual approval shall require each school to have a school improvement plan that is data driven, promotes a positive impact on student learning, and includes a continuous improvement process that shall mean the ongoing process used by a school to monitor, adjust, and update its school improvement plan.” School Improvement plans must include a brief summary of use of data to establish improvement; acknowledging the use of data which may include DIBELS, MAP, WELPA, Credit Attainment, Enrollment in Honors/AP Courses, CEE Perceptual Data, SAT/ACT, Discipline, and MSP or HSPE.

Stakeholder Input

Our SIP team consists of 12 highly qualified staff members and parent and community representatives. We meet once a month to discuss the changes and implementations for our current School Improvement Plan. The staff is notified of all changes and updates at regular bi-weekly staff meetings. Reading, Math, and Perceptual data is analyzed at four data carousels throughout the year; strengths and challenges are determined and strategies are discussed for immediate implementation.

Highly Qualified Staff

All staff at Alpac Elementary School are highly qualified.

Demographic data

Upon analyzing Alpac's demographic data from 2008-2012 distinct patterns were identified. The free and reduced data has shown a rise each year, throughout the span, for a total increase of 11.6%. Alpac's white population has remained the same from 2008-2012. Alpac's Asian population has decreased each year for a total 8.4% throughout the five years. The ELL population has declined each year for a total of 5.8% in the five year.

Discipline and Attendance Analysis

Upon analyzing the discipline and attendance data from 2010 – 2013 distinct patterns were identified. In 2010-2011, we had 19 suspensions; a number that has decreased the last two years to a total of 5 suspensions in 2011-12 and 7 suspensions in 2012-2013.

Assessment Decisions

Alpac's building decision making committee has recommended to the staff that we use the following assessments to drive all instruction. MAP in grades 2-5 to assess both reading and math strands; DIBELS to assess reading fluency in grades K-5; STAR to assess reading comprehension and vocabulary in grades 1-5; MSP in grades 3-5 to assess reading, writing, math and science; Common Grade Level Formative assessments for grades K-5 to assess vocabulary, reading and listening comprehension, fact fluency, number sense, problem solving, science, social studies and writing.

Data Analysis- DIBELS

The percent of students meeting benchmark at each grade level for the years 2007 through 2012 were reviewed. Challenge: the percent of students at intensive increases significantly from spring to fall. Cohort data reveals a pattern in third grade scores reaching a plateau from fall to spring.

Data Analysis- MAPS

The percent of students meeting benchmark at each grade level in reading and math for the years 2009 through 2012 were reviewed. Challenge: the percent of students at intensive in the fall is larger than desired in both reading and math. Disaggregation of the data by socio-economic status, special education, and ELL indicates the need to focus on special education and low income students. Cohort data for reading and math revealed that student scores are increasing from fall to fall in all grade levels.

Data Analysis- WELPA

The percent of students meeting/exceeding standard on the WELPA for the years 2009 through 2012 were reviewed. Challenge: between second and third grade, level 3 students are only decreasing by 0.7%.

Data Analysis- Credit Attainment, Honors/AP Enrollment

Does not pertain to Alpac Elementary School.

Data Analysis- CEE Perceptual Survey

The percentage of staff who believes we have high standards and expectations at each grade level has been compared for the years 2008, 2010, and 2012. Challenge: Only 68% of staff believes we have high standards and expectations as measured by the CEE survey in 2012. Cohort data reveals an increase from 50% in 2008 to 56% in 2010 to 68% in 2012. This is an 18% increase over the last four years. When comparing school data to High Performing Schools (Top 20%), Alpac is about 10% higher in believing we have high standards and expectations.

MSP/HSPE Reading

The percent of students meeting/exceeding standard at each grade level for the years 2006 through 2012 were reviewed in comparison to state averages for the same years. Challenge: gap between the performance of our students and the students across the state in third grade. Cohort data reveals a pattern of increased scores from 3rd to 4th grade but a decrease in scores from 4th grade to 5th grade. Disaggregation of the data by socio-economic status, special education, and ELL indicates the need to focus on special education and low income students. There is not a significant gap between both subgroups compared to state achievement for these groups. Level data at each grade level for 2006 through 2012 indicates little movement of students from Levels 1 and 2 to Levels 3 and 4.

MSP/EOC Math

The percent of students meeting/exceeding standard at each grade level for the years 2006-2012 were reviewed in comparison to state averages for the same years. Challenge; in comparing the 6 years of data, results indicated that from 2009 to 2011, our 4th grade students meeting standard in writing decreased from 83.5% to 68%. Disaggregation of the data by socio-economic status, special education, and ELL indicates the need to focus on special education and low income

students. Cohort data reveals a pattern of increased level 4 scores within 4th grade writing. Level data at grade 4 from 2006-2012 indicates little movement from level 2 to levels 3 and 4.

