#### STUDENT AND STAFF RECOGNITION

#### 1. Recognition of Student

The Auburn School District Board of Directors will recognize Damien Abbott, a fifth grade student at Lea Hill Elementary, for being an outstanding student.

Damien is a smart, funny, compassionate and hard-working student with the most infectious laugh.

When Damien started in the Pathways program two years ago, he was shy, somewhat guarded and lacked confidence. He has blossomed into a confident, respectful student who helps his classmates. He is friendly, polite and sincere in all of his interactions with staff and students. He strives to include everyone around him.

Damien also has overcome some academic struggles and has shown amazing growth in his schoolwork. He is committed to completing his work accurately and on-time, with a positive attitude. He has been so successful that he is exiting the Pathways program. He will be attending Cascade Middle School next year and is excited for the next step in his school journey.

Music is Damien's passion! His knowledge of music is way beyond his years. He knows about all genres of music and loves current rock and classic rock. Sometimes he breaks out in song! He also loves to dance. He enjoys video games and movies. He hopes to be a professional snowboarder when he grows up.

His Pathways teachers have no doubt he will be successful at Cascade and they are very proud of his accomplishments.

2. Recognition of Staff

The Auburn School District Board of Directors will recognize Deanna Holbrook, English language learner specialist at Pioneer, for her outstanding service.

Deanna earned her bachelor's at Oklahoma Christian University and her master's of science at the University of Washington.

She began her career in Auburn 15 years ago, teaching first grade at Gildo Rey and Alpac before coming to Pioneer in 2011.

Instructional specialist Jay Massimino said Deanna is a crucial part of Pioneer's leadership and she promotes positivity to staff and students through innovative ideas. He said she is a master teacher that critically understands how to use data to promote student growth and staff development to meet the needs of Pioneer students.

"I love coming to work and look forward to it every day," Deanna said. "The students are a joy to spend the day with. I work with amazing people and I love Debra Gary's ideas." Deanna works with numerous para-educators in her role and she credits them for being instrumental in supporting students with reading, math, and positive attention.

A native of Port Orchard, Deanna currently lives in Lake Tapps. She has been married to husband Mitch for 15 years and they have two children, Sophia, age eight and Trey, age nine.

In her off time, Deanna loves to play with her kids, hike, camp and read. Her family takes a big camping vacation to the ocean every summer.

4. Teachers of the Year

#### High School-Jim Wickens, Auburn Riverside

Jim has been a teacher for 30 years and the last 16 of those years have been at Riverside. He teaches multiple levels of woodworking and design, is the SkillsUSA advisor and is the work-based learning coordinator.

Jim's work with students prepares them with the technical knowledge and competencies needed for today's work force. He takes great pride in seeing the growth of students from their freshman year to their senior year.

He also has a firm belief in instilling the importance of community service in his students. He has been central in the Riverside Lily Pad project commemorating one of his student who passed away. The students created decorated boards to fit on IV poles for kids in hospitals. The project was featured on The Today Show and requests for the plans have come from all over the world. He has spent countless hours with the students cutting, sanding and preparing the lily pads.

In addition to his in-class work with students, Jim is committed to Career and Technical Education. He is the CTE representative to the Auburn Education Association Executive Board, attends business and industry meetings, served on the credit equivalency task force and promotes CTE through his leadership of the Riverside SkillsUSA club.

With experience as a cabinet maker, carpenter and a master's degree from Central in Occupational Education Administration, Jim is dedicated to his profession. "I look forward to coming to work every day," he said. "I love the interaction with the students."

Principal Dave Halford said Jim is dedicated to the success of his students and he spends hours outside of the classroom helping them master the woodworking trade.

On being selected high school teacher of the year, Jim said, "It's an honor to be chosen. Auburn has so many outstanding educators."

Jim has been married to Kolleen for 34 years. They have one son, Matthew, who is a structural engineer in California. In his off time, Jim enjoys traveling, camping and golfing whenever he can.

#### Middle School-Kelly Portmann, Rainier

Kelly is in her  $21^{st}$  year teaching  $6^{th}$  grade at Rainier. After three years teaching in Kent, she found her home at Rainier.

"I love sixth graders," she said. "They are fun and funny and I love seeing their growth throughout the year."

Principal Ben Talbert said students are consistently at the center of Kelly's work. There is strong evidence of instructional purpose and high levels of student engagement. She is skilled at working with students who have challenges and are challenging.

