CAREER AND TECHNICAL EDUCATION DISTRICT-WIDE PLAN 2015-2017

School District Name: **Auburn School District #408**

County Name: **King**

The Office of Superintendent of Public Instruction is required to monitor the performance of career and technical education programs in at least the following areas:

- Student participation in and completion of high-demand programs.
- Students earning dual credit for high school and college.

This district hereby assures compliance with the following requirements:

1. All Career and Technical Education classes/programs receiving state and/or federal Career and Technical Education funding are currently approved by the Office of the Superintendent of Public Instruction (OSPI) and are taught by an instructor who has a current Career and Technical Education certification and whose certification matches the instructional area.
2. The district must have program(s) of study documentation on file.
3. All Career and Technical Education instructors of approved applied academic courses have completed approved preparation and yearly in-service for the course(s) they teach.
4. All Career and Technical Education teachers in approved Career and Technical Education programs hold a current first aid and CPR certificate.
5. The local Career and Technical Education program has identified goals and objectives that have been developed in relation to the career and technical standards and indicators and are the basis for federal, state, and special grant funding requirements.
6. The local Career and Technical Education plan was developed in consultation with the local general advisory council (GAC).
7. The local Career and Technical Education plan was developed in consultation with representatives of the educational and training resources available in the area to be served by the applicant, such as private business schools, skills centers, and other public or private agencies.
8. All Career and Technical Education programs and activities are conducted in compliance with Title I of the Perkins Act of 2006 and the provisions of the state plan, including the provision of a financial audit of funds received under this title which may be included as part of an audit of the federal or state programs.
9. The district has conducted an evaluation of Career and Technical Education programs using the current standards and indicators, contracted evaluation services, or other local indicators.
10. Each recipient of financial assistance shall annually evaluate the effectiveness of the

program. As part of each such evaluation, each recipient shall (1) review programs with the full and informed participation of representatives of individuals who are members of special populations, and (2) evaluate the progress of Career and Technical Education programs assisted under this Act in providing Career and Technical Education students with strong experience in, and understanding of, all aspects of the industry the students are preparing to enter.

11. Students who participate in Career and Technical Education programs are taught to the same challenging academic proficiencies as are taught to all other students.
12. Federal Career and Technical Education funds made available will be used to supplement, and in no case to supplant (replace), such state or local funds.
13. None of the funds expended under Title I of the Perkins Act of 2006 will be used to acquire equipment (including computer software) in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the purchasing entity, or any affiliate of such an organization.
14. Consortium dollars are not distributed to receiving districts based upon the amount of funds generated by the Carl D. Perkins formula.
15. Career and technical services, programs, and activities relate to state or regional occupational opportunities and prepare students for post secondary opportunities or entry into high skill, high wage jobs in current and emerging occupations.
16. The district will ensure their Career and Technical Education programs are in compliance with Perkins IV Sec. 134 & 135.
17. The district has developed an affirmative action plan which is on file in the school district administration office and at OSPI. The affirmative action plan ensures that there will be no discrimination of staff or students in any school district education program, including Career and Technical Education.
18. Equal access to Career and Technical Education programs will be provided to meet the needs of all students in nontraditional and technological occupations regardless of gender.
19. The district assures that all CTE programs facilitate access for all students and complies with all federal and state rules and regulations. The district assures that it does not discriminate on the basis of race, color, national origin, gender, or disability in education programs, services and activities.
20. The district has developed a transition plan (which is on file in the school district administration office) for the removal of any building barriers which may exist which would limit access by students with disabilities to any school district education program, including Career and Technical Education.
21. Career and Technical Education planning for individuals with disabilities will be coordinated between appropriate representatives of Career and Technical Education and special education.

22. Each student who is disadvantaged and/or each student with a disability who enrolls in Career and Technical Education programs shall receive:
 - a. Assessment of the interests, abilities, and special needs of such students with respect to completing successfully the Career and Technical Education program.
 - b. Supplementary services, including adaptation of curriculum, instruction, equipment, and facilities designed to meet the needs of special populations.
 - c. Guidance, counseling, and career development activities conducted by professionally/technically trained counselors who are associated with the provision of such special services.
 - d. Counseling services designated to facilitate the transition from school to post-school employment, career opportunities, and postsecondary education.
23. The districts will adequately address the needs of students in alternative education programs, if such programs are offered in the district.
24. Data reported to OSPI under Perkins IV is complete, accurate, and reliable.
25. Reports and other information will be submitted within the dates established, and documentation will be maintained for five years.
26. The accounting system and management process used by the institution must be consistent with generally accepted accounting and management practices and meet the specific requirements of the Single Audit Act.
27. An inventory record will be maintained for all equipment purchased whole or in part with federal funds. All such equipment will be available for use by students in the approved Career and Technical Education program for which purchased.
28. The district will supply information to the Office of Superintendent of Public Instruction (OSPI) to meet reporting requirements regarding staff, finances, enrollment, completion, and follow up as mandated in the Carl D. Perkins Career and Technical Education Act of 2006.
29. The district has a policy developed and on file in the school district administration office which ensures that there will be no discrimination based upon race, color, national origin, sex, or disabling condition in any school district education program, including Career and Technical Education. Districts are required to identify a coordinator of federal Title IX regulations.
30. The district board of directors has adopted a course equivalency procedure for career and technical high school courses offered to secondary students enrolled in high schools and skills centers in accordance with WAC 180-51-066 and RCW 28A.230.097. A career and technical course equivalency may be for whole or partial credit.

Allocation Amount: \$124,673

REQUIRED USES OF THE FUNDS (Section 134 and Section 135)

Districts must provide a brief description of how Perkins IV funds will be used to support the following “required” uses of the funds for the following questions. If you do not plan to use Perkins IV funds for a particular category, please briefly describe how the district is meeting all required activities. All narrative sections must be completed in order to be considered for funding.

IMPROVE ACADEMIC AND TECHNICAL SKILLS OF STUDENTS ENROLLED IN CAREER AND TECHNICAL EDUCATION PROGRAMS (Sec. 134(b)(4)(B) Sec. 135)

4.1 Provide a description of how the district will improve programs through the integration of CTE and core academic programs. (e.g., course equivalency, framework alignment to standards, programs of study)

Auburn School District aspires to become a world-class education system preparing all students to be globally competitive for career, for college and for life in the twenty-first century. We believe in a continuous cycle of improvement grounded in the work of our District and School Improvement planning process. Additionally, Auburn School District believes in a comprehensive high school program which includes rigorous core academics combined with rigorous CTE programs.

Every 3 years our secondary schools go through a formal and thorough school improvement revision process. Each school closely evaluates their student data. In a parallel cycle, every 4 years, our district completes a comprehensive review of CTE programs (as per the required CTE review cycle) which are submitted to the state for approval. In both the school improvement process and the curriculum review process we are tasked with aligning to new course standards, develop rigorous frameworks for instruction and complete an investigation into the most current research to determine how to improve our current systems.

Every Career and Technical Education course in the Auburn School District is approved by OSPI and identifies not only the technical skills students will know and be able to do but the reading, writing, math, science and other core academic standards students will meet through the CTE course. The District has identified a process by which students can earn core equivalency credit for completion of certain CTE courses that teach and assess core standards. This equivalency credit provides opportunities for students to demonstrate their attainment of core standards in an applied, technical manner. Periodically at the district High School Curriculum, Instruction and Assessment sub-committee meetings, district administrators review course alignments and investigate additional opportunities for course equivalencies.

In addition, each CTE course in the Auburn School District identifies, teaches, and assesses proficiency in leadership and employability skills. This directly aligns with our district improvement plan Vision statement “The vision of Auburn School District is to develop in students the skills and attitudes that will maximize their potential for lifelong learning and ethically responsible decision-making.”

4.2 Provide a description of how the district will encourage CTE students at the secondary level to enroll in challenging core academic subjects. (e.g., Navigation 101, student led conferences, programs of study)

The Auburn School District's Pathways Program has evolved to personalize college and career planning for students and their families. Programs of Study have been developed to provide students with an understanding of graduation requirements, opportunities for connecting advanced learning opportunities, career and technical education coursework and post-secondary articulations in a career cluster area. The Programs of Study documents also include occupational information, leadership opportunities and scholarship opportunities for students to think about and become engaged in. This detailed information will be shared beginning at the middle level to provide context to students as they are learning reading, writing, mathematics and science. It gives them information to not only think about their future but actively and intentionally begin planning for it. This information empowers students helping them to be more motivated in middle and high school. Additionally, the high schools offer a freshman course which transitions students from the middle to the high school, connecting them to adult advocates in the building, providing them information about opportunities inside and outside of class and promotes a culture of academic success for every student. From that foundational course, students branch out into course sequence that includes a strong academic focus with rigorous standards and develops into opportunities through CTE which offer relevant learning activities in various occupational areas.

In some buildings, a student-led conference is offered at least once, sometimes two times, each year for students to articulate to their parent/guardian their accomplishments and their plans for the future. In the Auburn School District there is an emphasis on accelerating students' learning through advanced coursework such as Advanced Placement challenging all students towards higher levels of academic achievement.

4.3 Describe how the district will ensure that students who participate in career and technical education programs are taught to the same challenging academic proficiencies as are taught for all other students. (e.g., state approved frameworks, articulation agreements, professional development)

Every CTE course in the District has foundational academic standards that are necessary for students to meet in order to build upon and apply to CTE areas. Every Career and Technical Education course in the Auburn School District identifies the challenging, academic standards taught and assessed within each course through the state-approved curriculum frameworks. These frameworks identify the state core standards (including Common Core State Standards for English Language Arts and Math) that are taught and assessed in CTE courses. With the addition of the new CTE Statewide Course Equivalencies we believe a student will be successful in high school with BOTH a rigorous core academic AND a rigorous CTE program of study. The core standards in the CTE courses are the same academic core standards taught and assessed in general courses of Language Arts, Math and Science. These standards would also be present in CTE and general education articulation agreements with post-secondary partners.

Two times per year, progress in enrollment of CTE courses and review of demographic make-up of CTE programs is evaluated and brought to the school board for review.

4.4 Describe how the district will provide students with strong experience in, and understanding of, all aspects of an industry (e.g., industry skill standards, CTSO experiences, certifications, advisory committees, field trips, career progression, and management).

Every Career and Technical Education course in the Auburn School District not only aligns to the teaching and assessing of core academic standards, but aligns with the standards students need to be successful in industry. The technical standards found in curriculum frameworks are based upon national and/or state industry standards identifying what students must know and be able to do to be successful in the world of work. Students who demonstrate meeting these standards in high school have the opportunity to earn college credit as well as industry certification. CTE courses infuse a variety of teaching and learning methodologies such as field trips, internships, job shadows and work-based learning opportunities. Leadership standards/skills are an integral component of every CTE course identifying basic core leadership skills, individual leadership skills, group leadership skills and community and career skills which will empower students to assume responsible roles in the family, community, business and industry environments. Employability skills integrated in every CTE course outline the human relations, personal management, and personality skills needed to be a good employee. Packaged together, all of these aspects contribute to a strong experience in and understanding of industry for every student.

4.5 How will the district identify, assess, and certify skills for successful careers to:

- a. Increase workplace and life skills development for students.**
- b. Increase the use of industry-based skill standards, assessments, and credentials.**

To identify skills for successful careers, staff in the Auburn School District will continue to work with community and industry partners in the various career areas. This on-going collaboration with business and industry keeps teachers updated on the skills necessary for students of tomorrow's workforce to be successful. Additionally, teachers will stay up-to-date professionally through journals, professional associations and conferences designed for professional development. Teachers in the Auburn School District teach and assess employability and 21st Century Skills in their courses to increase workplace and life skills development for students. Additionally, the District offers Instructional and Cooperative Work-Based Learning opportunities for students. These WBL opportunities really are the capstone for students to learn and apply their workplace and life skills.

With the identification of industry standards, teachers then collaborate during dedicated Professional Learning Community time to create and align assessments to the skills identified by industry. They administer these common assessments, share and respond to the data to increase student achievement in their program area.

Sometimes there are tools already established that makes identifying and assessing skills for successful careers easier. These are through industry-recognized certifications. These provide real-world tools for students and teachers to analyze and respond to how students are progressing towards meeting industry standards necessary for successful careers. The Auburn School District is emphasizing the importance of industry certification in their program areas.

COMMUNITY AND EDUCATIONAL PARTNERSHIPS (Sec. 134(b)(5) Sec. 135)

4.6 Describe how students, teachers, representatives of business and industry, labor organizations, representatives of special populations, and other interested individuals (i.e., parents, community members, IEP and advisory committee meetings) are involved in the development, implementation, and evaluation of career and technical education programs

assisted under this Act, and how such individuals and entities are effectively informed about, and assisted in understanding, the requirements of this Act.

Students play an important role in providing feedback about Career and Technical Education courses in the district. At the end of each semester, students in CTE courses complete a survey offering their input on program components such as the curriculum, the facilities, the instructor, what they liked best about the course and what they would change. This feedback is shared with each program areas' advisory committee which prompts a discussion with business and industry and other interested individuals.

The District's Curriculum, Instruction, and Assessment Committee includes representatives of special populations which are frequently updated and presented with information about CTE programs in the district.

Advisory committees along with community ad hoc groups provide insight and information to the district in various areas including Career and Technical Education. Their input provides another lens throughout which the District is able to made improvements in programs for the betterment of our students' education.

These individuals and entities are informed about these opportunities through the Auburn School District website, through newsletters, through Career and Technical Education teachers reaching out to current and prospective advisory committee members.

4.7 Describe how the district will increase work-integrated learning by:

- a. Increasing the number and types of workplace experiences available to students and out-of-school youth.**
- b. Bringing more work experiences into the classroom by engaging employers and workers.**

The Auburn School District has always worked to provide Instructional and Cooperative Work-Based Learning opportunities for students in all program areas. For the 2015-2016 school year, our advisory chairs have decided to invest their time and energy to connect students with business leaders in the Auburn area increasing the opportunities of students to gain work experience. One of the opening events is our Rotary Job shadow event held at Emerald Downs where more than 35 businesses will meet with students and discuss the skills and education needed to become a member in their industry.

Additionally, the Career Center Specialists at each comprehensive high school work to expand the classroom experiences related to career interests of students. They bring in presenters from businesses who make presentations and sometimes hands-on demonstrations of aspects of the industries they are in. These presentations are targeted to those students interested in that particular industry to deepen the students' knowledge and understanding of the industry.

SPECIAL POPULATIONS (Sec. 134(b)(8 & 9)(A-B))

NOTE: Special populations means individuals with disabilities, individuals from economically disadvantaged families (including foster children), individual preparing for nontraditional training and employment, single parents (including single pregnant women), displaced homemakers, and individuals who are limited English Proficient.

4.8 Describe how individuals who are members of the special populations are given full access to CTE programs without discrimination.

The Auburn School District has open enrollment for all CTE courses in the district. Students from all racial/ethnic backgrounds are encouraged to participate in CTE offerings. Auburn has partnered with Equal Opportunity Schools for the last 3 years and has seen a dramatic increase in participation of students from under represented populations in our Advanced CTE and AP courses. Two times per year, progress in enrollment of CTE courses and review of demographic make-up of CTE programs is evaluated and brought to the school board for review. In 2015-2016 Auburn has purchased a site license for SNAP and READ, a program which can translate text as well as reduce the lexile of text in an effort to allow our non-English speaking students to be able to participate safely in CTE courses. We will be training students and staff how to use this extension through the winter of 2015-2016 and expect full use by the spring of this year.

All four high schools have a number of special needs students who access Career and Technical Education programs. When necessary, these students are supported in the programs with a para-educator. The para-educator works with CTE instructors to help students who need additional assistance in academic and technical areas. Students, parents, and instructors of disabled students develop individual student plans to meet both academic and vocational needs. Through active advisory committees, CTE programs modify and update curriculum taking into consideration the impact on special populations. With input from a variety of community agencies and district departments, staff and administrators continue to work towards appropriate placement and support for disadvantaged and special education.