MSP Science/EOC Science

The percentage of students meeting/exceeding standard in Science in 5th grade for the years 2008-09 through 2011-12 were reviewed in comparison to state averages for the same years. Although both Low income and Non Low income are outperforming state averages, a consistent gap has been identified within our school. Challenge: consistent gap between the performances of our Low Income students compared to Non Low income students each year. Disaggregation of the data by socio-economic status, special education, and ELL indicates the need to focus on special education and low income students. Cohort data reveals a pattern of approximately 30% lower scores for Low Income Students each year. Disaggregation of the data by Low Income vs. Non Low Income indicates the need to focus on the achievement of Low Income Students in the area of Science.

MSP Writing

The percent of students meeting/exceeding standard at each grade level for the years 2006-2012 were reviewed in comparison to state averages for the same years. Challenge; in comparing the 6 years of data, results indicated that from 2009 to 2011, our 4th grade students meeting standard in writing decreased from 83.5% to 68%. Disaggregation of the data by socio-economic status, special education, and ELL indicates the need to focus on special education and low income students. Cohort data reveals a pattern of increased level 4 scores within 4th grade writing. Level data at grade 4 from 2006-2012 indicates little movement from level 2 to levels 3 and 4.

Strengths

1. In Winter 2013, fourth grade students scoring at intensive for DIBELS decreased 16% from 30% in the Fall of 2012 to 14% in the Winter 2013.
2. In 2011-2012, third grade students were 6% above the district and 11.3% above the state on the math section of the MSP.
3. The percentage of staff that believes we expect all staff to perform responsibilities with high levels of excellence was 94%.

Prioritized Challenges

*In this section, prioritize the challenges identified in the Executive Summary that will drive the direction for your study teams. Your **SMART GOALS and Action Steps** must address the Prioritized Challenge Narratives from this section*

Reading:

1. From 2009-2010 to 2010-2011, fourth grade students meeting standard in writing decreased from 83.5% to 68%.
2. In 2012, third grade non-low income students decreased from 84.4% to 60% at benchmark on the MSP.
3. In 2012, 35.4% of 3rd grade MSP reading students are still not meeting standard.

Math:

1. From 2004-2012 Low income vs. Non-Low income math WASL/MSP in third through fifth grade has remained stagnant.
2. In 2011-2012, 80% of limited English fifth grade students are not performing at benchmark on the MSP.
3. In 2011- 2012, approximately 50% of second grade students were not at benchmark for their subtraction facts in the spring.

Perception:

1. The sample size for the 2012 CEE survey was only sixteen people out of our certificated and classified staff.
2. From October 2010 to November 2012, we decreased 20% in believing that our staff shares new ideas and strategies with one another.
3. On the 2012 CEE survey, 25% of our staff did not believe we hold one another accountable for student learning.

Rationale for SMART Goals:

When establishing our SMART goals, we analyzed our previous School Improvement Plan and State Assessment Data to pinpoint areas of high needs. It was then determined as a building to continue to improve upon our previous goals increasing our State Assessment scores in the areas of ELA and Math.

For SMART Goal 1, we have increased from 70.4% in 2009 to 76.9% in 2012 and are continuing to work towards the goal of 86.9% of students meeting standard as measured by the 2016 Washington State Assessment. For SMART Goal 2 we have increased from 51.9% in 2009 to 73.6% in 2012, meeting our initial goal of 69.9% of students meeting standard as measured by the Washington State Assessment. We have increased our goal from 69.9% to 85.6% of students meeting standard by 2016. This goal is attainable for grades 3-5 only if grades K-2 continue working hard and meeting their grade level standards.

Upon analyzing the CEE survey data, we determined that although we have met and exceeded our previous goal of 68% of staff believing we have high standards and expectations, it is still an area of high need, when comparing all of the 9 Characteristics of High Achieving Schools. To further our work in high standards and expectations our goal is to have 84% of staff believing that we have high standards and expectations as measured by the 2016 CEE survey.

SMART Goal 1:

The average percentage of Alpac students at grades 3-5 meeting standard in reading will increase from 76.9% in 2012 to 86.9% by 2016 as measured by the Washington State Assessment. The grade level targets are:

1. 84.6% of third grade students will meet standard in reading as measured by the state assessment in 2016.
2. 90% of fourth grade students will meet standard in reading as measured by the state assessment in 2016.
3. 86.1% of fifth grade students will meet standard in reading as measured by the state assessment in 2016.

SMART Goal 2:

The average percentage of Alpac students at grades 3-5 meeting standard in math will increase from 73.6% in 2012 to 85.6% by 2016 as measured by the Washington State Assessment. The grade level targets are:

1. 86.2% of third grade students will meet standard in math as measured by the state assessment in 2016.
2. 85.4% of fourth grade students will meet standard in math as measured by the state assessment in 2016.
3. 85.1% of fifth grade students will meet standard in math as measured by the state assessment in 2016.