In addition to her strong teaching skills, Kelly is a leader in her building and in the district. She has been a team leader, is in the ATLA 2.0 group, serves on Rainier's Culture and Climate committee and is mentoring a new  $6^{th}$  grade teacher. She also has had leadership positions in the community as a Cub Scout leader and with Auburn Young Life.

One of her passions is student leadership and she co-coordinates the Where Everyone Belongs (WEB) program, which supports the development of  $8^{th}$  grade mentor leaders and pairs them with incoming  $6^{th}$  graders to assist in a smooth transition to middle school. The WEB team hosts a summer orientation day and 85 percent of the  $6^{th}$  graders participate. The  $8^{th}$  graders support the  $6^{th}$  graders and there are additional social events they host throughout the year to stay connected.

Kelly grew up in Kent and earned a bachelor's degree from Western and her master's degree in Curriculum and Instruction from City University. She has been married to husband Rob for 21 years and lives in Auburn. They have two boys who attend Auburn Mountainview.

Kelly said being middle school teacher of the year is exciting and humbling. "Educators are the hardest working people I know."

Rob works for Alaska Airlines, so in her off-time, her family does a lot of traveling. She also enjoys working in her garden and reading.

#### Elementary-Alisa Louie, Evergreen Heights

Alisa loves to be a positive role model for students. At every opportunity, she jumps in to be involved with as many students as possible. After teaching  $2^{nd}$  and  $4^{th}$  grade, Alisa is now a learning specialist and ELL coach, in her ninth year at Evergreen Heights.

Principal Anne Gayman said Alisa impacts the school, the district and the community in many ways. She volunteers countless hours as the ASB teacher representative. She is responsible for facilitating school fundraisers, is the teacher/PTA representative, meets regularly with

May 23, 2016 Page 5

students and supports students in leadership responsibilities throughout the community.

For the last two years, Alisa has co-coordinated the annual food drive. She has worked with students within the community to collect food. She walked the neighborhoods, reached out to businesses and even contacted Senator Joe Fain to support the cause. She regularly goes above and beyond to support children within and outside the classroom. She teaches students to be leaders with a responsibility to citizenship in our society.

When Alisa is not working directly with students, she is assisting teachers to become better in their job roles. She volunteers with PSESD and writes a BLOG on CCSS highlighting resources to support learning and instruction. Her goal is to assist teachers in the transition from state standards to Common Core. Alisa was selected to score National Boards after receiving her own National Board Certification in 2011. She often is chosen by state and federal educators to participate and support educational reform.

Alisa said being chosen as the elementary teacher of the year is a reflection of the entire building at Evergreen Heights. "Everyone is doing amazing work."

A native of Renton, Alisa earned her bachelor's at Western. Alisa has been married to Michael for five years and they have two dogs. When not working, she and Michael volunteer for a transitional housing non-profit in King County. Alisa also likes to travel, host dinner parties, and be outdoors.

# TIGHTS!

- We work collaboratively in teams of two or more.
- We have norms and protocols for working with one another.
- We analyze student learning, seek best practice.
- Our meetings have agendas and notes are provided to the admin.
- We use data and are results oriented to improve student learning.
- No phone calls/announcements will be pushed through from the office.
- No meetings (IEP, Parents, etc.).

## 7 STAGES OF PLC'S

- Filling the time
- Sharing personal practice
- Planning, planning, planning
- Developing common assessments
- Analyzing student learning
- WE ARE HERE
- Adapting instruction to student needs
- Reflecting on instruction

## **CLOSE CONNECTION TO TPEP**

- Teacher use of formative assessment data (A6)
  Collaboration with peers & admin to improve student learning (PCC1)
- Professional and collegial relationships (PCC2)
- Communication within the school community about student progress (PCC4)

# PE/HEALTH

- Our Health and Fitness PLC's focused on the following:
- Fitnessgram Fitness Testing- student assessment results, data comparisons to see area of growth and areas of concern. Adjusting instruction to meet the fitness needs of our students.
- Health and Fitness CBA's. Assessment data.
- Curriculum mapping/calendar

## INSTRUCTIONAL TECHNOLOGY

• Focus: Curriculum alignment – Same practices, skills taught, assessments, with similar timelines between the 2 schools.

• Successes: Alignment of our focus and also adjusting what we teach to stay with current technology and practices.