PREPARATION FOR NONTRADITIONAL TRAINING AND EMPLOYMENT (Sec. 134(b)(10))

4.9 Describe how funds will be used to promote preparation for nontraditional fields. Include recruitment methods and strategies.

Each high school has a Career Center where students and parents can access information on potential opportunities beyond high school. A post-secondary night exposes students to additional opportunities, including non-traditional occupations, apprenticeships, technical, and community colleges as well as the traditional four-year university. The Auburn School District provides students from all four high schools the opportunities to explore non-traditional career through events such as: Women in the Trades Fair; Expanding Your Horizons; Pathways Partnerships; Construction Career Day; job shadow opportunities and other career exploration activities. Staffs continually educate students about career opportunities for students based upon their aptitudes and interests rather than “traditional” occupation selection. Students also have the opportunity to explore post-secondary options through site visits, guest speakers, and other activities arranged through the Career Centers. Through active advisory committees, CTE programs continue to be modified and updated by examining the impact on special populations and identifying non-traditional opportunities for students.

PROFESSIONAL DEVELOPMENT/CTE PERSONNEL

4.10 Describe how comprehensive professional development promotes the integration of coherent and rigorous content aligned with challenging academic standards relevant to CTE programs will be provided to teaching, guidance and administrative personnel.

CTE staff participate in all professional development opportunities offered in the Auburn School District. On a district level, CTE teachers have received training on ELA Common Core State Standards, strategies for teaching Common Core Math standards, the CEL instructional framework, tools for standards-based teaching and learning, and creating aligned assessments. Specific CTE topics include training on labor market needs, industry standards, Programs of Study, career guidance systems, and industry certifications. In 2015-2016 Auburn will investigate CTE teachers joining their CORE peers in PLC one time per month in an effort to promote the integration of CCSS standards and increasing the rigor of content in CTE classes while sharing 21st century skills and employability applications that can be utilized by CORE content teachers.

CTE teachers are encouraged to participate in their professional organizations, with industry partners, advisory committee meetings and articulation meetings with colleagues from other districts and college professors. STEM professional development has been an area of focus as well. With the 2014-15 focus on expanding conference participation we are continuing this in 2015-16 by sending our STEM instructors to the Fall WA-ACTE conference. We are also sending an instructor to the CORE+ presentations to continue our push with our Aerospace manufacturing program. This year, teachers in the district will be encouraged to attend the WA-ACTE summer conference to gain insight and information as it pertains to Career and Technical Education as a whole.

CTE administrators attend monthly trainings where CTE coordinator shares what is happening with curriculum review, new opportunities for work based learning, legislative impacts and course equivalencies.

4.11 Describe the professional development offered to guidance and counseling personnel regarding CTE opportunities for students and the linkages to future education and training opportunities.

With the development of additional Programs of Study, the District has offered workshops on the Programs of Study—what they are, what they do, why they are important and how they can be implemented. These workshops were offered for all guidance and counseling staff and administrators. On ongoing basis, CTE topics, specifically the implementation of a system for college and career readiness for all students has been a topic for middle and high school counselors including both guidance and career counselors. Counseling staff participate in workshops provided by the counseling professional organization (regional and state), OSPI, and through the regional counseling consortium connected through RTT. Counselors also receive training on the implementation of tools for career guidance such as the career awareness tool preparing students for their futures and which house the high school and beyond plan.

4.12 Describe how the district will improve availability and quality of career and education guidance in the middle school, high school and postsecondary institutions to:

- a. Enhance career guidance for students and,**
- b. Partner with employers to help students explore careers and workplaces.**

The Auburn School District will enhance career guidance for students by moving the initial guidance down into the middle levels. The Programs of Study documents identify the courses to be taken at the middle level that align within a career cluster area. Background knowledge and understanding of Programs of Study are foundational to the launch of and use of Programs of Study at the middle level. Additionally, this year we will be implementing a career awareness tool at the middle level to connect students learning to their future.

As explained above, Auburn's involvement with our regional business partners they are planning to expand the opportunities for students to connect with employers to explore careers and workplaces. The goal is that over a 3 year period that every student would have some experience related to the workplace.

4.13 Describe efforts to improve the recruitment and retention of CTE teachers, faculty, and career guidance and counseling personnel, including underrepresented groups; and the transition to teaching from business and industry.

The Auburn School District has a history of strong CTE programs that we are very proud of. With these quality programs many of our instructors stay for their entire career. This past year due to retirement we had the opportunity to look to industry and other districts to re-hire open positions with excellent hires. CTE teachers in the Auburn School District stay due to a generous contract, time for collaboration, supportive advisory committee members and they are provided resources needed to teach students. We have been able to recruit students who have graduated from the Auburn School District who have completed the program they have come back to teach. Our Advisory Committee members communicate the great programs and support of CTE in the Auburn area. We all continue to identify ways in which we can include underrepresented groups. In fact, one of our District's strategic improvement goals is to improve the recruitment and retention of staff including underrepresented groups. CTE works closely with the Human Resources Department to make that happen.

ALLOWABLE ACTIVITIES

Priorities of the Carl D. Perkins Career and Technical Education Act of 2006

Under the statute, the LEA must provide for enhanced instructional opportunities that may include the following activities **(for each priority box checked, a description of use of funds is required and must identify total Perkins Funds Utilized)**. If no Perkins Funds will be used in this activity, please note in the description.

- ✓ **Preparing students for postsecondary education and careers through strong high school programs, career, and technical education.**

To prepare students for postsecondary careers, we would use Perkins funding to pay for industry certifications for students including any materials and electronic tools to prepare students to be successful with industry certification assessments.

Promoting identification and dissemination of effective practice in raising student achievement in high schools, community colleges, and adult education programs, and lead targeted research investments.

No Perkins funds are used for this activity.

Promoting improved coordination and communication among programs and activities that prepare youth and adults for postsecondary education and/or careers.

No Perkins funds are used for this activity.

Ensuring the equal access of minorities, women, individuals with disabilities and disadvantaged persons to career, technical, and adult education.

No Perkins funds are used for this activity.

Providing a unified Federal approach to high school, career and technical and adult education as well as community colleges with a focus in particular on low achieving areas.

No Perkins funds are used for this activity.

Promoting the implementation of education technology, as it applies to access and service delivery, as well as instructional methodology.

No Perkins funds are used for this activity.

To provide career guidance and academic counseling, which may include information described in section 118, for students participating in career and technical education programs, that improves graduation rates and provides information on postsecondary and career options, and provides assistance for

✓ **postsecondary students and adults.**

Perkins funds will be accessed to fund 3.0 FTE Career Counselor classified support personnel. These classified employees will provide academic counseling support, access to career cruising software and assistance in postsecondary and career options.

To support local business and education partnerships and provide work related experiences, entrepreneurships, internships, cooperative education, and job shadowing that are related to career and technical education programs for local education and business (including small business).

No Perkins funds are used for this activity.

For work-based learning opportunity development for students.

No Perkins funds are used for this activity.

✓ **To improve curriculum development or upgrades.**

Perkins funds will be access to enhance curriculum upgrades.

✓ **To support staff development and related expenses to counselors and instructors – stipends, registration, materials, etc.**

Perkins funds will be accessed for professional development. Professional development may include WA-ACTE, SKILLS Leadership Training, STEM conference and others.

To provide support for training programs in automotive technologies.

No Perkins funds are used for this activity.

Articulation agreement development – Funds may be used to purchase textbooks for newly articulated courses, but cannot be used to replace textbooks currently being used by a secondary school. The Carl D. Perkins grant is supplemental funding, therefore districts cannot supplant

No Perkins funds are used for this activity.

Provision of mentoring, leadership activities, CTSO activities, and academic or career counseling for secondary youth in CTE programs.

No Perkins funds are used for this activity.

Transportation to Tech Camps or Technical College visits.

No Perkins funding is used for this activity.

Support for family and consumer sciences programs.

No Perkins funding is used for this activity.

Support assistance to students who have participated in services and activities under this title in finding an appropriate job and continuing their education.

No Perkins funding is used for this activity.

Activities for mentoring and support services.

No Perkins funding is used for this activity.

Coordination efforts with parents, businesses and labor organizations in the design, implementation, and evaluating the CTE program to promote parents, community and businesses to become active participants in their local education agency.

No Perkins funds are used for this activity.

Activities coordinated with community-based organizations, institutions of higher education, private sector entities, or other entities with expertise in working with, to assist parents of CTE students by offering comprehensive community services.

No Perkins funding is used for this activity.

Services that are directly attributable to the presence in the secondary schools of CTE students, including the payment of costs of providing additional classroom supplies to support extended instruction, culturally relevant materials, or such other costs that are directly related to the goals and objectives of the grant.

No Perkins funds are used for this activity.

To support other career and technical education activities that are consistent with the purpose of this Act.

No Perkins funds are used for this activity.

STATE LEVELS OF PERFORMANCE (Section 134(b)(2))

Perkins IV requires new performance measures. Districts are required to meet district level performance measurements for each indicator. Districts may either accept the state negotiated level of performance, or have the option of negotiating each of the state's targets. Districts opting to negotiate must set a minimum proposed level that is 3% above the district's performance level from the previous year.

Indicator	State Target	Negotiated District Target Proposed Level
Indicator 1S1 Academic Attainment (Language Arts/Reading)	100.00%	83.84%
Indicator 1S2 Academic Attainment (Mathematics)	100.00%	73.94%
Indicator 2S1 Technical Skill Attainment	90.00%	100.00%
Indicator 3S1 Secondary School Completion	91.79%	84.67%
Indicator 4S1 Student Graduation Rates	91.00%	87.80%
Indicator 5S1 Placement in Postsecondary Education or Employment	72.57%	75.41%
Indicator 6S1 Nontraditional Participation	56.83%	77.27%
Indicator 6S2 Nontraditional Completion	84.00%	81.22%

Describe how the district will use Perkins funds and local program activities to meet the state-defined Adjusted Performance Level assigned to each of the following indicators:

6.1 Indicator I/II: Describe how the district will increase student attainment of challenging academic content standards and student academic achievement standards in Language Arts/Reading and Mathematics.

Every Career and Technical Education course teaches and assesses various core academic standards. These core academic standards are the Common Core State Standards for reading, writing, communication, and mathematics. These standards are identified in every CTE curriculum framework approved by the state. The District Strategic Improvement Plan has a goal to increase student achievement specifically in reading and mathematics. Strategies to meet this goal includes providing time for professional learning communities focusing on achievement, alignment of curriculum to Common Core State Standards, implementing interventions for struggling students, aligning school improvement plans with the district strategic plan, using the instructional framework identifying best practices in teaching and learning, focusing students and teachers on standards-based teaching and learning supported with grading and reporting. Because increasing student achievement in reading and mathematics is a district goal, Career and Technical Education staff contribute to increased student attainment of challenging academic content standards by integrating the teaching and assessing of core standards in their technical courses. Teachers throughout the district are provided support for teaching and assessing academic standards through workshops and professional development in these areas. This professional development will include teaching and assessing the appropriate Common Core State Standards in reading, writing,

communications, and mathematics. Administrators are trained to support staff and students in meeting the objectives. Included in each strategy are evidences of implementation that would measure the implementation and possibly the outcome of each strategy.

6.2 Indicator III: Describe how the district will increase student attainment of career and technical skill proficiencies, including student achievement on technical assessments that are aligned with industry recognized standards.

Career and Technical Education must continue to be solid on what skill proficiencies (technical standards) students must know and be able to do in each program. CTE staff district-wide continue to collaborate on identifying the most essential standards for each course. These standards include core academic standards and technical standards identified as being essential by industry. The standards also include the competencies required for courses articulated to the community colleges. Teachers are working together to create common assessments that can be used formatively in the classroom to identify whether or not students are meeting standards. The formative assessments are used to monitor student progress towards achieving success on the technical assessments and provides data to students and to teachers to respond if a student does not meet the standard (intervention) or if they do meet the standard (enrichment). Ultimately, the goal is that when the student takes the summative assessment, it would reflect student achievement on technical assessments aligned with industry standards. Additionally student attainment of industry certifications identifies a measure of student attainment of technical skills. A goal of the Auburn School District is to increase the opportunities for industry certifications in program areas as well as student participation and success in earning industry certifications.

6.2a Indicator III: The State's goal is to provide all CTE Students with the skills and opportunity to take and pass an industry-recognized assessment for certification. All districts are required to develop and implement a plan in helping the State reach target for technical skill attainment (2S1). The State's plan measures the number of students who actually take and pass the industry-recognized technical skill assessment. Please describe your district's plan in supporting the State's target.

The Auburn School District's goal for CTE is to identify an industry-recognized assessment for every CTE program in the District. By expanding our work through our advisory committees along with the support of partnerships formed on the state level, Auburn is working to identify possible certifications that could be implemented in the high school classroom. Currently, our Business Education, Electronics, Metals/Machining and Automotive programs have certifications that students can earn and attain each year as well as other areas as covered by Precision exams. (Auburn's Business Education program is a leader in the state for MOS certification.)

6.3 Indicator IV/V: Describe how the district will increase student rates of attainment of each of the following:

- A secondary school diploma (student graduation rates)
- A GED credential

All students in the Auburn School District are expected to meet the requirements for graduation and receive a diploma. Student attainment of this expectation is facilitated through the school district Pathways Program—now Programs of Study, connections to post-secondary programs through articulated CTE courses, apprenticeships, Tech Prep direct-transcription crediting, job shadowing, mentorship, internship and career development activities. Rigorous Career and Technical Education programs not only prepare students for post-secondary careers and college, but

keep them connected and engaged in school. We continue to provide information to students and parents about the importance of success in a core academic foundation and how it connects to opportunities in high school and beyond which provides relevance to the student.

6.4 Indicator VI: Describe how the district will identify with student placement in postsecondary education, military service or in employment.

Each high school in the Auburn School District has a program where students connect with an adult advocate in the building. This might be a counselor, career counselor or a teacher. Connections with the adult advocate coincide with a freshman course focused on supporting 9th graders in the transition from middle to high school. Throughout a student's high school career they participate in activities and learn more information about the importance of success in core academics and the opportunities available for career and college readiness. Work-based learning activities, on-the-job-training, job shadows, mentorship and internship programs all are direct links to the business community which allow students to "try out" various occupational areas. Students participate in surveys that help them to identify areas of strength and weaknesses related to occupational areas. The data from these surveys along with core academic assessment data (district or state) provides information to the student and parent about possible placement in post-secondary, military service or employment. Over the four years of high school, students continue to learn more about their interests and aptitudes and solidify their career and college planning prior to graduation. We will be using a variety of follow-up strategies to identify the student placement after they leave high schools. For CTE concentrators that have not identified their social security number, we will contact them individually to gather the necessary follow-up information. The District will implement a career tool which will house information about college and career plans for every student from middle to high school which will help to identify student placement.

6.5 Indicator VII/VIII: Describe how the district will increase enrollment in the districts nontraditional training and employment programs.

The Auburn School District continues to focus on providing information about careers and college to every student beginning in middle school. Through the career centers, post-secondary night, input from local advisory committees, and a variety of community agencies, students have access to information on potential opportunities beyond high school. Programs such as the Women and the Trades Fair, Women Fly; Expanding your Horizons and other opportunities provide direct exploration opportunities in non-traditional careers. Through these connections an increase to non-traditional training and employment is developed. The District CTE staff are aware of and working towards implementing strategies to increase enrollment in nontraditional training and employment programs.

EVALUATION

6.6 Describe how the district will review CTE programs, identify and adopt strategies to overcome barriers that result in lower access or success for special populations. This should include programs that are designed to enable the special populations to meet the State adjusted levels of performance and activities to prepare special populations for high-skill, high wage, or high demand occupations that will lead to self-sufficiency.

