SBAC Fourth Grade Guided Practice Informational Performance Task

**Task Overview and Teacher Directions:**

**Title:** Westward Movement

**Part 1**
Before writing an article for the explorer club, students will be introduced to the topic through reading two sources and watching a video. The first source is journals of Lewis and Clark. The second source is a poem about a pioneer woman and the last sources is a video about groups of people that travel west. Students should also have access to the sources throughout the performance task. After reading, and watching the video students will then respond individually to selected-response and constructed-response questions that address the research skills of analyzing information. Students are not allowed to change their answers once Part 1 is finished.

**Part 2**
Finally, students will work individually to write an article that is several paragraphs. The article needs to explain why groups of people traveled west, the costs and benefits of their decision, and the affects the geographic features had on their travel. Students may also refer to their notes, answers to their questions, or sources as needed. They cannot change their answers to the three reading questions they answered in Part 1. Drafting and revising will be involved.

**Scorable Products:** Student responses to the selected-response and constructed-response questions in part 1 and the article in part 2 will be scored.

**Teacher preparation/Resource requirements:** The teacher should ensure that sufficient blank paper and writing utensils are available for student note taking. Teacher should conduct standard preparation, registration, etc., for computer-based testing. The testing software will include access to spell check but not to grammar check.

**Estimated Time:** 90-105 Minutes