# ELA

- ELA has focused on the Targets and Instructional Calendar and sharing instructional strategies on scaffolding lessons.
- Our major success was looking at data after each formative reading assessment and after each PT, for a total of 9 times.
- We discussed what students did well and where they needed more scaffolding. We also talked about the specific assessment questions, if several students were not successful, and will suggest changes to the IS team.

## SOCIAL STUDIES

- Focus on alignment with all grade levels on scope and sequence.
- This allows for common formative assessments in order to review data together.
- Focusing on PLC questions 3 and 4 this year...frequently have to revisit question 2 though as we make changes/adaptations to our common assessments.

# SCIENCE

- Science is working to align materials that match the new NGSS standards.
- We are working to stay consistent with each other in our grade levels with materials.
- We spend PLC's making common assessments.
- We meet as a group and in grade levels Taylor meets with Biology once a month, Aaron with robotics once a month and I meet with accelerated once a month within the district.

# MATH

- Discussing and planning how to teach upcoming units. Looking at unit test results to see where students struggled and/or succeeded. Discussing how the unit went and taking notes on any changes we need to make for next year.
- We continue to use the four PLC questions to look at student data and placement for next year.

### Our Successes:

- Used student data to drive after school instruction to achieve daily success, as well as future success on the SBA.
- We continue to grow as a math department and the stability in math the last few years has allowed for this. The lack of turn-over and teaching the same grade level and/or course has contributed to our continuity as a math department.

## MOVING FORWARD

• It's time to revisit, re-engage, re-commit.

• Continue to find the best path to a shared responsibility for the success of all students.

Increased use of technology.

• Moving to a solid stage 6 is the goal for 16-17.

### The Seven Stages of Professional Learning Teams

Stages	Questions That Define This Stage	Description of This Stage	How to Move Forward
Stage 1 Filling the Time	What exactly are we supposed to do?	Teams in this stage believe in the PLC concepts but lack clear guidelines or experiences regarding what they need to focus on during collaboration time. Teams in this stage typically struggle to fill time or move to the other extreme and try to accomplish too many things too quickly. This stage is characterized by frustration, bewilderment, and a desire to go back to what was comfortable.	Teams in this stage need clear guidelines and work expectations. It also helps to identify clear and specific tasks for the group, utilize agendas, create norms, and collective commitments. Creating a PLC structure for the teams will be a crucial foundation for the teams.
<b>Stage 2</b> Sharing Personal Practice	What is everyone doing in their classroom?	Teachers in this stage may be genuinely interested in what other teachers are doing, hoping to pick up new ideas. Talking about teaching feels like collaboration to the novice teacher but does not include the in-depth look at learning. Conversations about practice are comfortable at this stage but there is a danger in never really taking a step toward talking about student learning.	Teacher and school leaders can promote meaningful work by requiring team members to arrive at collaborative decisions around curriculum, assessment, or instruction. Need to move from individual milestones to collective milestones and goals. A discussion about shared accountability is warranted at this stage.
Stage 3 Planning Planning Planning	What should we be teaching and how do we lighten the load for each other?	Teachers utilize the team approach to plan together. Rather than each teacher individually planning every lesson, different members take responsibility for sets of lessons and share their planning work with others. Unfortunately, teams often grow comfortable with shared planning and fail to focus on results. Teacher attention remains centered on teaching rather than learning.	Use student achievement data in the planning process. The questions to ask are, "Are students learning what you want them to learn? How do you know they are learning?
Stage 4 Developing Common Assessments	How do you know students learned? What does mastery look like?	Shared assessments force teachers to define exactly what students should learn and what evidence is necessary for documenting success. Novice teams may work to avoid common assessments, thereby steering clear of difficult conversations, but common assessments are essential if teams are to shift their focus from teaching to learning	Teacher and school leaders should consider moderating difficult conversations and modeling strategies for joint decision-making. Time spent on the differences between assessments <i>of</i> learning and <i>for</i> learning is critical. Skill development and P.D on assessment practices is critical at this stage.