The Auburn School District provides access for all students to CTE programs. We continually review our programs to make sure they are filling the needs of all students and not creating barriers for students to access CTE programs. We have identified staff to support students

with disabilities and special needs in CTE Programs enabling students to meet academic and technical standards. The ultimate goal is for every student to be as successful as they can be with skills and knowledge that enables them to earn high wages and be successful contributors to society. We will continue to support professional development activities for teachers with Perkins funds to help them improve their classroom instruction and meet the needs of all students--especially those with special needs.

6.7 Describe how the district will use Perkins funds to independently evaluate and continuously improve the performance of the district's career and technical education program. Please list strategies for improving your performance measures. (Examples include: evaluation procedures demonstrating the occupational skills gained by students, teachers evaluations of staff development activities, and procedures used to demonstrate outcomes realized by students through improved technology).

Our advisory committees are very involved in evaluating the effectiveness of each of CTE programs. Annually, the advisory committees review and revise the program plans and descriptions for each area. Professional development activities for the CTE teachers are identified based upon the needs of the teachers and the district's goals. In addition, students are asked to reflect upon and evaluate each CTE course providing feedback to the teacher. And CTE teachers evaluate the effectiveness of programs as they work to increase student achievement. Through increased opportunities for industry certifications, monitoring articulated college credit students receive, evaluations of professional development for CTE staff and feedback from students, we continue to monitor our progress in offering effective, successful Career and Technical Education Programs.

TEACHER DATA

NOTE: This information is for the Office of Superintendent of Public Instruction (OSPI) Career and Technical Education purposes only. Names and emails will not be shared with anyone outside of OSPI without permission from individual teachers. This will assist OSPI with professional planning and trainings.

7.1 How many teachers in your district are teaching CTE Courses?

PROGRAMS OF STUDY

The following are minimum criteria for program of study assurances:

- The secondary CTE, academic, and appropriate elective courses are included, as well as the state and local graduation requirements;
- The secondary program of study includes leadership standards where appropriate;
- The secondary program of study courses includes employability standards where appropriate;
- The program of study includes coherent and rigorous coursework in a non-duplicative sequence of courses from secondary to postsecondary;
- Completion of the secondary program of study prepares students for entry into the postsecondary program or apprenticeship;
- Program of Study courses include appropriate state standards and industry skills standards, where applicable; and,
- Program of study at the post secondary leads to an industry recognized credential; certificate or degree; or apprenticeship

8.1 Describe how the district will offer a career and technical education programs of study to students (and inform parents as appropriate) when planning for and completing future coursework, for career and technical content areas Section 122 (c)(1)(A)(i-iv)

The Auburn School District created four additional Programs of Study during the 2012-2013 school year. These Programs of Study provide tremendous information to students and parents in planning for the future. The planning and information must start in middle school with a strong core academic focus and providing exploratory opportunities. The progression continues into high school with BOTH a rigorous academic focus AND a rigorous Career and Technical area of concentration. The Programs of Study were published and made available to all staff, counselors, parents and teachers through workshops offered in the spring and summer. Auburn will continue to develop Programs of Study and administrators along with teachers will work to implement them to the fullest extent.

8.2 How will the district expand programs of study that bring together a sequence of career courses that start in high school and extend through college? Districts must describe how it will expand the use of POS and improve the transfer of credits earned in a student's POS.

The Auburn School District is planning on creating additional Programs of Study during the 2014-2015 school year as needed. The District philosophy regarding Programs of Study is to start with graduation requirements so that students have the opportunity to enter into a Baccalaureate program. However, the Programs of Study include targeted post-secondary training and education that may be better aligned with the students career plan. The Programs of Study identify courses (both CTE and general education) that offer college credits for completion at the high school. Students and parents will have information available to them about leadership, employability, labor market outcomes and additional resources to help them in planning for their futures.

List a Minimum of One Program of Study

Career Cluster: **Transportation, Distribution and Logistics**

Link to Pathway: [Automotive Technology](#)

Applicable Institutions:

- 4-year Institution Western Washington University
- Community College Green River Community College
- Technical School Clover Park and Bates Technical, Renton Technical College
- Apprenticeship Bates Technical, Apprenticeshop.Lni.wa.gov

Does this program of study lead to any state or nationally recognized certification? Yes

If yes, please identify the certification name: Automotive

Please identify the current high school building code where this program of study is being offered:

2795, 5037, 4474, 2702

CAREER AND TECHNICAL EDUCATION GENERAL ADVISORY COUNCIL

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

☒

☐

♦Equipment meets trade standards

☒

☐

♦Curriculum standards meet trade standards

☒

☐

* Any "No" responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
10-19	Foss Waterways	Water quality testing, plant & animal classification, pollution awareness. (AHS)	22	1500.00
11-7	Woodland High School	CTSO contest (AHS)	10	350.00
12/2015	Auburn Fish Hatchery	Releasing salmon	20	\$200.00
2/2016	Seattle	Northwest Flower & Garden Show	40	\$850.00
2-5	Kennewick High School	CTSO contest (AHS & AMV)	20	700.00
2-26	Cedarcrest High School	CTSO contest (AHS & AMV)	20	700.00
3-12	Tri-Cities	State CTSO contest (AHS & AMV)	24	900.00
May	Washington State University, Pullman, WA	State CTSO Convention (AMV)	12	2400.00
June	Auburn/Kent	Summer School Ag Tour (Soos Creek Botanical, Food Bank, Whistling Train Farm)	20	100.00
3/2016 – 5/2016	Elementary School	Science Fair Project	10	\$30.00

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: obtained lab science credit for Horticulture Science and AP Environmental Science. Simplified and utilized Horticulture Power Standards for all horticulture courses. Received donated for lab supplies from Donors Choose. Added AP Environmental Science</p> <p>AMHS: Integrated CASE institute activities into current curriculum offerings. Encouraged science department to promote Horticulture as alternative lab science credit. Developed summer credit program "Cultivating Youth". Created program of study for Agriculture Education. Completed curriculum review, adding Advanced Plant Science as a Pre-AP course and Intro Ag "Plants, People & World" for middle school Ag course (both lab science credit).</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	<p>AHS: Encourage science department to promote Horticulture & AP Environmental Science as alternative lab science credit. Create program of study.</p> <p>AMHS: Continue to Integrate CASE – "Principles of Agricultural Science-Plant" institute activities into current curriculum offerings. Continue development of summer and 7th period after school credit program "Cultivating Youth". Update program of Study to include new coursework emphasizing "Agriculture" over "Horticulture"</p>	<p>AHS: Continue to collaborate with science teachers to parallel next generation science standards into the curriculum. Grading Committee. Continue pursuing articulations with South Seattle & Spokane CC</p> <p>AMHS: Completed integration of CASE curriculum. Horticulture now listed clearly on science department scope and sequence. Summer credit and 7th period programs supported over 30 students to complete credits.</p>	<p>AHS: Attend AP Environmental science summer institute. Continue attendance and collaboration with science department PLC's. Refine curriculum to Next gen. sci. standards.</p> <p>AMHS: Attend Science Department PLC's. Continue to refine curriculum to constraints of summer and afterschool program. Continue development of handbook for cultivating youth program. A</p>	<p>AHS: Add a Floral design and marketing class independent of Environmental. Horticulture. Develop pre-certification program with Industry Entities. Review, update and purchase textbooks</p> <p>AMHS: Increase program to 1.0FTE with Floral Design & Marketing independent of Environmental Horticulture or Advance Plant Science course. Add Ag Ed to options at middle school. Develop web based course enhancements. Develop pre-certification program with WSNLA. Expand "Cultivating Youth" beyond AMHS. Review, update and purchase textbooks via curriculum review.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Maintained tools and equipment. Continued use of instructional journals with students. Modified labs to support lab science credit.</p> <p>AMHS: Evaluated tools and equipment for repair and or replacement. Continued use of classroom notebook journals. Expanded aquaponics system to two tank system. Investigated collaborative use of science dept. resources. Purchased additional shade framing and cloth to expand shade house.</p>	<p>Instructional Tools and Equipment</p> <ul style="list-style-type: none"> • What tools are needed to deliver the curriculum? • Does equipment meet industry standard? • Are teaching tools updated and relevant? 	<p>AHS: Install two rain barrels installed to service the new greenhouse. Purchase 2 flatbed carts to move heavy equipment and plants. Replace worn-out and broken tools</p> <p>AMHS: Evaluate tools and lab equipment for repair and or replacement. Continue use of classroom notebook journals. Expand aquaponics system to 2-tank system including integrated vertical tower system. Continue collaborative purchase and use of science dept. resources. Update Envirostep software and hardware.</p>	<p>AHS: Continuing to Install two rain barrels installed to service the new greenhouse. Purchase 2 flatbed carts to move heavy equipment and plants are in progress.</p> <p>AMHS: Updated tools and equipment. Used notebook journals for all classes. Expanded aquaponics system to full fish tank and two grow beds with integrated vertical tower system. Shade house installed. Color printer/scanner donated.</p>	<p>AHS: Evaluate and order replacements for tools and equipment. Use of journals in class. Continue dialog with science department in PLC's. Purchase shade cloth for the cold frame.</p> <p>AMHS: Inventory tools and recommend additional tool needs (\$200). Evaluate and determine lab equipment needs for Horticulture and Science departments (\$500). Expand aquaponics system to include towers (grant funded). Irrigation system for land lab (\$500)</p>	<p>AHS: Evaluate the need for replacement tools and equipment (greenhouse and land lab. Add color printer and small laminator for all outdoor informational signs. Eventually use only recycled water for the greenhouse.</p> <p>AMHS: Evaluate the need for replacement tools and equipment (greenhouse and land lab irrigation & fertilizer injector systems; propagation & misting benches; garden, landscape and hand tools). Add color printer. Expansion of Venier lab equipment to one to one level.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Updated of MSDS and pesticide record keeping books. Continued classroom safety training to satisfy compliance with WSDA worker protection standard (WPS).</p> <p>AMHS: Continued member of safety committee. Continued updates of MSDS and pesticide record keeping. Continued classroom safety training to satisfy compliance with WSDA worker protection standard (WPS). Continued use of para to mitigate safety issues, when assigned to classroom.</p>	<p>Safety* (E2.5a, P1.3)</p> <ul style="list-style-type: none"> • How is safety addressed in the program? • Are there established safety procedures? • How is safety instruction provided to students? 	<p>AHS: Continue updates of MSDS and pesticide record keeping. Continue classroom safety training to satisfy compliance with WSDA worker protection standard (WPS).</p> <p>AMHS: Continue as member of safety committee. Continue updates of MSDS and pesticide record keeping. Continue classroom safety training to satisfy compliance with WSDA worker protection standard (WPS). Continue use of para to mitigate safety issues, when assigned to classroom. Improve security of equipment and students by installing video surveillance equipment.</p>	<p>AHS: Continue updates of MSDS and pesticide record keeping. Continue classroom safety training to satisfy compliance with WSDA worker protection standard (WPS).</p> <p>AMHS: Safety committee meets as needed. Pesticide records complete. Safety training complete. Para only assigned to one hour with limited availability to 5th & 6th period only.</p>	<p>AHS: Attend safety committee meetings. Update of MSDS and pesticide records. Continue classroom safety training to satisfy WSDA worker protection standard (WPS) compliance.</p> <p>AMHS: Attend safety committee meetings. Update of MSDS and pesticide records. Continue classroom safety training to satisfy WSDA worker protection standard (WPS) compliance. Continue use of para to mitigate safety. Add security system to greenhouse and barn (\$800)</p>	<p>AHS: Review emergency materials and safety program addressing any missing or weak components.</p> <p>AMHS: Review emergency materials and safety program addressing any weak components. Continue to define role of paraprofessional in classroom and lab. Vandalism and theft reduced with security system.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Getting a new classroom. Installed enviro-step software on new teacher computer in the head house and classroom.</p> <p>AMHS: Continued to monitor and address greenhouse leaks and equipment issues. Reviewed and planned for repair of propagation beds. Prepared for installation of Envirostep software on new teacher computer. Monitored fruit tree plantings and replacement list developed. Installed repurposed cold frame from AHS program. Added square footage to giving garden by expanding to Leah Hill Elementary play field.</p>	<p>Facilities (E2.5b, E2.5c, P1.3a, P1.3b, P1.3c)</p> <ul style="list-style-type: none"> • How do the program facilities relate to those in industry? • What modifications can be made if industry facilities are not feasible? • What modifications are necessary to support the curriculum? 	<p>AHS: Evaluate cooling needs of cold frame.</p> <p>AMHS: Continue to monitor and address greenhouse leaks and equipment issues. Repair propagation beds. Install and reset Envirostep software settings. Replace fruit tree plantings. Repair roof leaks and shade cloth retraction system.</p>	<p>AHS: Greenhouse is almost done. Cold frame is almost done</p> <p>AMHS: Greenhouse leaks are expanding, mitigation needed as disease problems increasing. Propagation mist system needs pressure reducer to work properly. Fruit trees establishing nicely, only loss of 5 trees, two to be replaced. Cold frame installed.</p>	<p>AHS: Review finished greenhouse and functions and report needed repairs. Contact IT department to facilitate installation of software. Evaluate and make recommendations for any upgrades needed for cold frame.</p> <p>AMHS: Create plan to address greenhouse leak problem. Complete propagation repairs and replace fruit trees (\$200). Envirostep software and hardware updates (\$400)</p>	<p>AHS: Facilities will soon meet the need of the program. Investigate expansion of land lab space.</p> <p>AMHS: Facilities continue to meet the need of the program. Investigate expansion of vegetable production beyond the dedicated land lab space. Reinstall roof to repair leaking seals. Replace shade cloth.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Maintained FFA leadership program. Attended regional and state FFA CDE's for Floral Design (received 2nd place at state). Had a very successful plant sale. Re-established the Auburn FFA chapter. Participated in several Floral Shop opportunities for sales outside of the school day. Participation in Puyallup Fair Winning 1 Grand champion poster and 3 champion posters.</p> <p>AMHS: Attended all available FFA CDE's of student interest. Continued to solicit community service projects. Continued participation in Puyallup Fair (earned Best Lot & Best of Show for Horticulture). Developed SAE's, not yet ready for proficiency award entry. Developed opportunities for students to sell products outside of school.</p>	<p>Extended Learning Opportunities (E2.3, P1.5)</p> <ul style="list-style-type: none"> • How does student learning extend outside of the classroom? • What work-based learning opportunities are available in this program? • What field trips will be planned that are aligned to the program? 	<p>AHS: Attend all available FFA CDE's of student interest. Continue to solicit community service projects. Continue participation in Puyallup Fair. Develop SAE's submittal for proficiency awards. Develop opportunities for students to sell products outside of school.</p> <p>AMHS: Attend all available FFA CDE's of student interest. Continue to solicit community service projects. Continue participation in Puyallup Fair. Develop SAE's ready for proficiency awards submission. Continue to develop opportunities for students to sell products outside of school. Increase Field Trip opportunities.</p>	<p>AHS: Attended regional FFA CDE competitions. Participated in several Floral Shop opportunities for sales outside of the school day. Received multiple ribbons for floral entries at state fair.</p> <p>AMHS: FFA students unable to develop competition level team. Community service projects include: Food Bank partnership, Soos Creek Botanical Garden, Whistling Train Farm, & Sound Mental Health garden. Developed after school Youth Farmers Market and a booth at the Auburn International Farmers Market for student sales.</p>	<p>AHS: Identify and attend FFA CDE's of student interest. Identify community service projects. Provide time afterschool to complete fair entries and SAE award applications. Identify locations for sales outside the school day.</p> <p>AMHS: Attend at least two CDE events and earn berth to State level competition. Develop quality Puyallup Fair entries and SAE proficiency award submissions. Continue community service project participation and farmers market sales.</p>	<p>AHS: Develop an award winning FFA program and solicit support for program. Obtain eight extended days for each of our class to support SAE and CDE activities that exemplify the intercurricular nature of FFA.</p> <p>AMHS: Develop an award winning FFA program and solicit support of program by district administration. Obtain eight extended days for each hour of class to support SAE and CDE activities that exemplify the intracurricular nature of FFA.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continued development of application and supporting documents for submission to Science Departments with collaboration from science teachers in building.</p> <p>AMHS: Advertised lab credit to counselors and staff and students update course catalog. Continued to evaluate changes in science standards and implement changes as needed. Integrated Next Generation Science Standards into curriculum review.</p>	<p>Cross Credit Options How does this program align with general academic areas such as reading, writing, math, science, arts, and social studies?</p> <ul style="list-style-type: none"> How are Common Core State Standards for English Language Arts (reading, writing, communication, language) and Mathematics taught and assessed in the curriculum? How are Grade Level Expectations (GLEs) for science, arts, social studies, health, and fitness taught and assessed in the curriculum? (E1.1) 	<p>AHS: Advertise lab credit to counselors and staff and students update course catalog. Begin process for visual art course equivalency for floral design class. Continue to evaluate changes in science standards and implement changes as needed.</p> <p>AMHS: Advertise lab credit to counselors and staff and students update course catalog. Continue to evaluate changes in science standards and implement changes as needed. Post Program of Study flyers in classroom and adjacent hallway.</p>	<p>AHS: Collaboration with science department on new science standards integration into lab science equivalency. Floral design as a visual art. Finalized application for lab science equivalency.</p> <p>AMHS: Counselors filling classes well with students needing non-lab credit. Working with Next Gen Science Standards and Common Core to aligned curriculum as needed.</p>	<p>AHS: Complete program of study for Horticulture advertising lab credit and share this option. Prepare initial documentation for visual art equivalency for floral design and marketing course.</p> <p>AMHS: Attend counselor meeting to inform of course status and successes. Attend Next Gen Science Standard and Common Core workshops.</p>	<p>AHS: Continue monitoring and adjusting curriculum to changes in science standards.</p> <p>AMHS: Continue monitoring and adjusting curriculum to changes in science standards.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Articulation agreements not in process. Ongoing research and discussions for options with South Seattle and Spokane CC</p> <p>AMHS: Addition of CASE into curriculum will enhance opportunities for students. Continued Precision Exam administration and industry certification and certificate distribution.</p>	<p>Post-Secondary Connections</p> <ul style="list-style-type: none"> • What post-secondary opportunities are available for students who participate in this program? • What industry certifications could be infused into this curriculum? (P1.6) 	<p>AHS: Create new webpages for all courses and for FFA to communicate plant sale and floral sales info. Continue future freshman night & orientation visits. Develop portable table top promotional board.</p> <p>AMHS: Determine feasibility of articulations with post-secondary credit options including CASE college credit opportunities and Precision Exam acceptance by local industry professionals. Acknowledge the PE certificates in announcements and on website.</p>	<p>AHS: Reviewed program flyers and participated in future freshman night with student representation. Continue freshman orientation class visits and presentation. Publicity on student success at State Convention in district news and display cabinet in commons.</p> <p>AMHS: Determined that articulations would be better evaluated during curriculum review process. Precision Exam certificates to eight students 2014-15 school year. Displayed fair entries in commons display cabinet.</p>	<p>AHS: Utilize school wireless training to develop useful communication between students, parents, staff and community around accomplishments and upcoming activities. Collect photos and articles for display board.</p> <p>AMHS: Identify colleges willing to articulate for horticulture science. Continue implementation of Precision Exam assessments and certification program.</p>	<p>AHS: Develop promotion plan that highlights the program within district and local media with submissions at least twice monthly throughout the year to various venues for prom</p> <p>AMHS: Articulation agreements for all program areas. Successful student certification by all students in second year of program.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Reviewed program flyers and participated in future freshman night with FFA student representation. Continue freshman orientation class visits and presentation. Visited two middle schools on career day. Sold wreaths & spring plant sale:</p> <p>AMHS: Created new webpages for all courses and for FFA to communicate plant sale and floral sales info. Continued future freshman night & orientation class visits. Developed portable table top promotional board. Publicized "Cultivation Youth" program opportunities at outreach events and farmers markets.</p>	<p>Program Promotion* How do we market our program to students, parents, and the community?</p> <ul style="list-style-type: none"> • Who is our target audience with regards to promotion? • What promotional items do we have? • What is our promotion plan? 	<p>AHS: Create new webpages for all courses and for FFA to communicate plant sale and floral sales info. Continue future freshman night & orientation visits. Develop portable table top promotional board.</p> <p>AMHS: Update webpages for all courses and for FFA to communicate plant sale and floral sales info. Continue future freshman night & orientation class visits. Update portable table top promotional board. Publicize "Cultivating Youth" program opportunities</p>	<p>AHS: Reviewed program flyers and participated in 2 open house nights with student representation. Continue freshman orientation class visits and presentation. Publicity on student success at State Convention in district news and display cabinet in commons.</p> <p>AMHS: New district website created opportunity to update webpages for all courses. FFN & orientation class visits successful exposure about classes using portable promotion board. Cultivating Youth program is expanding.</p>	<p>AHS: Utilize school wireless training to develop useful communication between students, parents, staff and community around accomplishments and upcoming activities. Collect photos and articles for display board.</p> <p>AMHS: Continue updates to webpages, promotion board, and extended program opportunities. (complete one per program per year)