SMART Goal 3:

The average percentage of Alpac staff who believes that we have high standards and expectations will increase from 72% in 2012 to 84% in 2016 as measured by the CEE survey. The following are the targets for SMART Goal 3:

1. 2014: 78% of staff will believe we have high standards and expectations.
2. 2016: 84% of staff will believe we have high standards and expectations.

Summary - Comparison View of Combined Percent Positive

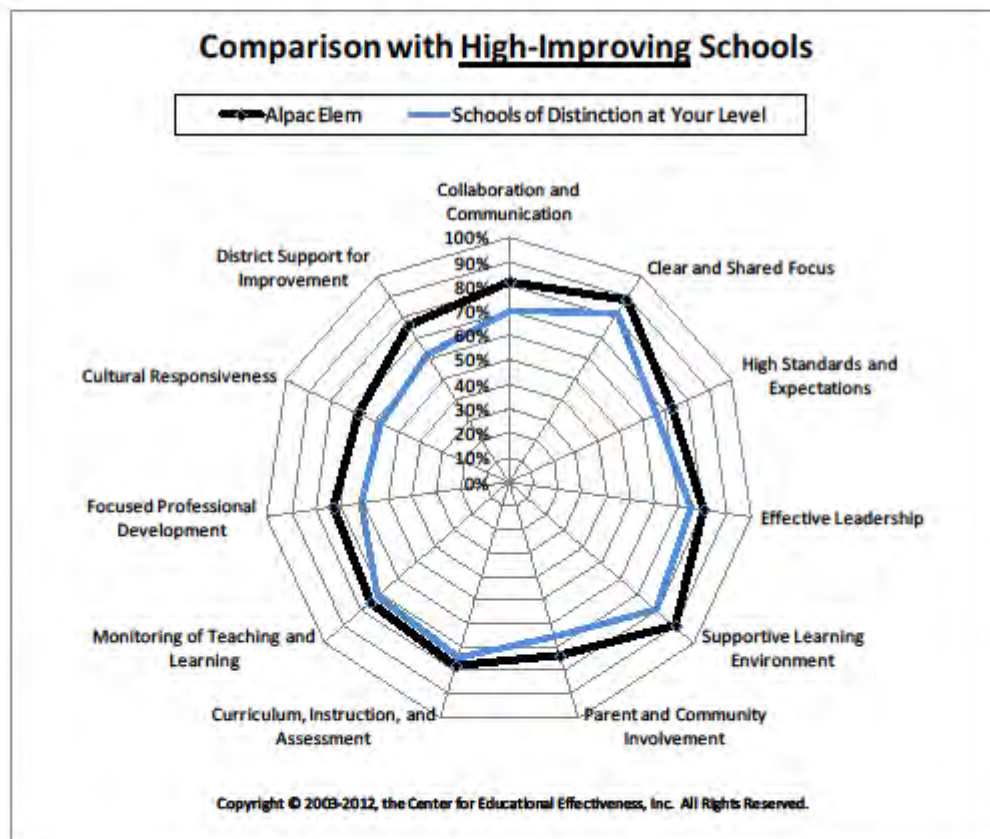

This chart compares the "characteristic summary" value (combined positives) of two groups of respondents. Recall that in these radar graphs, closer to the edge (further from center) is more positive.

Comparison View-High Improving Schools

This chart compares the "characteristic summary" value (combined positives) for your school (shown in a solid black line) to a representative sample of the Schools of Distinction *at your level*. The Schools of Distinction are the 5% highest improving schools in the state of WA for 2010 as measured by the state Reading and Mathematics assessments over a 5-year period of time. For more information on the Schools of Distinction and the methodology used to identify those schools, see www.effectiveness.org.

Comparison based on Combined Positive Responses (the addition of the "Almost Always" and "Often True" percentages).

RE: Auburn Riverside High School Ballfield and Site Improvements
Construction Contract Award Recommendation

Dear Bob:

We opened six bids on March 3, 2015 for the above referenced project. The low responsive bid was submitted by, Terra Dynamics, Inc, for a base bid amount of \$3,609,000.00. No bid alternates were included in the project.

Our design team consultant, DA Hogan, has worked with Terra Dynamics on several field construction projects over the last 20 years with positive results and consider Terra Dynamics one of the top quality athletic field builders in the Pacific Northwest.

National talent, We recommend that Auburn School District award the contract to Terra Dynamics, Inc. in
local focus the amount of \$3,609,000.00 plus sales tax.

Sincerely,

Karee Loghry, AIA
Senior Associate