Stage 5 Analyzing Student Learning	Are students learning what they are supposed to be learning?	Professional learning teams begin to shift their focus from teaching to learning. Teachers spend time looking and dissecting student work, analyzing the strengths and areas of improvement for each student. Teams can be very motivated in this stage and can be driven by results. However, teachers are also put in a delicate position of publicly facing results of their classroom which may pose an intensely personal response. Collective intelligence provides a never- ending source of solutions for addressing shared challenges.	Provide structures and tools for effective data analysis. Emotional support and patience is required during this stage. Create safe environments. Separate the person from the practice is an essential first step in teams examining results together. School leaders should walk the walk, modeling a data oriented approach while publically reflecting on their own work.
Stage 6 Adapting instruction to student needs	How can we adjust instruction to help those students struggling and those exceeding expectations?	Teachers, teacher leaders, and school leaders collectively commit to helping all students improve and learn. Behaviors in the teams represent this commitment. Teams are typically performing at high levels taking collective responsibility for student success rather than responding as individuals.	Pose reflective, provocative questions to the team to explore various approaches to intervention and enrichment. Provide professional development in intervention development.
Stage 7 Reflecting on Instruction	Which practices are most effective with our students?	This question brings the process of professional learning team development full circle, connecting learning back to teaching. Teams are engaged in deep reflection, tackling innovative projects such as action research and lesson study. In this stage, you will find teachers observing other classrooms, video taping instruction, intentionally inviting others into the group and "growing" the success of the team into a school culture.	Teacher and school leaders should facilitate a team's ability to explore the teaching- learning connection. Teachers observing each other, providing release time for special projects, facilitating cross-team conversations, and expanding the culture school and district wide.

#### DIRECTORS

#### 1. Approval of Minutes

The minutes of the regular meeting of Monday, May 9, have been forwarded to the board.

Recommendation: That the minutes be approved.

#### 2. Healthy Kids-Healthy Schools Letter of Support

The district applied for grant funding from the Healthy Kids-Healthy Schools grant. Pioneer was awarded \$57,000 for a walking path and Gildo Rey was awarded \$46,662 for playground improvements. Prior to releasing the funds, OSPI requires a letter of support from the board. Attached is a copy of the letter of support.

Recommendation: It is requested the board acknowledges support of these projects and the letter of support be signed by the Board President.

#### 3. Special Board Meeting

The superintendent is requesting a special board meeting to be held on Monday, June 27, 6:00 p.m., for the purpose of evaluating the superintendent.

Recommendation: That the board approve a special board meeting to be held on Monday, June 27, 6:00 p.m. for the purpose of evaluating the superintendent.

#### 4. Discussion

#### 5. Executive Session

An executive session will be held to discuss issues relating to RCW 42.30.110(b), to consider the selection of a site or the acquisition of real estate by lease or purchase.

RE: Letter of Support for Healthy Kids-Healthy Schools Grant

Dear Director:

The Auburn School District Board of Directors has pledged their support to sustain the improvements funded by a Healthy Kids-Healthy Schools grant.

Our school district is committed to providing all students with the educational foundation necessary to succeed. We have set high standards in what is taught in our classrooms and all areas of the school that have a direct impact on our students. We consider the condition of our facilities, the meals we serve, and the options we have for active play to be critical components of our educational environment. Healthy, well-fed students are more apt to succeed.

The district has received a preliminary grant award in the amount of *\$103,662*. The following projects are included in the grant:

Gildo Rey Elementary: PE/Play for \$46,662 Pioneer Elementary: PE/Play for \$57,000

We will complete these projects before the end of June, 2017. The Board will provide district resources in the form of operating funds, capital maintenance, or staffing and staff training needed to sustain the practices, processes, and policies, and maintain the improved or new facilities, brought about by these grant-funded improvements.

The Auburn School District consistently addresses facility maintenance and improvements by planning, documenting and tracking the needs of our school buildings. We do that by: (*select one or more of the following*)

An Asset Preservation System, also known as a school maintenance plan. The plan must follow the requirements in the <u>OSPI Asset Preservation Program</u>. If applicable, you may submit the letter of certification submitted to OSPI School Facilities attesting to the use of APP.

Use of a maintenance management software program such as SCHOOLDUDE Maintenance Essentials Pro. These types of programs track work orders and schedule preventative maintenance.

May 23, 2016 Page 2

A school district Facilities Maintenance Plan.

Short- and long-term capital budget planning/request that includes preventative maintenance.

Other – please describe.

Our application includes expected outcomes and a method for measuring outcomes for each project proposal. We agree to share the results of our work with OSPI.

Sincerely,

Anne Baunach President, Auburn School District Board of Directors