☒ Auburn High School
☒ Auburn Mountainview High School
☐ Auburn Riverside High School
☒ West Auburn High School

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **2****Date(s) of meeting(s)**

**Minutes
on File ✓**

Chairperson **Sandee Almaas**

1. October 23, 2014

2. May 7, 2015

[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

◆Facilities meet trade standards

Yes
☒

No
☐

◆Equipment meets trade standards

11

♦Curriculum standards meet trade standards

11

*Any “No” responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

AHS	AMHS	ARHS	WAHS
1. Less bookwork, more activities. 2. Have more time to study for tests. 3. Another Mock Trial. 4. Need to update books.	1. Thanks for your understanding of my crazy schedule and helping me Master in MOS. 2. Great part of success was pushing people on striving to do better and reach their goals. 3. Thank you for not giving-up on me and pushing me for MOS certification success.	1. 2. 3.	1. Let us use headphones in class 2. More of the special accounting projects like Adventure Travels 3. Games to study

List strengths from surveys for program growth and stability.			
AHS	AMHS	ARHS	WAHS
1. This Business Math class had problems that were real-life. 2. I learned what to do and what not to do. 3. Fun but a lot of work in a short time. 4.	1. I love this MOS class and having the freedom to work independently while learning the MOS programs. 2. MOS---favorite class this year! 3. Talked my sister into taking MOS next year. 4. Going on fieldtrips!	1. 2. 3. 4.	1. I can actually use this stuff in life! 2. Teacher makes coming to class fun 3. Material helped me get a new job 4.

Feb 2015	Camp Berachach	CTE Leadership Field Trip	20	\$1,800

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Approximately 300 Freshmen participated in interviews with community business professionals. Two sections of Adv. Comp. Apps. completed their senior projects and participated in UW Dream Project. Completed Curriculum Review.</p> <p>AMHS: Microsoft IT Academy had 272 students and staff certify compared with 172 the previous year. There are 33 Master students in history at AMHS. Last year we had the first high school students to certify in Word Expert 2013 and Excel Expert 2013 in WA state. We also had the first Master Microsoft Office Specialist 2013 in WA State. Participated in 3 fieldtrips to the Microsoft Campus and Microsoft Store. Ran 4 pilots in Office 2013, industry certification in 2013, Surface Rts, Office 365 online for students and staff with Microsoft agreement</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	<p>Curriculum Review Year--update State Frameworks and curriculum recommendations via Advisory Committee.</p> <p>AHS: Get on board with MOS testing through the use of SAM and Gmetrix. Teache students Microsoft Office 2013. Received new textbooks to prepare students for MOS testing.</p> <p>AMHS: Working with new updated software of SAM 2013, Gmetrix 2013 and Microsoft Office 2013. New textbook upgrades of Shelly Cashman were purchased to prepare students for MOS testing.</p> <p>WAHS: Main thing will be to get the MOS program up and running at WAHS. Also, continue to adapt</p>	<p>AHS: Learn features of Microsoft Office 2013. Promotion of class Math for Business and Personal Use as an option for math credit.</p> <p>AMHS: Continue IT Academy training and study curriculum options. Continue to promote IT Academy and opportunities for students and staff. Continue options for students to save to the cloud via options such as OneDrive and learn Microsoft Office online features.</p> <p>WAHS: Continue to learn about MOS certification and implement it. Off to a great start.</p> <p>Olympic Middle: Learn features of Microsoft Office 2010, Web Studio</p> <p>Mt. Baker: Learn features of Microsoft Office 2013, Web Studio</p> <p>Rainier Middle: Learn features of Microsoft Office 2013, Learn Software</p>	<p>AHS: Awareness of district for need for more computer training to build skills currently lacking in our students. This should be taught by certified bus. teacher with a background in teaching the skills.</p> <p>AMHS: Report-out via parent newsletter, District newsletter to update IT Academy accomplishments. Continue goal of staff certification. Continue to reasearch and take classes to learn about online software storage and tools to help students with college to career ready business skills.</p> <p>WAHS: Really promote the MOS program at the school and to let parents/guardians know about this great opportunity for their students.</p> <p>Olympic Middle: Increase number of students able to</p>	<p>AHS: Hire a new bus. ed. teacher to help build the bus. ed. program.</p> <p>AMHS: Update curriculum as required by district and state guidelines. Continue to research new and emerging technologies. Continue to network with OSPI and the agreement with Microsoft to maintain IT Academy benefits.</p> <p>WAHS: Have a viable MOS program at WAHS where students strive to get as many certifications as possible.</p> <p>Olympic Middle: Continue to update curriculum based upon student need and emerging technology</p> <p>Mt. Baker: Continue to update curriculum based on student need</p>

<p>and ASD and wireless access.</p> <p>WAHS: Finished curriculum review. Adapted much of Accounting curriculum. Biggest accomplishment was teaching the new Math for Business & Personal Finance class. Also had another successful year of Yearbook & Newspaper.</p> <p>Olympic Middle: STEM Fundamentals of Information Technology course approved by OSPI. Implemented approved curriculum,</p> <p>Mt. Baker:</p> <p>Rainier Middle:</p>		<p>curriculum to help students meet standard.</p> <p>Olympic Middle: Students will meet standard in the designated curriculum and become familiar with Google Drive</p> <p>Mt. Baker:</p> <p>Rainier Middle: Students will meet standards in designated curriculum</p>	<p>Engineering skills using Scratch</p>	<p>take STEM Fundamentals of IT</p> <p>Mt. Baker: Increase the number of students able to take STEM Fundamentals of IT</p> <p>Rainier Middle: Continue to provide coursework and training in applications and computer science classes</p>	<p>and emerging technology</p> <p>Rainier Middle: Continue to update curriculum based upon student need and emerging technology</p>

CTE Program Planning Document

2015-2016

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
Implement new curriculum and online resources	Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b) <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	Incorporate power standards into grading system	Power standard phrasing categories submitted to ASD curriculum dept.	Implement new curriculum and online resources	Implement Updated Business Administration Curriculum Online Marketing/Business Class

Ray Hill	SGE Industry Consultant	<input checked="" type="checkbox"/> voting	<input type="checkbox"/> non-voting
Frank Nelson	ASD Maintenance Department	<input checked="" type="checkbox"/> voting	<input type="checkbox"/> non-voting

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

- ♦Facilities meet trade standards
- ♦Equipment meets trade standards
- ♦Curriculum standards meet trade standards

Yes	No*
<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	<input type="checkbox"/>

*Any "No" responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **Two**

Chairperson **Tom Erdman**

Date(s) of meeting(s)

1. October 23, 2014

2. May 7, 2015

**Minutes
on File ✓**

11

[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

- ◆ Facilities meet trade standards
- ◆ Equipment meets trade standards
- ◆ Curriculum standards meet trade standards

Yes	No*

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Moved into new building, unpack, and set up. Implement new strategies for classroom management for new classroom. Continue to work with standards and find improved methods of implementation. AP Course improvements.</p> <p>ARHS: Recreated interior space to make classroom more efficient and maximize the small space.</p> <p>AMHS: Added student storage. Project providing posters for clients within the school, printmaking addition</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	<p>AHS: Improve strategies for New classroom management. Transition of new teacher. Advance instruction for CS6 software. Implement industry connections with visitations and tours of graphic design and print businesses.</p> <p>ARHS: Review and modify current lessons as needed and add new lessons to the curriculum.</p> <p>AMHS: Advance instruction of Adobe CS software and application.</p>	<p>AHS: Implementation of some new strategies to accommodate new classroom. Interviewing of new teacher. Revising instruction is in progress to accommodate updated software. Consulted Advisory board to reinstate business visits.</p> <p>ARHS: Some lessons are already modified and several new lessons have been added.</p> <p>AMHS: Continued to Implement Power Standards, Client experiences, and objectives into curriculum. Attracting students with variety of abilities and establish a love of art making.</p>	<p>AHS: Continue work on lessons to revise, add or improve curriculum. Continue working with colleagues and advisory board.</p> <p>ARHS: Continue working on lessons and adding to curriculum.</p> <p>AMHS: Continue working on lessons and adding to curriculum.</p>	<p>AHS: New classroom fully functional for courses. Sequence of courses that prepare for the advance course levels. Curriculum current with industry standards. Sequencing of lessons from traditional printing methods to current digital methods.</p> <p>ARHS: Develop concise, standards-based rubrics for all lessons.</p> <p>AMHS: Explore real applications with clients. Also continue striving to advance students and preparation for further training.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: New Macs installed. Updated with COS2 software. Continued to Look into the use of table top printing press for lessons in traditional methods of printing. Looking into the use of drawing tablets with the computers.</p> <p>ARHS: New Apple computers purchased to be installed in December.</p> <p>AMHS:</p>	<p>Instructional Tools and Equipment</p> <ul style="list-style-type: none"> • What tools are needed to deliver the curriculum? • Does equipment meet industry standard? • Are teaching tools updated and relevant? 	<p>AHS: Purchase of table top printing press (would be used in AP Studio Art and Graphic Design) for etching print methods. Use of IPADS with graphic design, drawing and AP courses. Update of software on computes.</p> <p>ARHS: Use online resources to supplement software learning.</p> <p>AMHS: Purchase copy machine with club funds. Advance knowledge of Adobe products. Additional Apple computers with large class size. Student/computer ratio is challenging.</p>	<p>AHS: Exploring table top presses available in moderate price range. Implementing sequential lessons of traditional print methods and digital printing methods. Continue to keep software current and up to date.</p> <p>ARHS: Edulaunch being used to teach basic Photoshop skills.</p> <p>AMHS: Continuing to explore supplemental educational programs to assist in software training. Challenge with current class with 9 contract students, 13 graphic students with 12 computers.</p>	<p>AHS: Use of press in class lessons. Recommendation about IPADS in classroom.</p> <p>ARHS: Renew Edulaunch subscription next year (\$250.00 for art, design, and visual communications classes).</p> <p>AMHS: Copy Machine-\$500 Educational Programs – being researched Additional Apple computer for lab to bring total computer consistent with district programs. 2 additional computers - \$1100 each. Recommend limited class size to correspond with computer ratio.</p>	

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Create safe environment in new facility. Use best practices regarding safety in the classroom, use of materials and equipment. Adjust safety presentations to align with any new projects with different materials and supplies.</p> <p>ARHS: Provide safety instruction for each medium and tool used in the classroom.</p> <p>AMHS: Use best practices regarding safety in the classroom, use of materials and equipment.</p>	<p>Safety* (E2.5a, P1.3)</p> <ul style="list-style-type: none"> • How is safety addressed in the program? • Are there established safety procedures? • How is safety instruction provided to students? 	<p>AHS: Successfully run a safe and secure classroom with lessons taught regarding safety of sprays, solvents, and toxic materials, matting equipment, and cutting tools</p> <p>ARHS: Provide a variety of art and design experiences in which students learn, understand, and employ safety procedures.</p> <p>AMHS: Successfully run a safe and secure classroom with lessons taught regarding safety of sprays, solvents, and toxic materials, matting equipment, and cutting tools.</p>	<p>AHS: Stay current on Safety</p> <p>ARHS: Ongoing safety education related to each project in class.</p> <p>AMHS: Stay current on Safety.</p>	<p>AHS: NA</p> <p>ARHS: N/A</p>	<p>AHS: Spray booth or better ventilation. Continue to provide students with current information concerning safety in Art Studio environment.</p> <p>ARHS: Exhaust fans installed to allow for reasonable ventilation during winter months.</p> <p>AMHS: Spray booth</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Moved into new building and new classroom.</p> <p>Hood over stove type ventilation was installed.</p> <p>ARHS: Cleaning and organizing storage in art room and store-room. Making most efficient use of storage space available.</p> <p>AMHS: Cleaning and organizing storage in art room and store-room. Making most efficient use of storage space available.</p>	<p>Facilities (E2.5b, E2.5c, P1.3a, P1.3b, P1.3c)</p> <ul style="list-style-type: none"> • How do the program facilities relate to those in industry? • What modifications can be made if industry facilities are not feasible? • What modifications are necessary to support the curriculum? 	<p>AHS: Need some adjustments for printer space.</p> <p>Further organizing of classroom to accommodate multiple courses in new facility.</p> <p>ARHS: Maintain clean and organized storage for the thousands of art supplies.</p> <p>AMHS: Maintain clean and organized storage for the thousands of art supplies.</p>	<p>AHS: Conversation with administration for additional table for printer. Current placement takes up much needed counter space, plus printer overhangs counter and there is not enough room for print to come out or to access back of printer. Organizing the unpacked materials to best suit new room is being continued.</p> <p>ARHS: Most storage areas have been cleaned and organized.</p> <p>AMHS: Ongoing challenge of keeping materials organized and replenished.</p>	<p>AHS: Table is ordered and printer is moved to a more suitable location.</p> <p>ARHS: Remove free-standing shelving from storage area to allow safe and free access to built-in storage and flammables storage cages.</p>	<p>AHS: Industry standard facility.</p> <p>ARHS: Separate work space for studio work and computer work.</p> <p>AMHS: Storage</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Partnership with the City of Auburn for promoting Farmers Market event. City of Auburn Art Show. Field trips to Museums and special exhibitions. Regional Art Show (PSESD) Annual AHS Art Show Portfolio Event.</p> <p>ARHS: City of Auburn Student Art Show. ARHS Student Art Show Congressional Art Competition Portfolio Event</p>	<p>Extended Learning Opportunities (E2.3, P1.5)</p> <ul style="list-style-type: none"> • How does student learning extend outside of the classroom? • What work-based learning opportunities are available in this program? • What field trips will be planned that are aligned to the program? 	<p>AHS: Student participation: City of Auburn Art Show. Field trips to Museums and special exhibitions. Regional Art Show (PSESD) Annual AHS Art Show Portfolio Event. *Industry visits and touring.</p> <p>ARHS: City of Auburn Student Art Show. ARHS Student Art Show Portfolio Event Plan field trips to one or more of the following: Seattle Art Museum, Tacoma Art Museum, print studio, design firm, art school.</p>	<p>AHS: Continue providing students with the opportunity to work with clients in the community Continue organizing leadership opportunities for students to submit art work. Implementing and reinstating field trip visitation to Graphic Design and printing businesses.</p> <p>ARHS: Researching possible field trips for next school year.</p>	<p>AHS: Fill out necessary paper work and forms in a timely manner to meet deadlines for shows, contests, and field trips. Have student work ready in digital form to participate as opportunities arise. Field Trips to industry, post secondary schools and exhibits.</p> <p>ARHS: Continue research and visit field trip sites to determine viability.</p>	<p>AHS: Continue to be receptive to connections outside the school environment for visual arts opportunities. Seek Leadership Opportunities.</p> <p>ARHS: Research new and relevant extended learning opportunities. Work with other teachers to develop additional opportunities for students outside the classroom.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Developed and implemented various Differentiated Instruction methods. Further develop scope and sequence for predatory curriculum.</p> <p>ARHS: Included art projects which directly connect to Language Arts, Mathematics, Science, Social Studies, and History.</p>	<p>Cross Credit Options How does this program align with general academic areas such as reading, writing, math, science, arts, and social studies?</p> <ul style="list-style-type: none"> • How are Common Core State Standards for English Language Arts (reading, writing, communication, language) and Mathematics taught and assessed in the curriculum? • How are Grade Level Expectations (GLEs) for science, arts, social studies, health, and fitness taught and assessed in the curriculum? (E1.1) 	<p>AHS: Developing lessons that are sequential with carry over to subsequent assignments. Utilize topics and imagery that relate to other content areas (Example; typography of country sign, illustration of book covers or books, use of math of professional framing with mat board). Provide course advancement for continued understanding and growth in applying visual imagery. Advance traditional printing lessons.</p> <p>ARHS: Work with teachers of other subjects to deepen student understanding by developing connected lessons. For example Illuminated Letters to go with a unit on Medieval history.</p>	<p>AHS: Provides opportunities for written reflection, individual and group critique on visual art assignments. Critical Thinking skills, Habits of mind common to other content areas. Developing and implementing lessons/assignments that connects with global cultural arts.</p> <p>ARHS: Getting to know teachers of other subject and finding connections for future art projects.</p>	<p>AHS: Implementing lessons with cross content connections. Making connections with teachers in other content areas.</p> <p>Implement additional lessons that meet Leadership and Communication EALRS</p> <p>ARHS: Design cross-curricular lessons and implement them in the classroom.</p>	<p>AHS: Course programs that utilize previous knowledge of math, science, social students to support the creative process and visual arts standards. Implement advanced level of visual arts courses</p> <p>ARHS: Add supplemental substance to cross-curricular lessons (visiting artists, speakers, field trips, films, presentations)</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Visitation to University of Washington School of Art. AP Studio Art offering. Portfolio Review Day at Sanford and Brown College. AP Studio art in 2D Design and Drawing offered. Keeping a bulletin board updated with information about Universities, art and design schools, and other educational and training opportunities available.</p>	<p>Post-Secondary Connections</p> <ul style="list-style-type: none"> • What post-secondary opportunities are available for students who participate in this program? • What industry certifications could be infused into this curriculum? (P1.6) 	<p>AHS: Prepare for Portfolio Review for 2016. Visit UW School of Art. Provide field trip to industry businesses. Guest speakers from colleges.</p> <p>ARHS: Prepare students to present portfolios and talk about their work.</p>	<p>AHS: Networking with guest speakers. Continued dialog people of industry and post secondary schools for Portfolio Interview Event. Implement paper work for field trip visitations during appropriate time frame. Implement lessons that provide students with how to present, talk and write about their art work.</p> <p>ARHS: Continue to develop lesson components where students learn how to present and talk about their work.</p>	<p>AHS: Make contacts and invite people from industry and post secondary schools. Continue community connections, client connections. Complete paper work requests for visitations to industry and post secondary schools.</p> <p>ARHS: Invite more visiting artists, industry speakers (such as the Wizards of the Coast art director who spoke this year), and University representatives.</p>	<p>AHS: Internships or job shadowing for students. Field trips for real world art connections and opportunities (post secondary schools, businesses, museum exhibitions etc.).</p> <p>ARHS: Add field trips to Universities, art schools, art-related businesses.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Participated in City Art and Regional Art Shows. Freshman Night with student demonstrations. School Displays, Posters and promotional materials. Community Client works with City of Auburn Framers Market. Provide Senior T shirt design.</p> <p>ARHS: Art displays around the school and in the community Future Freshman night Orientation students' visit to art classes. Art competitions and exhibits (Auburn City Hall, Congressional Art Competition, Google Doodles contest, ARHS Art Show). Smudges (school art and literary publication)</p>	<p>Program Promotion* How do we market our program to students, parents, and the community?</p> <ul style="list-style-type: none"> • Who is our target audience with regards to promotion? • What promotional items do we have? • What is our promotion plan? 	<p>AHS: Student participation in City and Regional Shows. School Art Show. Future Freshman Night. Posters and promotional materials. Rotation of current student works in hall displays. Explore other opportunities with cross curricular work with other teachers.</p> <p>ARHS: Develop more opportunities for students to exhibit their work. Cross-curricular work with other teachers.</p>	<p>AHS: Continue to develop methods for promotion of program-on going.</p> <p>ARHS: Ongoing.</p>	<p>AHS: Continue to develop methods for promotion of program. Explore better opportunities for student exhibiting.</p> <p>ARHS: Research addition exhibition opportunities for students. Create cross-cultural lessons which can be done with other student groups (who may not yet be in the art program).</p>	<p>AHS: Timeline of student work for school visual arts collection. Publication of student work. Permanent art Display. Displays in Business</p> <p>ARHS: Better display options within the school (something more than a bulletin board so student work is protected from damage).</p>

☐ The program would like technical assistance with objectives and action steps above.

Annual Program Plan & Description for the 2015-2016 School Year

On behalf of the Program Advisory Committee for Graphic Design, I
Tom Erdman represent the members as having read, approved and
will support this program plan and description for the 2015-2016 school year. (E2.6,
PI2)

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **2****Date(s) of meeting(s)****Minutes
on File ✓**

Chairperson **Kenlynn Amburgey**

1. Oct. 23 2014

2.May 7 2015

☐☒[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

- ◆ Facilities meet trade standards
- ◆ Equipment meets trade standards
- ◆ Curriculum standards meet trade standards

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
Healthy Menu recipe changes.	Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b) <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	Continue to work on clarification of nutrition changes per gov. regulations and apply them to daily ala carte menu.	Gathering information like recipes, magazines and nutrition literature.	Subscribe to newsletters and current publications to aide in changes. Seek outside Industry knowledge and advice for changes.	Updated nutrition curriculum.

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	Instructional Tools and Equipment <ul style="list-style-type: none"> • What tools are needed to deliver the curriculum? • Does equipment meet industry standard? • Are teaching tools updated and relevant? 	Nutrition conversion computer application. New Textbooks on Nutrition. DVD's for teaching. Current facilities are at industry standards for beginning culinary arts curriculum. No desk and computer access for daily textbook work at AMHS or ARHS.	Future classroom needs as soon as one becomes available for AMHS beginning and advanced programs.	Investigate DVD's for classroom. Cindi to purchase computer conversion program. Need classroom space for AMHS and ARHS?	Classroom space. Para support for AMHS.

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	<p>Safety* (E2.5a, P1.3)</p> <ul style="list-style-type: none"> • How is safety addressed in the program? • Are there established safety procedures? • How is safety instruction provided to students? 	<p>All students acquire food workers permits. All students are trained on safety, sanitation and the proper use of all equipment in kitchen. All students are trained in safe knife handling and skills.</p>	<p>Emphasize safety and sanitation instruction ie. food workers card, knife skills, equipment training, safe food prep for all culinary arts students.</p>	<p>Continue to emphasize safety and sanitation. Perform quarterly safety drills. Review building safety plan. Watch more training videos for all the above.</p>	

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	Facilities (E2.5b, E2.5c, P1.3a, P1.3b, P1.3c) <ul style="list-style-type: none"> • How do the program facilities relate to those in industry? • What modifications can be made if industry facilities are not feasible? • What modifications are necessary to support the curriculum? 	Ok at this time but would like to upgrade equipment as funds are raised.	Continue to acquire necessary equipment to facilitate operations of the restaurant/classroom.		

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	<p>Extended Learning Opportunities (E2.3, P1.5)</p> <ul style="list-style-type: none"> • How does student learning extend outside of the classroom? • What work-based learning opportunities are available in this program? • What field trips will be planned that are aligned to the program? 	<p>Extensive work-based learning opportunities. Student field trips to Industry. Guest speakers. Industry mentors. Community catering involvement.</p>	<p>Field trips to local establishments and food production facilities. Cost: TBA</p>		

Accomplishments 2013-2014 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2014-2015	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	<p>Cross Credit Options How does this program align with general academic areas such as reading, writing, math, science, arts, social studies?</p> <ul style="list-style-type: none"> • How are Common Core State Standards for English Language Arts (reading, writing, communication, language) and Mathematics taught and assessed in the curriculum? • How are Grade Level Expectations (GLEs) for science, arts, social studies, health, fitness taught and assessed in the curriculum? CTE Program Planning Document
2015-2016

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the E (Exploratory) or P (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continued with Testout for computer classes and ISCET based instruction for electronics, and began modifying content of Robotics to better serve advanced students coming up from middle schools.</p> <p>AMHS: Continued with Testout for computer classes and began modifying content of Robotics to better serve advanced students coming up from middle schools.</p> <p>ARHS: Updated MyClassroomHelper assignments to include ISCET modules, added new quizzes and activities to Electronics & Computer Systems Engineer courses. Worked with the PLC team to create a PC Pro Curriculum Map. The new map will streamline the course, allow time for added labs, and gives us a model for all three high schools to follow. This course allows students take a certification exam for free.</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	<p>AHS: Evaluate and Review curriculum for industry relevance. Promote Robotics. Promote opportunities for students to gain industry experience. Evaluate student projects to insure they are reflecting the standards we are covering.</p> <p>AMHS: Evaluate and Review curriculum for industry relevance. Promote Robotics. Promote opportunities for students to gain industry experience.</p> <p>ARHS: Evaluate and Review curriculum for industry relevance. Create curriculum maps for courses currently teaching.</p>	<p>AHS: Teaching Robotics course using state approved Robotics Frameworks. Using Testout curriculum for Computer System Engineering classes. Using ISCET materials for Electronics curriculum.</p> <p>AMHS: Teaching Robotics course using state approved Robotics Frameworks. Helped establish Middle School STEM Robotics program. Using Testout.com curriculum for Computer System Engineering classes. Using ISCET materials for Electronics curriculum.</p> <p>ARHS: Currently working on TestOut Labsim PC Pro curriculum map. Using Testout.com curriculum for Computer System Engineering classes. Using ISCET materials for Electronics curriculum.</p>	<p>AHS: Attend District meetings and follow guidelines for curriculum review. Work with PLC teachers to assess and evaluate the curriculum. Maintain contact with advisory committee to align with industry needs</p> <p>AMHS: Attend District meetings and follow guidelines for curriculum review. Work with PLC teachers in each building to assess and evaluate the curriculum.</p> <p>ARHS: Attend District meetings and follow guidelines for curriculum review. Work with PLC teachers in each building to assess and evaluate the curriculum. Stay up to date with latest curriculum changes.</p>	<p>AHS: Update software and curriculum resources to keep program current with industry standards and expectations</p> <p>AMHS: Attend District meetings and follow guidelines for curriculum review. Work with PLC teachers in each building to assess and evaluate the curriculum.</p> <p>ARHS: Continue to upgrade software and skills with current market trends and requirements. Stay current with industry needs and continue modernizing support hardware and software.</p>

2015-2016

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continued promoting district IT internship opportunity. Have students repairing their own electronics and some of their peers and teachers. Heavy involvement in FIRST Robotics at multiple levels. Students are mentors and promoters of STEM in their school, community, and State</p> <p>AMHS: Continued using advanced students to help maintain school equipment and support requirements of teachers, clubs, and activities. One student certified PC Professional. One student certified Network Professional.</p> <p>ARHS: SkillsUSA Leadership club participated in community service, regional and state conferences. 34 students took Electronic ISCET Exams and 26 achieved certification. 19 students took TestOut Labsim exams, 13 Students achieved PC Pro Certifications. Two students competed at SkillsUSA Nationals in Electronics Technology finishing in the top 20 and Computer Maintenance Technology and placed 12th in the nation. Took 30 Students to Submarine Base Bangor field trip to experience application of technology and a military workplace.</p>	<p>Extended Learning Opportunities (E2.3, P1.5)</p> <ul style="list-style-type: none"> How does student learning extend outside of the classroom? What work-based learning opportunities are available in this program? What field trips will be planned that are aligned to the program? 	<p>AHS: Continue building FIRST Robotics program. Utilize advanced students to help support building technology needs. Continue to seek permission to use district surplus to refurbish as class labs. Continue certifying students in PC PRO and PC Network Pro.</p> <p>AMHS: Continue building on strong Robotic interest. Utilize advanced students to help support building technology needs. Continue to seek permission to use district surplus to refurbish as class labs and then place with low income families. Continue certifying students in PC PRO and PC Network Pro.</p> <p>ARHS: Continue motivating students for work for ISCET and LabSim certification exams. Currently there is Race to the Top grants that help pay for the exams. Increase SkillsUSA membership. Improve creating contacts with local industries and service organizations.</p>	<p>AHS: Two students selected for IT internship. FIRST Robotics club competed and won the AHS District Chairmans Award, the West Valley District Excellence Award, and participated in the PNW Regional. Also participated in several outreach activities.</p> <p>AMHS: Two students selected for IT internship. One student working as school intern. CSE 1-2 class prepared donated PCs for fundraiser. FIRST Robotics club competed and won the AMHS District, the PNW Regional and went to World Championships, finishing with the Highest seed of any NW team and creating a NW alliance that won through Quarterfinals before being eliminated....</p> <p>ARHS: Students can become members of SkillsUSA, an OSPI approved student leadership program. Since the start of the school year, 8 students achieved ESA-1 ISCET certification, 1 achieved ESA-2 ISCET certification. Approximately 25 more certifications anticipated by end of school year.</p>	<p>AHS: Search the net and seek assistance from advisory members, and career center. Create contacts with local industries and service organizations. Start Submarine tour field trip to mirror ARHS. Approximate cost: \$800.00 Seek industry partners to provide tours and internships for students.</p> <p>AMHS: Research availability and state and local laws regarding district surplus</p> <p>ARHS: Search the net and seek assistance from advisory members, and career center. Create contacts with local industries and service organizations. Continue Submarine tour field trip. Approximate cost: \$800.00</p>	<p>AHS: Create partnerships with local industries to help students obtain internships, grants, assistance.</p> <p>AMHS: Stream audio and video of sporting events and other school related highlights. Establish a student enterprise of computer repair and custom computer building for clients. Student interns used in each class period to support daily teacher technology needs.</p> <p>ARHS: Create partnerships with local industries to help students obtain internships, grants, assistance.</p>

Seek new opportunities</p> <p>AMHS: Expand the curriculum to include advanced web design using Flash. Use advanced students to create staff web pages for individual subjects and assist staff in maintaining the page for class use as a training resource. Advertisements on a school run Radio and/or TV station.</p> <p>ARHS: Continue to update brochure, website, bulletins and district newsletters.</p>

☐ The program would like technical assistance with objectives and action steps above.

Annual Program Plan & Description for the 2015-2016 School Year

On behalf of the Program Advisory Committee for Electronics & Computer Maintenance, I
Alan Carter represent the members as having read, approved and
will support this program plan and description for the 2015-2016 school year. (E2.6,
P12)

CAREER & TECHNICAL EDUCATION (CTE)		PROGRAM:	Jewelry/Small Metal Sculpture
PROGRAM DESCRIPTION OVERVIEW (complete one per program per year)		Program provided at (check all that apply)	<input checked="" type="checkbox"/> Auburn High School <input checked="" type="checkbox"/> Auburn Mountainview High School <input checked="" type="checkbox"/> Auburn Riverside High School <input type="checkbox"/> West Auburn High School

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s)	2	Date(s) of meeting(s)	Minutes on File ✓
		1. October 23, 2014	X
Chairperson	Bill Meinhart	2. May 7, 2015	X

Advisory Committee Members		
Name	Representing	*Must have a minimum of three voting members
Karen Furuya	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Brenda Cregeen	Jewelry Industry	X voting <input type="checkbox"/> non-voting
John Ardissonnee	Ardissonnee Designing Jewelers	X voting <input type="checkbox"/> non-voting
Amy Reeves	Tacoma Metal Arts	X voting <input type="checkbox"/> non-voting
Bill Meinhart	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Debbie Wolters	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Jane Krohn	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Kinsey Jackson	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Alex Seitz	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Carolyn Buss	Jewelry Industry	X voting <input type="checkbox"/> non-voting
Chris Telford	Auburn High School	<input type="checkbox"/> voting X non-voting
Dorin Meinhart	Auburn Mountainview High School	<input type="checkbox"/> voting X non-voting
Barbara Knuth	Auburn Mountainview High School	<input type="checkbox"/> voting X non-voting
Kyle Rees	Auburn Riverside High School	<input type="checkbox"/> voting X non-voting
Wendy Woldenberg	Auburn Riverside High School	<input type="checkbox"/> voting X non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:	Yes	No*
10 Facilities meet trade standards	X	<input type="checkbox"/>
10 Equipment meets trade standards	X	<input type="checkbox"/>
10 Curriculum standards meet trade standards	X	<input type="checkbox"/>
*Any "No" responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.		

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

(duplicate page as needed)

	ARHS:	ARHS:	ARHS:
	WAHS:	WAHS:	WAHS:

List recommendations from surveys for program improvement.

AHS	AMHS	ARHS	WAHS
There needs to be additional help in the classroom. Sometimes there is a long wait because you have to help so many kids	More time spent making rings	Less Vocabulary, more making art.	N/A
Implementation of high tech (cad cam etc)	More help and more time needed on projects.	I would love to do more projects but I know time is really tight.	
More work in silver	Mixed level classes are not good.	It would be helpful if there was a way to ask questions without waiting in a long line.	
	Smaller class sizes are needed.		
	Stricter deadlines		

List strengths from surveys for program growth and stability.

AHS	AMHS	ARHS	WAHS
Classroom is better organized (contract study level student)	Fun projects, lots of hands-on time in the lab, variety of projects.	This class helps students find their creative side and teaches them how to build items on their own.	N/A
Freedom in design	Liked casting A LOT.	This class forces students to practice patience.	
Hands on active classroom	Teacher is helpful and approachable.	Teaches students how to responsibly use torches and drills and other tools.	
It's okay to make mistakes	Liked opportunity to express your creativity.	You learn how to make things other people who don't take the class will never be able to learn, and if they do they would have to pay for expensive classes.	
	Open Lab time is good

Extended Learning Opportunities Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
11/1/15	Downtown Tacoma	Visit the Art Museums and Galleries which have jewelry and glass displays	40	\$200
3/10/16	Downtown Seattle	Visit the International Gem and Jewelry Show and Seattle Art Museum.	35	\$200
4/20/16	Downtown Seattle	Visit Passing the Torch show	40	\$200

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Student lead projects in advanced jewelry in which they are given three projects to choose from. Adopted C.S. peer tutor model. Worked with counterparts to create power standards</p> <p>AMHS: Updated Jewelry Power Standards for Jewelry/Small Metal Sculpture 1 and 2.</p> <p>ARHS: Assign Standards to each project. Update vocabulary and create common assessments, tracking worksheets, powerpoints, and review tools in the area of industry-relevant vocabulary. Finish Power Standards for J 3 and 4. Worked with colleagues on the Curriculum Review process.</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> What modifications should be made to the curriculum? What is outdated? What is new and emerging? 	<p>AHS: Create more complete handouts for projects. Add non-acid etching, and hydraulic press to advanced curriculum.</p> <p>AMHS: To increase cohesion and clarity of instruction, abolish wide mix of class levels in the same class. Utilize industry (as well as student) models for projects.</p> <p>ARHS: Finish aligning all projects to the Jewelry/Metals Power Standards. Refine and add a "Current Trends Line" project for Contract Study students. Refine Vocabulary powerpoints.</p>	<p>AHS: Working towards streamlining assignments into a packet. Currently collecting present handout for refinements.</p> <p>AMHS: 12 different classes in 5 periods! Regular PLC meetings to refine Power Standards.</p> <p>ARHS: Design Jewelry 4 rubrics to reflect Jewelry Power Standards. Re-assess other course materials to be sure the new rubrics are working for Jewelry 1-3. Create a project which involves developing a line of jewelry which fits into current and upcoming trends.</p>	<p>AHS: As I pack up my classroom I as setting aside only the truly useful and needful things in an effort to "de-clutter" the class and my curriculum.</p> <p>AMHS: Be more proactive communicating clearly and often to counselors and REGULARLY check class lists for mixed level classes. Refine booklets to reflect Power Standards.</p> <p>ARHS: Make time and space to create these rubrics, new projects, and refined powerpoints.</p>	<p>AHS: I need to transfer over many of these documents to my google docs account and also to my teacher site so that students and parents can have more ready access</p> <p>AMHS: Incorporate Precision Testing into program as assessment.</p> <p>ARHS: Design Google Sites page to be current and complete with all projects and rubrics. Align projects with Common Core Standards as well as district, state, and national standards.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Complete tool boxes with 3-4 back up tools. Purchased a disc cutter. Casting machine was replaced after the previous one fell apart</p> <p>AMHS: Purchased new disc cutter and ultrasonic cleaner</p> <p>ARHS: Square and oval cutters and new magnetic tumbler. New steam cleaner did not happen.</p>	<p>Instructional Tools and Equipment</p> <ul style="list-style-type: none"> What tools are needed to deliver the curriculum? Does equipment meet industry standard? Are teaching tools updated and relevant? 	<p>AHS: Pursuing hydraulic press to align with other two schools. Will be receiving new benches with the opening of the new school.</p> <p>AMHS: New bench tops and repair of tool drawers</p> <p>ARHS: New tip on Inside Ring Engraver, Large Magnetic Pin Finisher, Large Tumbler, Steam Cleaner</p>	<p>AHS: Current objective is to maintain what we have and if given the ok on the hydraulic press prepare a new space for it at the new building.</p> <p>AMHS: New bench tops are needed and tool drawers need reinforcement.</p> <p>ARHS: Through Curriculum Review process, we hope to get a few new pieces of equipment, especially some that will reduce the need for using the Buffing Wheel. Current objective is to work on tool maintenance so we don't need to purchase too many new hand tools.</p>	<p>AHS: Hydraulic press would be from capital outlay monies. Approx. 2,000</p> <p>AMHS: Investigate costs and supplier of new bench tops. Upgrade saws. Recycle broken tools.</p> <p>ARHS: Work with district on Curriculum Review process to acquire new tools. Work with students on maintaining current tools.</p>	<p>AHS: Dies for press. New tumbler, hammers.</p> <p>AMHS: Steam cleaner</p> <p>ARHS: Large anvil, forging/forming stakes, engraving blocks, Computer aided carving equipment.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Rotating cleaning schedule and tool box inventory. Minor cuts were the only incidents.</p> <p>AMHS: Condensing and improving of safety paperwork check off tests. Repair of broken torch part. Moving of drop shear to accommodate ceramics traffic to kilns.</p> <p>ARHS: Chair bottoms were secured, though they need it again. Eyewash station was repaired. TV/VCR was removed, which was a bumping hazard. Casting Machine was removed, which was a tripping hazard.</p>	<p>Safety (E2.5a, P1.3)</p> <ul style="list-style-type: none"> How is safety addressed in the program? Are there established safety procedures? How is safety instruction provided to students? 	<p>AHS: Remake safety signs. Place safety in new class.</p> <p>AMHS: Need all day para help to reinforce safety and cut down on tool misuse.</p> <p>ARHS: New safety tape on the ground. Chair bottoms need to be secured. Continue having a para-educator to help with safety daily. Need blinds to replace curtains, which are a safety hazard (work order was ignored this year).</p>	<p>AHS: Currently perform one-on-one safety checks after administering a safety test. Having both a written and visual reinforcement helps cut down on safety violations</p> <p>AMHS: Floor can be slippery. Soldering areas are "split up" Only having a para two periods a day increases students' forgetfulness of safety rules and increases their abuse of equipment.</p> <p>ARHS: Safety tests are administered and recorded. Having a para-educator drastically cuts down safety violations.</p>	<p>AHS: Type up safety sheets.</p> <p>AMHS: Stress to administration the importance of all day para help. Install tennis balls on chair bases to reduce noise and save floors. Install projector onto ceiling to increase floor space. Investigate slipperiness of floor.</p> <p>ARHS: Work orders for chair bottoms, blinds, and safety tape.</p>	<p>AHS: ...Safety video, some day</p> <p>AMHS: Study traffic flow of room to eliminate bottlenecked areas. Reinforce and improve clean-up schedules and upkeep of equipment.</p> <p>ARHS: Reinforce safety lectures, update safety signage, make sure tape is visible, and continue to enforce safety rules.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Worked towards better organization. Tool boxes, surplus tools, cabinets etc.</p> <p>AMHS: Moved investment cart to less congested part of lab. Repair tool drawers and catch drawers on student benches</p> <p>ARHS: Painted jeweler's benches, replaced damaged hooks, removed old casting machine, removed TV/VCR, re-configured the jeweler's benches, organized supply room.</p>	<p>Facilities (E2.5b, E2.5c, P1.3a, P1.3b, P1.3c)</p> <ul style="list-style-type: none"> How do the program facilities relate to those in industry? What modifications can be made if industry facilities are not feasible? What modifications are necessary to support the curriculum? 	<p>AHS: Build a new class room.</p> <p>AMHS: Get more items off the floor to ease traffic flow. Get torch holders</p> <p>ARHS: Continue organizing the supply room to make it more accessible and usable. Continued maintenance on jeweler's benches, including painting and sanding. Paint the hallway in a deep grey color.</p>	<p>AHS: Packing up and disposing of unnecessary items</p> <p>AMHS: Packing up and recycling of scrap metal is needed. Students waste solder. Organization and cleaning is a constant struggle.</p> <p>ARHS: Make time to continue organizing the supply room. During the final week of school, carve out time for students to help sand and paint the jeweler's benches. Work order has been placed for painting the hallway.</p>	<p>AHS: Purchase label maker to start out the year with everything clearly marked \$80</p> <p>AMHS: Improve efficiency of instructor demo station: cords, flex cam, speakers, etc. Study and install torch holder Organize back room, file cabinets, closets</p> <p>ARHS: Find space and time to work on organization of supplies. Follow-up on workorder for hallway painting. Buy supplies for sanding and painting student jeweler's benches.</p>	<p>AHS: Strict observation to make sure that the new desk aren't treated as poorly as the current ones were.</p> <p>AMHS: Replace hoses in soldering area. Install an ON / OFF ventilation switch in soldering area.</p> <p>ARHS: Less messy polishing wheels. New jeweler's benches. Paint entire room, mount the projector on the ceiling.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Offered open labs at least weekly. Participated in passing the torch again.</p> <p>AMHS: Weekly Open Labs Bi-monthly Jewelry Club meetings. Field trips to Tacoma Third Thursday, SAM Peru exhibit and Passing the Torch show at BAM. City of Auburn Student Art show. Passing the Torch 2014. End of the Year Art show</p> <p>ARHS: Got students out of the classroom with a fieldtrip to Chihuly Glass Gardens, the Washington State Convention Center, and the Space Needle. ARHS Art Show and Film Festival, Future Freshman Night, and Passing the Torch. Open Labs every week.</p>	<p>Extended Learning Opportunities (E2.3, P1.5)</p> <ul style="list-style-type: none"> How does student learning extend outside of the classroom? What work-based learning opportunities are available in this program? What field trips will be planned that are aligned to the program? 	<p>AHS: I want to get the students out of the classroom. I think a joint field trip with two or all three schools would be good for a number of reasons.</p> <p>AMHS: Take a field trip to Tacoma to participate in Metal-Urge. Field trip to Seattle to PTT. Visiting artist / guest speaker.</p> <p>ARHS: Build two field trips for the school year, one each semester. First semester, possibly the Gem and Jewelry Show and Seattle Art Museum. Second semester, visit the Passing the Torch exhibit if possible, and build in other art opportunities.</p>	<p>AHS: I have been in contact with a former student who is willing to show some fold forming techniques to my advanced classes.</p> <p>AMHS: Organize and make trips happen. Contact guest speaker.</p> <p>ARHS: Decide which locations make sense and contact them as soon as possible. Work with Auburn government for parking passes. Apply for the field trip as early as possible to be sure to secure it.</p>	<p>AHS: Discuss logistics with counterparts.</p> <p>AMHS: Complete paperwork for field trip. Secure CTE funding for buses. Contact visiting artists.</p> <p>ARHS: Work with the district to get paperwork in early. Call locations we will visit and set up a schedule.</p>	<p>AHS: Website linked to my teacher page to showcase student work</p> <p>AMHS: Promote student work online. Showcase student work at local venues (Booster Club Craft Sale, Auburn Farmers' Mkt) Display student work in local jewelry businesses.</p> <p>ARHS: Opportunities for students to sell work and apprentice. Certifications for students. More guest speakers. Locate internships for interested students.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continue to develop network of contacts to create post high school opportunities</p> <p>AMHS: Continue developing connections with Seattle Metals Guild. Invited Nancy Worden to speak to students about her work and getting started in the field.</p> <p>ARHS: Showed powerpoint about career choices which relate to the skills learned in our classes. Upper level students researched a career field related to their skill-set in Jewelry Design and presented to their peers.</p>	<p>Post-Secondary Connections</p> <ul style="list-style-type: none"> • What post-secondary opportunities are available for students who participate in this program? • What industry certifications could be infused into this curriculum? (P1.6) 	<p>AHS: Create one day worksheet, or exercise, that demonstrates jewelry connections to other fields</p> <p>AMHS: Contact colleges (NCC and CWU) about promoting their programs to students</p> <p>ARHS: Improve on powerpoint which links jewelry skills to skills in other career areas. Strengthen the Certificate of Mastery and Completion of the Jewelry program. Continue to show powerpoint of career choices which relate to the skills learned in our classes. Strengthen the powerpoint. Continue to have students do a research project on career opportunities. Students will complete portfolios at 3rd and 4th levels.</p>	<p>AHS: Guest speakers that can speak not only to the hard skills needed in industry but also the interpersonal and other workplace skills.</p> <p>AMHS: Bring in more guest artists and employers to visit classes and speak to students.</p> <p>ARHS: Make time to decide what skills must be mastered, what projects must be done, what presentations must be completed, for a student to earn their Certificate of Mastery (in addition to successfully completing 4 semesters). Make time to update career powerpoint.</p>	<p>AHS: Research and compile a list of related careers</p> <p>AMHS: Work on portfolio piece for students. Help students connect jewelry to employability skills</p> <p>ARHS: Continue to discuss post-secondary options with students. Help students make a strong portfolio of their accomplishments in jewelry classes. Make time to take the powerpoint up a notch. Create a checklist for the Certificate of Mastery.</p>	<p>AHS: Industry connections that can lead to job opportunities for my students.</p> <p>AMHS: Encourage students to apply for Boeing internships as well as other manufacturing opportunities</p> <p>ARHS: Arrange for internships, apprenticeships, and/or starter jobs for high school graduates who wish to pursue a career in Jewelry and Metalsmithing.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Participated in Future freshman night. Staff appreciation piece. Word of mouth continues to be my greatest advertiser</p> <p>AMHS: Participated in Future Freshman Night. Started a Jewelry Club.</p> <p>ARHS: Orientation classes tour and make a quick project in metals. Certificate of Mastery and Completion, Passing the Torch, Saul Bell Emerging Artist, Student Art Show, Staff Commission project, field trips, Staff Appreciation Piece, Future Freshman Night.</p>	<p>Program Promotion* How do we market our program to students, parents, and the community?</p> <ul style="list-style-type: none"> Who is our target audience with regards to promotion? What promotional items do we have? What is our promotion plan? 	<p>AHS: Add to announcements in the bulletin to try and recruit more students for my jewelry 5/6 classes</p> <p>AMHS: Invite Orientation classes to lab, sponsor Jewelry Club activities, participate in local and state wide shows, field trips to museums, Passing the Torch and Certificate of Mastery</p> <p>ARHS: Start a Jewelry Club. Continue inviting Orientation classes to help generate word-of-mouth interest. Enter competitions designed to make students perform their best, Staff Commission project. Certificate of Mastery and Completion, field trips. Continue highlighting the program at Future Freshman Night. Create jewelry displays as often as possible in the hallway case.</p>	<p>AHS: I have seen a large increase to the number of 9th graders this year which should lead to more students in my advanced classes</p> <p>AMHS: Large increase in guys taking Jewelry class. Increase of student enrollment in upper levels.</p> <p>ARHS: Fill classes with a mix of 9th, 10th, 11th, and 12th grade students. This would allow for students to complete the program if they are interested. Students are interested in the Club, and even interested in becoming officers.</p>	<p>AHS: Promote the program with more displays in the hallways (easier at new building)</p> <p>AMHS: Promote program through school wires page and news articles</p> <p>ARHS: Work with Rio Grande to add a high school category back into their Saul Bell Emerging Artist competition. Continue work with all the programs mentioned in the "Recommended Objectives" column.</p>	<p>AHS: Rotating the projects while teaching the same fundamental skills. New projects will keep me interested which will add to their buy in.</p> <p>AMHS: Connect program to other related areas: product design, fashion, science, engineering.</p> <p>ARHS: Continue to have demand of the class outpace supply of seats. Keep the program interesting, relevant, and fun. Stay healthy and focused.</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continue a focus on the aspects of Jewelry that are a commonality with traditional art classes</p> <p>AMHS: Reinforce Elements of Art and Principles of Design.</p> <p>ARHS: Continue teaching and re-teaching the Elements of Art and Principles of Design to keep a strong cross-credit with Art. Focus on the CBA as a relevant part of this process.</p>	<p>Cross Credit Options How does this program align with general academic areas such as reading, writing, math, science, arts, social studies?</p> <ul style="list-style-type: none"> How are Common Core State Standards for English Language Arts (reading, writing, communication, language) and Mathematics taught and assessed in the curriculum? How are Grade Level Expectations (GLEs) for science, arts, social studies, health, fitness taught and assessed in the curriculum? (E1.1) 	<p>AHS: Use specific language in assignments noting not only power standards for both Art and Jewelry but that call out alignment with common core</p> <p>AMHS: Align Common Core Standards from math (esp. measuring and angles), language arts (technical reading, following and writing instructions) and science (material composition, metallurgy)</p> <p>ARHS: Align Common Core Standards from English, Language Arts, and Math with curriculum taught and assessed in Jewelry/Small Metal Sculpture.</p> <p>ALL: Name change from Jewelry/Small Metal Sculpture to Jewelry/Metal Sculpture.</p>	<p>AHS: Attending a meeting on May 15th that specifically addresses common core in CTE classrooms</p> <p>AMHS: Reinforce arts vocabulary.</p> <p>ARHS: Teach arts concepts, industry-relevant concepts, and encourage students to take advantage of work-based-learning.</p>	<p>AHS: Procure sub for meeting (done)</p> <p>AMHS: Align Common Core State Standards with program</p> <p>ARHS: Familiarize with Common Core in order to better align. Continue giving and assessing the CBAs, which test art-related concepts.</p>	<p>AHS: Maintain high rigorous standards as both a CTE and ART class that also touches on state Core standards of English and math</p> <p>AMHS: Continue aligning course to Arts and CTE standards</p> <p>ARHS: Research and confirm that colleges will accept Jewelry courses as Art credits. Educate the counselors of this information.</p>

□ The program would like technical assistance with objectives and action steps above.

Annual Program Plan & Description for the 2015-2016 School Year

On behalf of the Program Advisory Committee for Jewelry/metal sculpture, I
Karen Furuya represent the members as having read, approved and
will support this program plan and description for the 2015-2016 school year. (E2.6,
P12)

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

♦Facilities meet trade standards

Yes

No*

☒

☐

♦Equipment meets trade standards

☒

☐

♦Curriculum standards meet trade standards

☒

☐

* Any "No" responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
Oct 2015	Seattle, WA	Attend AGC Construction Career Day	45	School Bus, Substitutes
May 2015	Seattle, WA	Attend Women in Trades Conf.	40	Thru Career Center
May-June	Auburn, WA	Orion to be planned	15	School Bus

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: -Robotics team Tread 3219 competed at regionals and state finals</p> <p>Machinist training course taught full year 2 period block with two periods of welding. WAHS	Green River C.C	Tour campus and explore programs	20	TBD
WAHS	Women In Trade	Untraditional careers to inspire women	20	TBD

CTE Program Planning Document
2015-2016

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-15 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-16	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AMHS Continued to support Careers with Children program through community placement.</p> <p>Interior Design and Fashion Courses count towards Art Credit.</p> <p>Continued School Wires Internet Support for FACSE courses.</p>	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> What modifications should be made to the curriculum? What is outdated? What is new and emerging? 	<p>AMHS Meet with Master Schedule planning administrator to review course offerings.</p> <p>Continue to support online posting of course materials on School Wires and investigate use of Edmodo as a bridge to School Wires.</p> <p>Develop curriculum to align with Auburn School District FACSE Frameworks.</p> <p>Auburn High School New instructor for FACSE classes.</p> <p>Develop curriculum to align with Auburn School District FACSE Frameworks.</p> <p>WAHS Support online posting of course materials on School Wires.</p> <p>Maintain quality programs with fixed yearly budget.</p> <p>Gain proficiency with the electronic real care baby program.</p>	<p>AMHS In process. Administration is supportive of FACSE courses and appropriate placement for students as well as course placements on the master schedule.</p> <p>Ongoing processes as new counseling positions evolve.</p> <p>Technology advancement is constantly evolving. AMHS staff encouraged to use resources- School Wires, Edmodo, Google classroom.</p> <p>Auburn High School In progress</p> <p>WAHS Continuing to update curriculum to meet or exceed Health and Family and Consumer Science Classes</p> <p>Maintain a quality program.</p>	<p>AMHS Preview placement of students so that they are placed in programs that they can be successful. Work with administration and counselors to accomplish success for those enrolled. Learn Edmodo and apply to teaching. Continue to prep and present for this freshman activity.</p> <p>Auburn High School 1. Align Independent living curriculum with ASD FACSE Framework. 2. Align Careers with Children Curriculum with ASD FACSE Framework.</p> <p>WAHS Work with School Counselor to preview placement of students so that they are placed in correct curriculum programs so that they can graduate on time. Look into Running Start so West Auburn Students can earn high school and college credit as a way to keep them interested in</p>	<p>AMHS Continue to merchandize FACSE program to maintain quality program and opportunities for students.</p> <p>Continue to support curriculum changes and advancements. Explore new web based learning opportunities.</p> <p>Establish a solid link to middle school programs to increase FACSE enrollment at secondary level.</p> <p>Auburn High School Continue to improve curriculum and assessments to frameworks.</p> <p>WAHS Add Chrome books for Family and Consumer Science students. This learning tool will help to integrate more technology in the classroom environment. Access to cable or satellite provider to access educational programming.</p>
<p>Auburn High School Health is aligned and assessing according to Power Standards and Standards Based Grading.</p> <p>Nutrition and Wellness has enhanced options for earning required Health credit. Class is favorable amongst students and administration.</p> <p>WAHS Increased Enrollment in Nutrition and Wellness; also in Health</p> <p>Continued School Wires internet support for FACSE courses.</p>					

CTE Program Planning Document
2015-2016

<p>ARHS Create a rubric system used by all FCS instructors in the Auburn School District</p>		<p>ARHS Develop curriculum to align with the demands from OSPI via FACSE Frameworks.</p> <ul style="list-style-type: none"> • Learning targets (I can statements) • Assessment Rubrics 	<p>ARHS Curriculum Adoption year, rewrite the district FCS frameworks</p>	<p>school. Goal setting. Work with Administration and counselors to accomplish success for those enrolled</p> <hr/> <p>ARHS Education change is quickly- be open minded with current and future changes</p>	<p>Add SMART board as a teaching aid.</p> <p>Continue to have facilities meet industry standards. Preview placement of students so that they are placed in programs where they can experience success.</p> <hr/> <p>ARHS Need more courses that teach young adults how to be successful in the day to day matters of life.</p>

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

CTE Program Planning Document
2015-2016

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AHS: Continue to review and modify curriculum to meet school to work, real life applications, such as Green Construction for Architecture. Review of current software. Implement and make necessary corrections to lesson plans and projects.</p> <p>AMHS: Continue to review and modify curriculum to meet school to work and real life applications, such as real time parts for robotics, concepts related to architecture. Review of current software and looking to update to new Autodesk software package offered to schools for free. Annual Program Plan & Description for the 2015-2016 School Year

On behalf of the Program Advisory Committee for ENGINEERING DESIGN, I
Jeffrey Brant represent the members as having read, approved and
will support this program plan and description for the 2015-2016 school year. (E2.6,
PI2)

<u>Jeffrey Brant</u>	<u></u>	<u>5/7/15</u>
Typed Name of Chairperson(s)	Signature of Chairperson(s)	Date

PROGRAM: Visual Communications

**Program
provided at
(check all that apply)**

(complete one per program per year)

- ☒ Auburn High School
☒ Auburn Mountainview High School
☒ Auburn Riverside High School
☐ West Auburn High School

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **2****Date(s) of meeting(s)**

**Minutes
on File ✓**

Chairperson **Scotty Davidson**

1. October 20, 2014

2. May 7, 2015

[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

- ◆ Facilities meet trade standards
- ◆ Equipment meets trade standards
- ◆ Curriculum standards meet trade standards

Yes	No*
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>

*Any “No” responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
Fall/Spring	Orlando/LA	JEA	10	5000
May 2016	Pike Place Market	CBA	50	500
Nov 2015	TBD	CBA	50	500
March 19 2016	Auburn High School	Students attend and participate in state journalism convention and workshop	25	YB Fund
April 2016	Los Angeles CA	Students attend and participate in national journalism convention and workshop	10-15	YB Fund

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future

Annual Program Plan & Description for the 2015-16 School Year

On behalf of the Program Advisory Committee for Scott Davidson, I
_____ represent the members as having read, approved and
will support this program plan and description for the 2015-16 school year. (E2.6, PI2)

Scott Davidson
Typed Name of Chairperson(s)

Signature of Chairperson(s)

5/1/15
Date

PROGRAM: Woodworking & Design

**Program
provided at
(check all that apply)**

(complete one per program per year)

- ☒ Auburn High School
☒ Auburn Mountainview High School
☒ Auburn Riverside High School
☐ West Auburn High School

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **3****Date(s) of meeting(s)**

**Minutes
on File ✓**

Chairperson **Mike Lindstrom**

1. Oct. 21, 2014
2. May 7, 2015

[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

Yes **No***

♦Facilities meet trade standards (with ARHS wall removal June 2015 (hopefully))

☒ ☐

◆Equipment meets trade standards

☒ ☐

♦Curriculum standards meet trade standards

☒ ☐

* Any “No” responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
Oct 2015	Seattle, WA	Attend AGC Construction Career Day	45	School Bus, Substitutes
May 2016	Seattle, WA	Attend Women in Trades Conf.	40	Thru Career Center
2015	Puyallup, WA	Visit Master Millwork Corp. and Warmoth Guitars	12	School Bus, Substitutes

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>ARHS: Replaced one Metersaw with 10" Bosch.</p> <p>Replaced portable power tools as needed.</p> <p>Acquired newer lathe from AHS.</p> <p>AHS: New lab set up; tool panel construction and installation.</p> <p>Computer/study room counters built and installed.</p> <p>New safety line and machine placement complete.</p> <p>Replace of 15 year old miter saw with new Bosch saw.</p> <p>AMHS: Replaced Portable hand drills and sanders.</p>	<p>Instructional Tools and Equipment</p> <ul style="list-style-type: none"> • What tools are needed to deliver the curriculum? • Does equipment meet industry standard? • Are teaching tools updated and relevant? 	<p>ARHS: Replace table saws with "SawStop" models. ASD is one of the few districts in WA that is not providing "Sawstops".</p> <p>Replace Powermatic planner (parts no longer available for current model).</p> <p>Plan for Laser replacement when needed. Up-grade to higher wattage if possible.</p> <p>Install newer wood lathe.</p> <p>AHS: Keep curriculum aligned with National Woodworking or Common Core Standards.</p> <p>Purchase new Woodworking books to align with the program being taught.</p> <p>Continue to add STEM activities for students.</p> <p>Larger Laser is needed for industry training.</p>	<p>ARHS: Maintaining current shop equipment. Working with ASD maintenance department as needed.</p> <p>Researching replacement options.</p> <p>Work ASD maintenance to replace motor and install lathe.</p> <p>AHS: Reviewing national and other state standards during PLC time.</p> <p>Pricing has been received for new books, \$83.75 each A class set of 28 plus tax would be \$2,572.75</p> <p>Developing student projects incorporating STEM – ShopBot and Laser activities.</p> <p>Developing higher level math activities for students.</p> <p>Purchase new bench vises to replace the 30 year old ones we currently have (cost approximately 6 @</p>	<p>ARHS: Sawstops (\$2900 each) Planer (need to research cost)</p> <p>Motor and controls for wood lathe (\$ 1000)</p> <p>Laser Replacement (\$?)</p> <p>AHS: Discuss with the district why we have a need for new books. Our last books were purchased in 1997 and are for Cabinetry not woodworking. Get P.O. started for new books plus workbooks</p> <p>Sawstops (\$2900 each)</p> <p>Laser Replacement 75 watt (\$15,000.)</p> <p>New work benches, solid wood top with vises and lockers. (\$9,000.)</p> <p>AMHS Complete necessary request, research options,</p>	<p>ARHS: Review equipment usage and adapt to meet current needs. Follow recommendations of the 2015 -2016 Woodworking and Design advisory board</p> <p>AHS: To truly update the woodworking program new text books are needed.</p> <p>Look into adding the program "Engineering by Design" to give students more access to programs that will support our laser and shopbot programming.</p> <p>Develop student projects to support industry skills currently needed.</p> <p>Purchase air cleaners</p> <p>AMHS Review equipment usage and adapt to</p>

		<p>New work benches and vises.</p> <p>AMHS: Replace equipment that is wearing down with use, look to bring in some metal fabrication equipment, Mill, Drill Press, Metal bandsaw, Lathe for fabrication. Purchase Laser for program, update software (additional seats of Mastercam), and update lab cpu (622). Replace table saws with "Sawtops".</p>	<p>\$1,500.ea.)</p> <p>AMHS Maintain current machinery and look at bringing in some metal working equipment for fabrication and production of parts. (\$3200)</p>	<p>including CTE funding, Grants, partners in industry. Some of the metal working equipment is being pursued through connections made with FIRST Robotics and mentors.</p>	<p>meet current needs. Follow recommendations of the 2014 -2015 Woodworking and Design advisory board and Drafting Advisory.</p>

☐ West Auburn High School

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meeting(s) **2****Date(s) of meeting(s)****Minutes
on File ✓**

Chairperson **Joel Johnson, PT**

1. 11/5/14

2. 3/4/15

☒☒[illegible]

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

- ◆ Facilities meet trade standards
- ◆ Equipment meets trade standards
- ◆ Curriculum standards meet trade standards

Instructors CTE instructors hold a valid Career and Technical Education teaching certificate for the content area in which he or she is assigned. . .with the appropriate certification, knowledge, skills and occupational experience (P1.4 & E2.4, P1.4a, E2.4a). After initial certification and five years of teaching, certified CTE teachers should gain additional experience in one or more of the jobs or careers in their teaching area. This experience should take place every five years.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
March	University of Washington	Health Medical Tours/ Career exploration	60	300.00
April	Tri cities Convention Center	WCSTMA State Competition	25	1500.00

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AMHS: Curriculum is aligned 2nd year for Textbook for Anatomy & Physiology</p> <p>AHS:</p> <p>ARHS:</p> 	<p>Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b)</p> <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging? 	<p>AMHS: Work through Curriculum 3rd year of new updates.</p> <p>AHS: Continue to align assessments and follow curriculum review</p> <p>ARHS: Continue to work with curriculum following any updates that are recommended</p>	<p>AMHS: Implement web based ADAM</p> <p>AHS: Implement web based adam</p> <p>ARHS: Continue to work on learning objectives and to meet them</p>	<p>AMHS: NA</p> <p>AHS: NA</p> <p>ARHS NA</p>	<p>AMHS: Continue to update as needed. Look at online text. Next update in 2 years.</p> <p>AHS: Explore textbook options</p> <p>ARHS: Continue to improve on program</p>

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
<p>AMHS: Renewed ADAM on line. Purchased new Gatorade Cart, Reupholstered training tables. Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Number of meetings	2	Dates of meetings	Minutes on File ✓
Chairperson	<u>Lorilee Thompson</u>	1. 10/23/14	<input checked="" type="checkbox"/>
		2. 5/7/15	<input checked="" type="checkbox"/>

Advisory Committee Members		
Name	Representing	*Must have a minimum of three voting members
Lorilee Thompson	Auburn School District	<input checked="" type="checkbox"/> voting <input type="checkbox"/> non-voting
Kenneth Thompson	SeaTac Packaging	<input checked="" type="checkbox"/> voting <input type="checkbox"/> non-voting
Morgan Lickey	Northwest Center	<input checked="" type="checkbox"/> voting <input type="checkbox"/> non-voting
Brittany Lickey	DD Clients of Puyallup	<input checked="" type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input checked="" type="checkbox"/> voting <input type="checkbox"/> non-voting
Cindy Anderson	Auburn School District	<input type="checkbox"/> voting <input checked="" type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting
		<input type="checkbox"/> voting <input type="checkbox"/> non-voting

*A voting member is a representative from a business related to the occupational area of the program. Family and Consumer Sciences Education-Related Occupations shall include homemakers, parents and single parents, professionals, employers from business and industry, representative of health and welfare agencies, recent graduates, cultural and economic groups found in the community.

As a result of the Program Advisory Committee meetings noted above, the members determined that:

	Yes	No*
♦Facilities meet trade standards	<input checked="" type="checkbox"/>	<input type="checkbox"/>
♦Equipment meets trade standards	<input checked="" type="checkbox"/>	<input type="checkbox"/>
♦Curriculum standards meet trade standards	<input checked="" type="checkbox"/>	<input type="checkbox"/>

*Any "No" responses must be reflected in detail in the meeting minutes and should be referenced on the District Program Plan for this program.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Status of Current Objectives 2014-2015	Recommended Objectives for 2015-2016	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
ARHS: 1. Used the new Signing Naturally Curriculum for 1 st & 2 nd year ASL, & used Master ASL as a supplemental curriculum. 2. Used Doc Reader & Flip Camera's throughout the year 3. Completed the Articulation process for 3 rd year ASL students.	Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b) <ul style="list-style-type: none"> What modifications should be made to the curriculum? <ul style="list-style-type: none"> What is outdated? What is new and emerging? 	ARHS: 1.Continuing to become more familiar with Master ASL Curriculum & Revised Signing Naturally (1 st & 2 nd Year) 3.Increased number of students applying for SCCC credit.	ARHS: 1.Use the new Signing Naturally as primary curriculum for 1 st & 2 nd year ASL. 2. Become familiar with the new Signing Naturally Curriculum, Units 7-12 and incorporate in 2 nd & 3 rd year ASL classes. 3. More emphasis on career preparation/guest speakers. 4.Establish an ASL Song Night for the community. 4. Recruit new Advisory members.	ARHS: 1.Continue creating lesson plans for the new Signing Naturally curriculum 2.Contact ASL teachers that have hosted a Song/Performance Night, to showcase the ASL students signing skills. 3.Make more connections with professionals in careers using sign language, arrange for guest speakers, and job shadowing experiences.	ARHS: 1.Complete implementation of the new Signing Naturally curriculum. 2. Hire an additional ASL teacher, so the program can grow at ARHS, and will be added at the other district high schools.
ARHS: 1.Signing Labs, Doc Reader, Flip Camera's.	Instructional Tools and Equipment <ul style="list-style-type: none"> What tools are needed to deliver the curriculum? Does equipment meet industry standard? Are teaching tools updated and relevant? 	ARHS: 1.New Document Reader provided for ASL Program, and Flip Camera's.	ARHS: 1.Incorporate more lab assignments. 2. Become familiar with the new other interactive functions of the Doc Reader.	ARHS: 1. Network with other ASL teachers for lab activities.	ARHS: 1.Incorporate Chrome Books/Internet access into Signing Labs.
ARHS: 1.Fire drill, lock down & earthquake drills/procedures reviewed with students.	Safety* (E2.5a, P1.3) <ul style="list-style-type: none"> How is safety addressed in the program? Are there established safety procedures? How is safety instruction provided to students? 	ARHS: 1.Students updated on any new changes related to safety drills.	ARHS: 1.Become familiar with any updated safety drill procedures.	ARHS: 1.Remain current on any & all information related to safety procedures.	ARHS: 1.Continue providing students with information related to safety procedures.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Status of Current Objectives 2014-2015	Recommended Objectives for 2015-2016	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
ARHS: 1 .Maintain current classroom for all ASL classes. 2.Keep signing labs set-up in ASL classroom.	Facilities (E2.5b, E2.5c, P1.3a, P1.3b, P1.3c) <ul style="list-style-type: none"> How do the program facilities relate to those in industry? What modifications can be made if industry facilities are not feasible? What modifications are necessary to support the curriculum? 	ARHS: 1.Maintaining the same classroom for all ASL classes 2.Signing labs remain in ASL classroom.	ARHS: 1.Maintain same classroom, with signing labs intact.	ARHS: 1.Check with building administration regarding next year’s room assignments.	ARHS: 1.Increase the number of Signing Labs & other technology for the ASL Program
ARHS: 1.Increased number of students attending Deaf Community activities. 2.Advanced students taught local elementary school students some basic ASL.	Extended Learning Opportunities (E2.3, P1.5) <ul style="list-style-type: none"> How does student learning extend outside of the classroom? What work-based learning opportunities are available in this program? 	ARHS: 1.Deaf Community events advertised & attended throughout the school year.	ARHS: 1.Continue advertising Deaf Community events for student involvement. 3.Network to find professionals that use sign language in their jobs, to be guest speakers for my students.	ARHS: 1.Continue connection with ASL teacher Listserv & SCCC for extra-curricular opportunities	ARHS: 1.Create job shadowing opportunities for advanced ASL students.
ARHS: 1. World Language PLC work, incorporating the 5 C’s into each year of ASL instruction. 2.Make students aware that ASL is cross-credited with World Language.	Cross Credit Options How does this program align with general academic areas such as reading, writing, math, science, arts, social studies? <ul style="list-style-type: none"> How are Grade Level Expectations (GLEs) integrated into instruction. (E1.1) 	ARHS: 1.Discussed the Five C’s in the World Language PLC group, focusing specifically on Communication.	ARHS: 1.Continue fine-tuning the core components of the five C’s with curriculum in the World Language PLC group.	ARHS: 1.Review the notes from the PLC World Language group, and incorporate core components into the ASL curriculum.	ARHS: 1.Create a Standards Checklist of each level of ASL, with the five C’s incorporated.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Status of Current Objectives 2014-2015	Recommended Objectives for 2015-2016	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
ARHS: 1.Parents/guardians informed about SCCC credit. 2.Discussed the process of earning SCCC credit with students on a regular basis.	Post-Secondary Connections <ul style="list-style-type: none"> What post-secondary opportunities are available for students who participate in this program? What industry certifications could be infused into this curriculum? (P1.6) 	ARHS: 1.Maintained articulation agreement with SCCC for 1st & 2nd & 3rd year ASL. 2.Increased number of students applying for SCCC credit.	ARHS: 1.Increase number of students of each level of ASL applying for credit. 2. Provide more information regarding careers available for people that know American Sign Language.	ARHS: 1.Continue promotion of SCCC credit. 2. Network with professionals using American Sign Language in their careers & provide information for students wishing to pursue these careers.	ARHS: 1.Continue to maintain articulation agreement with SCCC. 2.Compile a comprehensive list of Post-Secondary opportunities for continued ASL studies & interpreter training.
ARHS: 1.Open House 2.Freshman Night 3.Electives Night	Program Promotion* How do we market our program to students, parents, and the community? <ul style="list-style-type: none"> Who is our target audience with regards to promotion? What promotional items do we have? What is our promotion plan? 	ARHS: 1.Program Promotion through School Events listed. 2. Student created promotion posters.	ARHS: 1.Create new program brochure, advertisement DVD. 2. During National Deaf Awareness Week, have ASL students visit various classes, sharing information about Deafness & American Sign Language.	ARHS: 1.Use old brochure as a template for a new one, with current information & pictures. 2.Offer ASL (Viscom) students extra-credit for creating a short promotion DVD.	ARHS: 1.Network with other ASL teachers regarding promotion ideas. 2. Use updated technology to create more interesting promotion materials.

Annual Program Plan & Description for the 2015-2016 School Year

On behalf of the Program Advisory Committee for American Sign Language, I Lorilee Thompson represent the members as having read, approved and will support this program plan and description for the 2015-2016 school year. (E2.6, P12)

Advisory Committee An advisory committee actively guides the relevance and continuous improvement of the program. It is a committee whose members should represent business and industry, education, labor organizations, special populations, community, government, students, parents and teachers. A majority of the members shall share an expert working knowledge of the job tasks and competencies required for related occupations, related labor market needs and courses necessary to meet these needs. The committee provides advice in the design, development, deliver, evaluation and continuous improvement of CTE programs. The committee meets on a regular basis and minutes are on file in the district.

Extended Learning Opportunities

Requested Field Trips

Date	Location	Purpose	# of Students	Anticipated Cost
TBD	Joint Base Lewis McChord	Intro to military installation/activities	30	\$400
TBD	JROTC Cadet Leadership Challenge. Camp Fife, WA	Leadership, competition, camaraderie, teamwork, fun	40	\$1000

Program plans are created by the program staff in each building in which the program is offered. Extended time is provided for collaboration and creation of these plans on a yearly basis and the components are aligned with the OSPI CTE Program Standards which are represented with the **E** (Exploratory) or **P** (Preparatory) and a corresponding number. (Please reference the OSPI CTE Program Standards for more detailed information about the components.) The premise behind this document is that each program advisory committee is an integral part of the planning process and that all program components center focus on preparing students for careers now and in the future.

Accomplishments 2014-2015 (to be completed prior to first advisory meeting)	Program Components	Recommended Objectives for 2015-2016	Status of Current Objectives	Action Steps for Recommended Objectives (include approximate costs)	Vision in 2-4 Years Needs for the Future
	Curriculum (E2.1, E2.2, P1.1, P1.1a, P1.1b) <ul style="list-style-type: none"> • What modifications should be made to the curriculum? • What is outdated? • What is new and emerging?
